#### **Edmond de Rothschild (France)**

Under this €850,000,000 Euro Medium Term Note Programme for the issue of Notes due from one year from the date of original issue (the **Programme**), Edmond de Rothschild (France) (the **Issuer**) may from time to time and subject to compliance with all relevant laws, regulations and directives, issue Euro Medium Term Notes (the **Notes**) denominated in any currency agreed between the Issuer and the relevant Purchaser(s) (as defined below).

The Notes will be issued on a continuing basis to one or more of the specified Dealers and any additional dealer appointed under the Programme from time to time, which appointment may be for a specific issue or on an on-going basis (each, a **Dealer** and, together, the **Dealers**). Notes may also be issued to third parties other than Dealers. Dealers and such third parties are referred to as **Purchasers**. References in this Base Prospectus to the **relevant Purchaser** shall, in the case of an issue of Notes being (or intended to be) subscribed by more than one Purchaser, be to all Purchasers agreeing to purchase such Notes.

The maximum aggregate nominal amount of all Notes from time to time outstanding will not exceed €850,000,000 (or its equivalent in other currencies calculated as described herein). Subject to compliance with all relevant laws, regulations and directives, and to any exceptions set out herein, the Notes shall have a minimum maturity of one year and no maximum maturity. A description of the restrictions applicable at the date of this Base Prospectus relating to the maturity of certain Notes is set out below.

**An investment in Notes issued under the Programme involves certain risks. For a discussion of these risks see "Risk Factors".**

This Base Prospectus has been approved by the Luxembourg *Commission de Surveillance du Secteur Financier* (the **CSSF**), which is the Luxembourg competent authority for the purpose of **Regulation EU 2017/1129** (as amended or supplemented, the **Prospectus Regulation**), as a base prospectus issued in compliance with the Prospectus Regulation, the Luxembourg Law dated 16 July 2019 as amended (the **Prospectus Law 2019**), implementing the Prospectus Regulation, and any other relevant implementing legislation in Luxembourg for the purpose of giving information with regard to the issue of Notes under the Programme during the period of twelve months after the date of publication of this Base Prospectus. Consequently Notes issued under the Programme may be offered to the public, in accordance with the requirements of the Prospectus Regulation. By approving this Base Prospectus the CSSF gives no undertaking as to the economic or financial opportuneness of the transaction or the quality and solvency of the Issuer in line with the provisions of Article 6(4) of the Prospectus Law 2019.

This Base Prospectus shall be in force for a period of one (1) year from the date of approval of this Base Prospectus (i.e. the Base Prospectus shall be valid until 12 July 2025). The obligation to supplement this Base Prospectus in the event of a significant new factor, material mistake or material inaccuracy does not apply when this Base Prospectus is no longer valid.

Notes which do not require the publication of a prospectus under the Prospectus Regulation are referred to herein as **Exempt Notes**. The information document prepared in relation to any such Exempt Notes and addressed to potential investors shall not constitute and shall not be approved by the CSSF as a prospectus for the purposes of the Prospectus Regulation. **The CSSF has neither reviewed nor approved any information in relation to Exempt Notes.**

Application has also been made to the Luxembourg Stock Exchange for Notes issued under the Programme to be admitted to trading on the Luxembourg Stock Exchange's regulated market which is a regulated market for the purposes of the Markets in Financial Instruments Directive 2014/65/EU (as amended, **MiFID II**), appearing on the list of regulated markets issued by the European Commission (a **Regulated Market**) and to be listed on the Official List of the Luxembourg Stock Exchange.

Notice of the aggregate nominal amount of Notes, interest (if any) payable in respect of Notes, the issue price of Notes and any other terms and conditions which are applicable to each Tranche (as defined under "Terms and Conditions of the Notes") of Notes will be set out in a final terms document (the **Final Terms**) which, with respect

to Notes to be listed on the Official List of the Luxembourg Stock Exchange and admitted to trading on the regulated market of the Luxembourg Stock Exchange, will be filed with the CSSF.

The Issuer may agree with any Purchaser that Notes may be issued in a form not contemplated by the Terms and Conditions of the Notes herein, in which event a supplement to the Base Prospectus, if appropriate, describing the effect of the agreement reached in relation to such Notes will be made available.

The rating of certain Series of Notes (as defined below) to be issued under the Programme may be specified in the applicable Final Terms. Whether or not each credit rating applied for in relation to relevant Series of Notes will be issued by a credit rating agency established in the European Union and registered under Regulation (EC) No. 1060/2009 (as amended) (the **CRA Regulation**) and included in the list of credit rating agencies published by the European Notes and Markets Authority on its website ([https://www.esma.europa.eu/credit-rating-agencies/cra-  
authorisation](https://www.esma.europa.eu/credit-rating-agencies/cra-authorisation)) in accordance with the CRA Regulation will be disclosed in the Final Terms.

