

MiFID II product governance / Retail investors, professional investors and eligible counterparties target market

– Solely for the purposes of the manufacturer's product approval process, the target market assessment in respect of the Notes, taking into account the five (5) categories referred to in item 18 of the Guidelines published by the European Notes and Markets Authority (**ESMA**) on 5 February 2018, has led to the conclusion that: (i) the target market for the Notes is eligible counterparties, professional clients and retail clients, each as defined in Directive 2014/65/EU (as amended, **MiFID II**); and (ii) all channels for distribution to eligible counterparties and professional clients are appropriate; and (iii) the following channels for distribution of the Notes to retail clients are appropriate - investment advice and portfolio management and non-advised sales and pure execution services, subject to the suitability and appropriateness obligations of the Distributor (as defined below) under MiFID II, as applicable. *The target market assessment indicates that Notes are incompatible with the needs, characteristic and objectives of clients which are fully risk averse or have no risk tolerance or are seeking on-demand full repayment of the amounts invested.* Any person subsequently offering, selling or recommending the Notes (a **Distributor**) should take into consideration the manufacturer's target market assessment; however, a Distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer's target market assessment) and determining appropriate distribution channels, subject to the Distributor's suitability and appropriateness obligations under MiFID II, as applicable.

PRIIPs Regulation – PROHIBITION OF SALES TO EEA RETAIL INVESTORS WITHOUT KID – The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area (**EEA**) without an updated key information document required by Regulation (EU) No 1286/2014 (as amended, the **PRIIPs Regulation**) for offering or selling the Notes or otherwise making them available to retail investors in the EEA. For these purposes, a **retail investor** means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of MiFID II; (ii) a customer within the meaning of Directive (EU) 2016/97, as amended, where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Regulation (EU) 2017/1129, as amended (the **Prospectus Regulation**).

UK PRIIPs Regulation – PROHIBITION OF SALES TO UK RETAIL INVESTORS – The Notes are not intended to be offered, sold or otherwise made available to, and should not be offered, sold or otherwise made available to, any retail investor in the United Kingdom (**UK**). For these purposes, a **retail investor** means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 (**EUWA**); (ii) a customer within the meaning of the provisions of the FSMA and any rules or regulations made under the FSMA to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA; or (iii) not a qualified investor as defined in Article 2 of Regulation (EU) 2017/1129 as it forms part of domestic law by virtue of the EUWA. Consequently no key information document required by Regulation (EU) No 1286/2014 as it forms part of domestic law by virtue of the EUWA (the **UK PRIIPs Regulation**) for offering or selling the Notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

E. Redemption

Final Redemption:

Unless previously redeemed or purchased and cancelled, the Notes will be redeemed by the Issuer, by way of cash settlement, on the Maturity Date at 100 per cent of their nominal amount. The investor will receive a cash settlement amount per Note in the Specified Currency equal to EUR 1,000 (the **Final Redemption Amount**).

F. Other redemption events:

The Issuer may redeem early any or all FATCA Affected Notes and, in circumstances where the Issuer elects not to redeem a FATCA Affected Note, the holder of such FATCA Affected Note can subsequently request the Issuer to redeem such FATCA Affected Note, at its nominal amount.

A **FATCA Affected Note** means a Note in respect of which (i) the Issuer has or will become obliged to make any withholding or deduction pursuant to an agreement described in Section 1471(b) of the U.S. Internal Revenue Code of 1986, as amended (the **Code**) or any withholding or deduction otherwise imposed pursuant to Sections 1471 through 1474 of Code, or any fiscal or regulatory legislation, rules or practices adopted pursuant to any intergovernmental agreement entered into in connection with the implementation of such sections of the Code and (ii) such obligation cannot be avoided by the Issuer taking reasonable measures available to it.

3.2 What are the main risks specific to securities?

There are risk factors which are material for the purpose of assessing the risks related to the Notes, including the following:

- 1) The Rate of Interest in respect of Notes is determined by reference to a Relevant Benchmark that constitutes a "benchmark" for the purposes of Regulation (EU) 2016/1011, as amended (the Benchmarks Regulation) published in the Official Journal of the EU on 29 June 2016 and applied since 1 January 2018.
- 2) Interest rates and indices which are deemed to be "benchmarks" (including EURIBOR) are the subject of recent national and international regulatory guidance and proposals for reform. Some of these reforms are already effective whilst others are still to be implemented. These reforms may cause such benchmarks to perform differently than in the past, to disappear entirely, to be subject to revised calculation methods, or have other consequences which cannot be predicted. Any such consequence could have a material adverse effect on the Notes.
- 3) The Benchmarks Regulation could have a material impact on any Notes linked to or referencing a "benchmark", in particular if the methodology or other terms of the "benchmark" could be changed in order to comply with the requirements of the Benchmarks Regulation. Such changes could, among other things, have the effect of reducing or increasing the rate or level or otherwise affecting the volatility of the published rate or level of the "benchmark" and as a consequence, Noteholders could lose part of their investment.
- 4) The interest amount of the Notes is dependent upon changes in the market value of the Underlying which could adversely affect the market value of the Notes.
- 5) Movements in interest rates may be subject to significant fluctuations that may not correlate with changes in other indices and the timing of changes in the interest rates may affect the actual yield to investors. The market price of such Notes may be volatile and, if the amount of principal and/or interest payable is dependent upon movements in interest rates, may depend upon the time remaining to the redemption date and the volatility of interest rates. The performance of interest rates is dependent upon a number of factors, including supply and demand on the international money markets, which are influenced by measures taken by governments and central banks, as well as speculations and other macroeconomic factors. As a result, Noteholders are exposed to the risk that changes in interest rates may adversely affect the value of the Notes.
- 6) The Notes may have no established trading market when issued, and one may never develop; if a market does develop, it may not be very liquid; illiquidity may have an adverse effect on the market value of the Notes.
- 7) French insolvency law could have an adverse impact on Noteholders seeking repayment in the event that the Issuer were to become insolvent and could have a material adverse effect on the market value of the Notes.
