Risk Indicator

The risk indicator is determined according to the following assumptions: (i) holding the product for 10 years, (ii) no early return on investment and (iii) no liquidity of the product during this period without a significant discount, strongly impacting the return on investment.

The summary risk indicator sets the level of risk of this product compared to other products. It shows the extent to which the product is subject to losing value due to adverse market movements or our inability to pay you. We have classified this product as 6 out of 7, which is the second highest risk class.

Future market developments are unpredictable and cannot be anticipated with accuracy. Changes to tax laws/treaties may adversely affect returns on your investment. This product does not include any protection from future poor market performance so that you may lose some or all of your investment.

WHAT HAPPENS IF THE FUND IS UNABLE TO PAY OUT?

Losses are not covered by an investor compensation or guarantee scheme. Furthermore, with respect to Edmond de Rothschild (Europe) S.A. as depositary of the Fund responsible for the safekeeping of the assets of the Fund (the "Depositary"), there is a potential default risk if the assets of the Fund held with the Depositary are lost. However, such default risk is limited due to the rules set out in Article 19 of the AIFM Law and in the Commission Delegated Regulation (EU) 231/2013, which require a segregation of assets between those of the Depositary and the Fund. The Depositary is liable to the Fund or to the investors of the Fund for the loss by the Depositary or one of its delegates of a financial instrument held in custody unless the Depositary is able to prove that the loss has arisen as a result of an external event beyond its reasonable control. For all other losses, the Depositary is liable in case of its negligent or intention failure to properly fulfil its obligations pursuant to the AIFM Law and any applicable rules and regulations.

The term "Net" refers to the fact that the return is after costs.