**This Base Prospectus is to be read in conjunction with all documents which are incorporated by reference (see "Documents Incorporated by Reference"). This Base Prospectus shall be read and construed on the basis that such documents are incorporated by reference in, and form part of, this Base Prospectus.**

**The Dealers have not independently verified the information contained herein. Accordingly, no representation, warranty or undertaking, express or implied, is made and no responsibility or liability is accepted by the Dealers, as to the accuracy or completeness of the information contained or incorporated by reference in this Base Prospectus or any other information provided by the Issuer in connection with the Programme or the Notes or their distribution.**

**No person is or has been authorised by the Issuer to give any information or to make any representation not contained in or not consistent with, this Base Prospectus or any other information supplied in connection with the Programme or the Notes or any other information made public by the Issuer and, if given or made, such information or representation must not be relied upon as having been authorised by the Issuer or any of the Dealers.**

**Neither this Base Prospectus nor any other information supplied in connection with the Programme or the Notes (i) is intended to provide the basis of any credit or other evaluation or (ii) should be considered as a recommendation or an invitation or offer by the Issuer or any of the Dealers for any recipient of this Base Prospectus or any other information supplied in connection with the Programme to purchase any Notes. Each investor contemplating purchasing any Notes should make its own independent investigation of the financial condition and affairs, and its own appraisal of the creditworthiness, of the Issuer. Neither this Base Prospectus nor any other information supplied in connection with the Programme or the issue of any Notes constitutes an offer by or on behalf of the Issuer or any of the Dealers to any person to subscribe or purchase any of the Notes.**

**Neither the distribution and delivery of this Base Prospectus nor the offering, sale or delivery of any Notes shall in any circumstances imply that the information contained herein concerning the Issuer is correct at any time subsequent to the date hereof or that any other information supplied in connection with the Programme is correct as of any time subsequent to the date indicated in the document containing the same. The Dealers expressly do not undertake to review the financial condition or affairs of the Issuer during the life of the Programme or to advise any investor in the Notes of any information coming to their attention.**

**The distribution of this Base Prospectus and the offer or sale of Notes may be restricted by law in certain jurisdictions. The Issuer and the Dealers do not represent that this document may be lawfully distributed, or that the Notes may be lawfully offered, in compliance with any applicable registration or other requirements in any such jurisdiction, or pursuant to an exemption available thereunder, or assume any responsibility for facilitating any such distribution or offering. In particular, no action has been taken by the Issuer or the Dealers (save for the approval of this document by the CSSF) which is intended to permit a public offering of the Notes or distribution of this document in any jurisdiction where action for that purpose is required. Accordingly, no Notes may be offered or sold, directly or indirectly, and neither this Base Prospectus nor any advertisement or other offering material may be distributed or published in any jurisdiction, except under circumstances that will result in compliance with any applicable laws and regulations, and the Dealers have represented that all offers and sales by them will be made on the same terms. Persons into whose possession this Base Prospectus or any Notes come must inform themselves about, and observe, any such restrictions on the distribution of this Base Prospectus and the offering and sale of Notes. In particular, there are restrictions on the distribution of this Base Prospectus and the offer or sale of Notes in the United States, the European Economic Area (including France, Luxembourg, Italy and Spain), Monaco and Switzerland (see "Subscription and Sale" below).**

**The Notes have not been and will not be registered under the United States Securities Act of 1933, as amended (the Securities Act), or with any securities regulatory authority of any state or other jurisdiction of the United States, and are in bearer form subject to U.S. tax law requirements. Subject to certain exceptions, Notes may not be offered, sold or delivered within the United States or to, or for the account or benefit of, U.S. persons (as defined in Regulation S under the Securities Act) (see "Subscription and Sale" below).**

**This document may only be distributed in "offshore transactions" to persons other than U.S. persons as defined in, and as permitted by, Regulation S under the Securities Act. Any forwarding, redistribution or reproduction of this document in whole or in part is unauthorised. Failure to comply with this notice may result in a violation of the Securities Act or the applicable laws of other jurisdictions.**

**Nothing in this document constitutes an offer of securities for sale in the United States or any other jurisdiction where it is unlawful to do so.**

**EEA MiFID II product governance / target market** – The Final Terms in respect of any Notes (or pricing supplement, in the case of Exempt Notes) will include a legend entitled "EEA MiFID II Product Governance" which will outline the target market assessment in respect of the Notes, taking into account the five (5) categories referred to in item 18 of the Guidelines published by the European Notes and Markets Authority (**ESMA**) on 5 February 2018, and which channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes (a "**Distributor**" as defined in MiFID II) should take into consideration the target market assessment; however, a Distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the MiFID product governance rules under EU Delegated Directive 2017/593 (the **MiFID Product Governance Rules**), any Dealer subscribing for any Notes is a manufacturer as defined in MiFID II in respect of such Notes, but otherwise none of the Arranger, the Dealers or any of their respective affiliates will be a manufacturer for the purpose of the MiFID Product Governance Rules.

**PRIIPs / IMPORTANT – EEA RETAIL INVESTORS** - If the Final Terms in respect of any Notes (or pricing supplement, in the case of Exempt Notes) includes a legend entitled "Prohibition of Sales to EEA Retail Investors", the Notes are not intended to be offered, sold or otherwise made available to, and should not be offered, sold or otherwise made available to, any retail investor in the European Economic Area (**EEA**). Consequently no key information document required by Regulation (EU) No 1286/2014 (as amended, the **PRIIPs Regulation**) for offering or selling the Notes or otherwise making them available to retail investors in the EEA (a **Key Information Document**) has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation. If the Final Terms in respect of any Notes (or pricing supplement, in the case of Exempt Notes) includes a legend entitled "Prohibition of Sales to EEA Retail Investors Without KID", the Notes are not intended to be offered, sold or otherwise made available to, and should not be offered, sold or otherwise made available, to any retail investor in the EEA without an updated Key Information Document. For these purposes, a **retail investor** means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of MiFID II; (ii) a customer within the meaning of Directive (EU) 2016/97, as amended, where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in the Prospectus Regulation.

**PRIIPs / IMPORTANT – UK RETAIL INVESTORS** - If the Final Terms in respect of any Notes (or pricing supplement, in the case of Exempt Notes) includes a legend entitled "Prohibition of Sales to UK Retail Investors", the Notes are not intended to be offered, sold or otherwise made available to, and should not be offered, sold or otherwise made available to, any retail investor in the United Kingdom (**UK**). Consequently no key information document required by Regulation (EU) No 1286/2014 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 (**EUWA**) (as amended, the **UK PRIIPs Regulation**) for offering or selling the Notes or otherwise making them available to retail investors in the UK (a **Key Information Document**) has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation. If the Final Terms in respect of any Notes (or pricing supplement, in the case of Exempt Notes) includes a legend entitled "Prohibition of Sales to UK Retail Investors Without KID", the Notes are not intended to be offered, sold or otherwise made available to, and should not be offered, sold or otherwise made available, to any retail investor in the UK without an updated Key Information Document. For these purposes, a **retail investor** means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the EUWA; (ii) a customer within the meaning of the provisions of the FSMA and any rules or regulations made under the FSMA to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA; or (iii) not a qualified investor as defined in Article 2 of the Prospectus Regulation as it forms part of domestic law by virtue of the EUWA.

## BENCHMARKS REGULATION

Amounts payable under the Notes or assets deliverable under the Notes may be calculated or otherwise determined by reference to an index, a rate or a combination of indices or rates. Any such index or rate may constitute a benchmark for the purposes of the Benchmarks Regulation (Regulation (EU) No. 2016/1011) (the **Benchmarks Regulation**). If any such index or rate does constitute such a benchmark, the applicable Final Terms will indicate whether or not the benchmark is provided by an administrator included in the register of administrators and benchmarks established and maintained by the European Securities and Markets Authority (ESMA) pursuant to article 36 of the Benchmarks Regulation. Not every index or rate will fall within the scope of the Benchmarks Regulation. Furthermore, transitional provisions in the Benchmarks Regulation may have the result that the administrator of a particular benchmark is not required to appear in the register of administrators and benchmarks at the date of the applicable Final Terms. The registration status of any administrator under the Benchmarks Regulation is a matter of public record and, save where required by applicable law, the Issuer does not intend to update the applicable Final Terms to reflect any change in the registration status of the administrator.

**In connection with the issue of any Tranche of Notes (as defined below), the Dealer or Dealers (if any) named as the Stabilising Manager(s) (or persons acting on behalf of any Stabilising Manager(s)) in the applicable Final Terms may over-allot Notes or effect transactions with a view to supporting the market price of the Notes at a level higher than that which might otherwise prevail. However, there is no assurance that the Stabilising Manager(s) (or persons acting on behalf of a Stabilising Manager) will undertake stabilisation action. Any stabilisation action may begin on or after the date on which adequate public disclosure of the terms of the offer of the relevant Tranche of Notes is made and, if begun, may be ended at any time, but it must end no later than the earlier of 30 days after the issue date of the relevant Tranche of Notes and 60 days after the date of the allotment of the relevant Tranche of Notes. Any stabilisation action or over-allotment must be conducted by the relevant Stabilising Manager(s) (or persons acting on behalf of any Stabilising Manager(s)) in accordance with all applicable laws and rules.**

In the event that the Notes are to be rated whether or not each credit rating applied for in relation to relevant Series of Notes will be issued by a credit rating agency established in the European Union and registered under Regulation (EC) No. 1060/2009 (as amended) will be disclosed in the Final Terms.
<b>Selling Restrictions:</b>	There are restrictions on the sale of Notes and the distribution of offering material in various jurisdictions. See "Subscription and Sale". In connection with the offering and sale of a particular Tranche, additional selling restrictions may be imposed which will be set out in the relevant Final Terms.

The Issuer is Category 2 for the purposes of Regulation S under the United States Securities Act of 1933, as amended.

Notes will be issued in compliance with U.S. Treas. Reg. §1.163-5(c)(2)(i)(D) (or any successor U.S. Treasury regulation section, including without limitation, successor regulations issued in accordance with IRS Notice 2012-20 or otherwise in connection with the United States Hiring Incentives to Restore Employment Act of 2010) (the **D Rules**) unless (i) the relevant Final Terms states that such Notes are issued in compliance with U.S. Treas. Reg. §1.163-5(c)(2)(i)(C) (or any successor U.S. Treasury regulation section, including without limitation, successor regulations issued in accordance with IRS Notice 2012-20 or otherwise in connection with the United States Hiring Incentives to Restore Employment Act of 2010) (the **C Rules**) or (ii) such Notes are issued other than in compliance with the D Rules or the C Rules but in circumstances in which the Notes will not constitute "registration required obligations" under the United States Tax Equity and Fiscal Responsibility Act of 1982 (**TEFRA**), which circumstances will be referred to in the relevant Final Terms as a transaction to which TEFRA is not applicable.

## RISK FACTORS

*This section sets out the risks inherent in investing in Notes issued under the Programme.*

*Any investment in the Notes is subject to a number of risks. Prior to investing in the Notes, prospective investors should consider carefully the factors and risks associated with any investment in the Notes, the Issuer's business and the industry in which it operates, together with all other information contained in this Base Prospectus including, in particular, the risk factors described below.*

*The Issuer believes that the following factors represent the principal inherent risks in investing in Notes issued under the Programme and may affect its ability to fulfil its obligations under Notes issued under the Programme, but the inability of the Issuer to pay interest, principal or other amounts on or in connection with any Notes may occur for other reasons and the Issuer does not represent that the statements below regarding the risks of holding any Notes are exhaustive. In each category below the Issuer set out first the most material risk, in their assessment, taking into account the expected magnitude of their negative impact and the probability of their occurrence.*

*Prospective investors should also read the detailed information set out elsewhere in this Base Prospectus and reach their own views prior to making any investment decision. Prospective investors should consider carefully whether an investment in the Notes is suitable for them in the light of the information in this Base Prospectus and their personal circumstances.*

*Capitalised terms not defined in this section have the meanings given to them in the Terms and Conditions of the Notes.*

### 1. RISKS RELATED TO EDMOND DE ROTHSCHILD (FRANCE)

#### (a) Credit risk

Credit risk is the risk of financial loss due to a debtor's inability to fulfil its contractual obligations to the Issuer. The Issuer's risk-weighted assets subject to this type of risk amounted to EUR 828,364,222 as at 31 December 2023.

#### *Counterparty risk*

Counterparty risk arises from the Issuer's credit risk in the specific context of market transactions, investments, and/or settlements. The amount of this risk varies over time depending on fluctuations in market parameters affecting the potential future value of the transactions concerned. The Issuer's risk-weighted assets subject to this type of risk amounted to EUR 29,401,624 at 31 December 2023. Exposure to counterparty risk in capital markets activities using derivative instruments is very limited since outstanding obligations thereunder are mostly collateralised. The risk is higher for lending operations, although cautious selection of inter-bank counterparties, the low level of outstanding obligations in respect of commercial loans and the quality of the guarantees secured (government paper under repurchase agreements, securities portfolios) greatly reduce its impact. Exposure to credit risk on securities, equities or funds, held in the long term investment portfolio of the Issuer, are controlled and monitored carefully.

#### *Market risk*

Market risks arise from unfavorable trends in market parameters affecting the Issuer's treasury and asset-liability management activities. Market parameters include, but are not limited to, exchange rates, prices of securities and commodities (whether the price is directly quoted or obtained by reference to a comparable asset), the price of derivatives on an established market and all benchmarks that can be derived from market quotations such as interest rates, credit spreads, volatility or implicit correlations or other similar parameters. These are non-core activities of the Issuer and consequently they involve very limited risk profiles.

Capital markets activities are sensitive to short-term exchange rates and interest rates exclusively.

Balance sheet management and long-term investments are exposed, albeit in a tightly controlled framework, to movements in bond prices and interest rates; nevertheless, the extremely high

proportion of assets and liabilities indexed on variable money market rates limits interest rate risk.

The Issuer's risk-weighted assets subject to this type of risk amounted to EUR 790,294 as at 31 December 2023.

#### *Liquidity risk*

The liquidity risk consists of the Issuer being unable to acquire the necessary funds to meet its obligations when due or unwind or offset a position due to market conditions or specific factors within a specified period of time and at a reasonable cost. It reflects the risk of not being able to cope with net cash outflows, including collateral requirements, over short-term to long-term horizons. In view of its status as a private, non-rated bank, the Issuer pays particular attention to monitoring this risk. Hence, the balance sheet consistently posts a capital surplus and prudential ratios considerably higher than generally accepted management standards.

### (b) **Business Risk**

#### *Operational risk*

There is a distinction between internal operating risks due to defective procedures (inappropriate procedure, IT breakdown) and external operational risks due to events beyond the Issuer's control, whether deliberate (fraud, malicious act), accidental (fire) or natural (disaster). Each category of operating risk requires specific measures (reinforcement of procedures and controls, deployment of an emergency plan) and control systems. These risks, which are naturally present in the performance of all activities, are subject to increasingly stringent controls, notably with the implementation of Basel 3 regulations. The Issuer is able to monitor this particular risk factor very closely, thanks to its status as a small, manageable institution and the fact that its activity is both centralised and specialised.

The Bank's risk-weighted assets subject to this type of risk amounted to EUR 618,136,255 as at 31 December 2023.

The Issuer's risk management policies and procedures may not be effective enough or may be completely ineffective in limiting its exposure to changing market environments or any type of current or potential risk, including operational risks or risks related to the models that the Issuer uses. The Issuer is in fact exposed to the risk of loss due to inadequate or failed internal processes, human resources and information systems or external events. Despite the controls and procedures in place, the Issuer could be affected in terms of operational risk due, for example, to data entry errors, failures in collateral management, incorrect application of procedures, etc. These types of situations could generate significant compliance and control costs for the affected processes which could have an impact on the Issuer's financial position.

The Issuer is also exposed to risks relating to cybercrime. The Issuer could be subject to targeted and sophisticated attacks on its IT network, resulting in embezzlement, loss, theft or disclosure of confidential or customer data (in particular in violation of the European Data Protection Regulation "GDPR"). Even if the Issuer has the means to monitor and to effectively respond to these issues, such actions are likely to result in operational losses and have an adverse effect on the Issuer's business and results of operations.

*Changes and volatility in the financial markets may have a material adverse effect on the Issuer's business and the results of market activities.*

As part of its capital markets activities and to meet its clients' needs, the Issuer is active on the financial markets, particularly the debt, forex, commodity and equity markets. In recent years, the financial markets have fluctuated significantly in a sometimes highly volatile environment and could do so again; this could result in significant losses for capital markets activities. The losses that may be recorded due to high market volatility could affect several market products in which the Issuer trades. The volatility of financial markets makes it difficult to predict trends and implement effective portfolio management strategies; it also increases the risk of losses from net long positions when prices decline and, conversely, from net short positions when prices rise.

#### *Non-compliance risk*

The Issuer is also exposed to non-compliance risk. Non-compliance risk is defined as the risk of legal, administrative or disciplinary sanction, significant financial loss, or damage to reputation arising from failure to comply with the provisions governing banking and financial services, including regulatory and statutory provisions, anti-money laundering and terrorism financing, data protection, professional standards, ethical standards, and generally the threat posed to the Issuer's financial, organizational, or reputational standing resulting from such violations,

As a consequence of such violations, the Issuer would be exposed to several consequences that may affect its activity:

- a legal impact, where regulatory or legal action brought against the Issuer or its employees could result in fines or penalties;
- a financial impact due to a negative outcomes to the Issuer's bottom line, potential future earnings, or loss of investor confidence; and
- a reputational impact that could lead to damage to the Issuer's reputation or brand.

(c) **Regulatory risks**

The calculation of the Group's CET1 Ratio (common equity tiers one "CET1 Ratio", which was equal to 19,04% as at 31 December 2023) could be affected by a wide range of factors, including, among other things, an increased severity of regulation which could deteriorate its level of CET1 by increasing the RWA (Risk-Weighted Assets) of certain kind of assets, or decreasing the core equity necessary to be eligible to maintain the business activity sustainable. The calculation of the Group's CET1 Ratio may be affected by changes in applicable accounting rules and the manner in which accounting policies are applied, including the manner in which permitted discretion under the applicable accounting rules is exercised and regulatory changes.

The Issuer applies the Basel III regulations, which relate to capital and liquidity requirements with the goal of promoting a more resilient banking sector in the event of a crisis, implemented in the European Union through the Capital Requirements Directive (CRD) package, comprising Directive 2013/36/EU (CRD IV) and the Capital Requirements Regulation No. 575/2013 (CRR) (including all implementing legislation in France, including Law no. 2013-672 dated 26 July 2013 relating to the separation and regulation of banking activities), the Bank Recovery and Resolution Directive 2014/59/EU (the BRRD), as well as the relevant technical standards and guidelines from EU regulatory bodies (for example the European Banking Authority (EBA) and the European Securities and Markets Authority (ESMA)). These European texts are and will continue to be subject to modification to reflect changes to the Basel III framework. The timetable for effective applicability of these regulations to the Issuer is likely to change depending on the final transposition of the Basel Committee's regulations into European law. The completion of the Basel III regulatory framework is likely to increase the capital requirements applicable to the Issuer's activities and thus reduce return on equity.

The BRRD and the French Ordinance of 20 August 2015 confer upon the Autorité de Contrôle Prudentiel et de Résolution (ACPR) or the Single Resolution Board (SRB) the power to commence resolution proceedings for a banking institution, such as the Issuer, with a view to ensure the continuity of critical functions, to avoid the risks of contagion and to recapitalize or restore the viability of the institution. Those resolution authorities have broad powers to implement resolution measures with respect to institutions and groups subject to resolution proceedings, which may include (without limitation): the total or partial sale of the institution's business to a third party or a bridge institution, the separation of assets, the replacement or substitution of the institution as obligor in respect of debt instruments, the full or partial write-down of capital instruments, the dilution of capital instruments through the issuance of new equity, the full or partial write-down or conversion into equity of debt instruments, modifications to the terms of debt instruments (including altering the maturity and/or the amount of interest payable and/or imposing a temporary suspension on payments), discontinuing the listing and admission to trading of financial instruments, the dismissal of managers or the appointment of a special manager (administrateur spécial).

The implementation of these tools and powers with respect to the Issuer may result in significant structural changes to the Issuer (including as a result of asset or business sales or the creation of bridge institutions) and in a partial or total write-down, modification or variation of claims of shareholders and creditors. Such powers may also result, after any transfer of all or part of the

Issuer's business or separation of any of its assets, in the holders of securities (even in the absence of any such write-down or conversion) being left as the creditors of the Issuer whose remaining business or assets are insufficient to support the claims of all or any of the creditors of the Issuer. Any shortfall from the sale of the Issuer's assets may lead to a partial reduction in the outstanding amounts of certain claims of unsecured creditors of the Issuer (including, as the case may be, the Notes), or, in a worst case scenario, a reduction to zero.

More generally, other legislation and regulations have recently been enacted or proposed with a view to introducing a number of changes, some permanent, in the global financial environment. These new measures, which aim to avoid a recurrence of the global financial crisis, have changed substantially, and may change in the future, the environment in which the Issuer and other financial institutions operate. The Issuer is exposed to the risk relating to these legislative and regulatory changes, including:

- a bans or limitations on certain types of financial products or activities;
- a more stringent internal control requirements;
- more stringent personal data protection and cybercrime requirements;
- a more stringent regulation with regard to technological innovations in the payment services and fintech fields; and
- the strengthening of the role of trading platforms and central counterparties (clearing houses) in regulations on clearing mechanisms.

In this changing legislative and regulatory environment, it is impossible to predict the impact these new measures will have on the Issuer. The Issuer is incurring, and could incur in the future, significant costs to update or develop programs to comply with these new legislative and regulatory measures and to update or develop its information systems as a response to or in anticipation of the new measures.

## **2. RISKS RELATED TO THE MARKET OF THE SECURITIES**

### **(a) Market value of the Notes**

An application may be made for the Notes to be admitted to trading on the Luxembourg Stock Exchange's regulated market and to be listed on the Official List of the Luxembourg Stock Exchange and/or any other regulated market or multilateral trading facility. The market value of the Notes will be affected by the creditworthiness of the Issuer, the value of the relevant Underlying(s) (which in turn will depend on the volatility of the relevant Underlying(s), or the dividend on the securities comprised in any Index that is an Underlying, market interest and yield rates and the time remaining to the redemption date).

The value of the Notes and the relevant Underlying(s) depends on a number of interrelated factors, including economic, financial and political events in France or elsewhere, including factors affecting capital markets generally, the Luxembourg Stock Exchange and/or any other stock exchanges on which the Notes, the Underlying(s) or the securities comprised in any Index that is an Underlying are traded. The price at which a Noteholder will be able to sell the Notes prior to maturity may be at a discount, which could be substantial, from the issue price or the purchase price paid by such Noteholder.

The trading price of Notes may fall in value as rapidly as it may rise and Noteholders may sustain a total loss of their investment.

Assuming all other factors are held constant, the more a Note is "out-of-the-money" and the shorter its remaining term to maturity, the greater the risk that purchasers of such Notes will lose all or part of their investment.

Accordingly, all or part of the capital invested by the Noteholder may be lost upon any transfer of the Note, so that the Noteholder in such case would receive significantly less than the total amount of capital invested.

**(b) The secondary market**

Notes may have no established trading market when issued, and one may never develop. If a market does develop, it may not be very liquid. This is particularly the case if the Notes are not listed or traded on any exchange market or trading venue (whether regulated or not) since pricing information for the Notes may be more difficult to obtain and the liquidity of the Notes may be adversely affected. Therefore, Noteholders may not be able to sell their Notes easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market. This is particularly the case for Notes that are especially sensitive to interest rate, currency or market risks, are designed for specific investment objectives or strategies or have been structured to meet the investment requirements of limited categories of investors. These types of Notes generally would have a more limited secondary market and more price volatility than conventional debt securities.

Although application may be made for the Notes issued under the Programme to be admitted to trading on the Luxembourg Stock Exchange's regulated market and to be listed on the Official List of the Luxembourg Stock Exchange, and/or any other regulated market or multilateral trading facility in the European Economic Area, a particular Tranche of Notes may not be so admitted and an active trading market may not develop. Accordingly, a trading market for any particular Tranche of Notes may not develop or may be illiquid. Illiquidity may have an adverse effect on the market value of the Notes.

**(c) Exchange rate risks and exchange controls**

The Issuer will pay nominal and interest (if applicable) on the Notes in the Specified Currency. This presents certain risks relating to currency conversions if a Noteholder's financial activities are denominated principally in a currency or currency unit (the **Noteholder's Currency**) other than the Specified Currency. These include the risk that exchange rates may significantly change (including changes due to devaluation of the Specified Currency or revaluation of the Noteholder's Currency) and the risk that authorities with jurisdiction over the Noteholder's Currency may impose or modify exchange controls. An appreciation in the value of the Noteholder's Currency relative to the Specified Currency would decrease (1) the Noteholder's Currency-equivalent yield on the Notes, (2) the Noteholder's Currency-equivalent value of amounts payable in respect of the Notes and (3) the Noteholder's Currency-equivalent market value of the Notes.

Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate. As a result, Noteholders may receive less interest (if applicable) or principal than expected. This may result in a significant loss on any capital invested from the perspective of a Noteholder whose domestic currency is not the Specified Currency.

**3. RISKS RELATED TO LEGAL ISSUES REGARDING THE SECURITIES****(a) The implementation in France of the EU Bank Recovery and Resolution Directive could materially affect the Notes**

Directive 2014/59/EU provides for the establishment of an EU-wide framework for the recovery and resolution of credit institutions and investment firms, as amended by Directive (EU) 2019/879 of the European Parliament and of the Council of 20 May 2019 (the **Bank Recovery and Resolution Directive** or **BRRD**), implemented in France by several legislative texts, to provide authorities with a credible set of tools to intervene sufficiently early and quickly in an unsound or failing relevant entity.

If the Issuer is determined to be failing or likely to fail within the meaning of, and under the conditions set by BRRD, and the Relevant Resolution Authority applies any, or a combination, of the BRRD resolution tools (e.g. sale of business, creation of a bridge institution, asset separation or bail-in), any shortfall from the sale of the Issuer's assets may lead to a partial

reduction in the outstanding amount of certain claims of unsecured creditors of that entity (including, as the case may be, the Notes), or, in a worst case scenario, a reduction to zero. The unsecured debt claims of the Issuer (including, as the case may be, the Notes) might also be converted into equity or other instruments of ownership, in accordance with the hierarchy of claims in normal insolvency proceedings, which equity or other instruments could also be subject to any future cancellation, transfer or dilution (such reduction or cancellation being first on common equity tier one instruments, thereafter the reduction, cancellation or conversion being on additional tier one instruments, then tier two instruments and other subordinated debts, then other eligible liabilities). The Relevant Resolution Authority may also seek to amend the terms (such as variation of the maturity) of any outstanding unsecured debt securities (including, as the case may be, the Notes).

Public financial support to resolve the Issuer where there is a risk of failure will only be used as a last resort, after having assessed and exploited the above resolution tools, including the bail-in tool, to the maximum extent possible whilst maintaining financial stability.

As a result, the exercise of any power under the BRRD or any suggestion of such exercise could materially adversely affect the rights of the Noteholders, the price or value of their investment in the Notes and/or the ability of the Issuer to satisfy its obligations under the Notes.

(b) **Insolvency laws**

Insolvency proceedings with respect to the Issuer will proceed under, and be governed by, French insolvency laws. The rights of Noteholders and the responsibilities of the Issuer to the Noteholders under the aforementioned laws may be materially different from those with regard to equivalent instruments under the laws of the jurisdiction in which the Notes are offered. Additionally, the insolvency laws applicable to the Issuer may not be as favourable to Noteholders as the insolvency laws of jurisdictions with which investors may be familiar.

The Issuer is a *société anonyme* with their respective corporate seat in France. In the event that the Issuer becomes insolvent, insolvency proceedings (including conciliation proceedings (*procédure de conciliation*), safeguard proceedings (*procédure de sauvegarde*), accelerated safeguard proceedings (*procédure de sauvegarde accélérée*) and judicial reorganisation or liquidation proceedings (*procédure de redressement ou de liquidation judiciaire*) affecting creditors will be generally governed by the insolvency laws of France to the extent that, where applicable, the "centre of main interests" (as construed under Regulation (EU) 2015/848, as amended) of the Issuer is located in France.

The Directive (EU) 2019/1023 on preventive restructuring frameworks, on discharge of debt and disqualifications, and on measures to increase the efficiency of procedures concerning restructuring, insolvency and discharge of debt, and amending Directive (EU) 2017/1132 has been transposed into French law by the Ordonnance 2021-1193 dated 15 September 2021 (the **Ordonnance**). Such Ordonnance, applicable as from 1 October 2021, amends French insolvency laws notably with regard to the process of adoption of restructuring plans under insolvency proceedings. According to this Ordonnance, "affected parties" (including notably creditors, and therefore the Noteholders) shall be treated in separate classes which reflect certain class formation criteria for the purpose of adopting a restructuring plan. Classes shall be formed in such a way that each class comprises claims or interests with rights that reflect a sufficient commonality of interest based on verifiable criteria. Noteholders will no longer deliberate on the proposed restructuring plan in a separate assembly, meaning that they will no longer benefit from a specific veto power on this plan. Instead, as any other affected parties, the Noteholders will be grouped into one or several classes (with potentially other types of creditors) and their dissenting vote may possibly be overridden (i) by a cross-class cram down inside their class if grouped with other creditors or (ii) by a cross-class cram down between classes.

Both the scopes of the Directive (EU) 2019/1023 and the Ordonnance do not cover financial institutions, unless the competent authority chooses to make them applicable. In such a case, the application of French insolvency law to a credit institution as the Issuer is also subject to the

prior permission of the *Autorité de contrôle prudentiel et de résolution* before the opening of any safeguard, judicial reorganisation or liquidation procedures. This limitation will affect the ability of the Noteholders to recover their investments in the Notes.

The decision of each class is taken by a two-third (2/3rd) majority of the voting rights of the participating members, no quorum being required.

If the restructuring plan is not approved by all classes of affected parties, it can still be ratified by the court at the request of the Issuer or the receiver with the consent of the Issuer, and be imposed on dissenting classes through a cross-class cram down, under certain conditions.

For the avoidance of doubt, the provisions relating to the meetings of the Noteholders described in the Terms and Conditions of the Notes set out in this Base Prospectus and the Agency Agreement will not be applicable to the extent they are not in compliance with compulsory insolvency law provisions that apply in these circumstances.

The procedures that are described above, as they may be amended from time to time, could have an adverse impact on Noteholders seeking repayment in the event that the Issuer were to become insolvent.

The commencement of insolvency proceedings against the Issuer would have a material adverse effect on the market value of Notes issued by the Issuer. As a consequence, any decision taken by a class of affected parties, could negatively and significantly impact the Noteholders and cause them to lose all or part of their investment, should they not be able to recover all or part of the amounts due to them from the Issuer.

(c) **Modification**

General Condition 15 (*Meetings of Noteholders, Modification and Waiver*) and the Agency Agreement contain provisions for calling meetings of Noteholders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Noteholders including Noteholders who did not attend and vote at the relevant meeting and Noteholders who voted in a manner contrary to the relevant majority.

If a decision is adopted by a majority of Noteholders and such modifications were to impair or limit the rights of the Noteholders, this may have a negative impact on the market value of the Notes.

The Issuer may also modify the Terms and Conditions of the Notes without the consent of the Noteholders in any manner which the Issuer and/or the Calculation Agent may deem necessary or desirable provided that such modification (i) is not materially prejudicial to the interests of the Noteholders; (ii) is of a formal, minor or technical nature or (iii) is made to (A) correct a manifest or proven error or omission, (B) to cure, correct or supplement any defective provision contained in the Terms and Conditions of the Notes, (C) to comply with mandatory provisions of law or regulation or (D) to comply with any requirement of any stock exchange on which the Notes may be listed. As a result, Noteholders shall not be consulted on those modifications and shall not be able to oppose them through meetings.

(d) **Unsecured obligations and absence of negative pledge**

In accordance with General Condition 2 (*Status of the Notes*), each Series of Notes constitutes general, unsecured, contractual obligations of the Issuer and of no other person. Any person who purchases such Notes is relying upon the creditworthiness of the Issuer and has no rights under the Terms and Conditions of the Notes against any other person. The Notes will not be secured by any property of the Issuer and all the Notes issued by the Issuer rank equally among themselves and with all other unsecured and unsubordinated obligations of the Issuer.

In addition to being unsecured, there is no negative pledge in respect of the Notes which means that the Issuer may pledge assets to secure other notes or debt instruments without granting an

equivalent pledge or security interest and status to the Notes or granting such pledge or security interest to Noteholders.

Noteholders should be aware of this differentiating component as compared to most senior bonds and that they will not benefit from protection that would secure the ranking of the Notes.

(e) **Absence of Gross up**

In accordance with General Condition 8.2 (*Gross Up*), the Notes will not have the benefit of a gross up provision in respect of withholding tax unless "Gross Up" is specifically provided as applicable in the applicable Final Terms. Where a gross up does not apply, the Issuer will not pay any additional amounts in respect of any such withholding or deduction. Therefore, the corresponding risk shall be borne by the Noteholders. In this case, Noteholders may suffer a loss corresponding to such additional amounts.

(f) **Potential U.S. Foreign Account Tax Compliance Act Withholding**

The foreign account tax compliance provisions of the Hiring Incentives to Restore Employment Act of 2010 (**FATCA**) impose a withholding tax of 30 per cent. (**FATCA Withholding**) on certain U.S.-source payments (including Dividend Equivalent Payments, as defined in "*Legislation affecting Dividend Equivalent Payments (Section 871(m) of the U.S. Internal Revenue Code*") below), as well as certain payments by non-U.S. entities to persons that fail to meet certain certification or reporting requirements.

If an amount in respect of U.S. withholding tax were to be deducted or withheld from interest, nominal or other payments on the Notes, neither the Issuer nor any Agent nor any other person, pursuant to the conditions of the Notes, would be required to pay additional amounts as a result of the deduction or withholding of such tax. As a result, investors may receive less interest or nominal than expected.

FATCA is particularly complex and its application with respect to "foreign passthru payments" is uncertain at this time. The application of FATCA to Notes that may be affected by FATCA may be addressed in any applicable drawdown prospectus or a Supplement to the Base Prospectus, as applicable. If an amount in respect of U.S. withholding tax were to be deducted or withheld from interest, nominal or other payments on the Notes, and if General Condition 6.5 (*Redemption for FATCA Withholding*) is specified in the applicable Final Terms as being applicable to the Notes, the Notes may be, or in certain circumstances will be, redeemed early at their fair market value. If General Condition 6.5 (*Redemption for FATCA Withholding*) is specified in the applicable Final Terms as being not applicable to the Notes, the occurrence of a FATCA Withholding with respect to the Notes will not result in them being subject to early redemption. As mentioned above, in these circumstances neither the Issuer nor any Agent nor any other person will be required to pay additional amounts as a result of the FATCA Withholding and investors may therefore receive less interest or nominal than expected. See also risk factors below "*Notes subject to optional redemption by the Issuer*" and "*Notes subject to automatic redemption*" for more information on the risks linked to the redemption pursuant to General Condition 6.5 (*Redemption for FATCA Withholding*).

(g) **The Dodd-Frank Wall Street Reform and Consumer Protection Act and other regulatory changes affecting derivatives markets**

The Dodd-Frank Wall Street Reform and Consumer Protection Act (**Dodd-Frank Act**) provides for substantial changes to the regulation of the futures and over-the-counter (**OTC**) derivative markets. Section 619 of the Dodd-Frank Act added a provision to federal banking law to generally prohibit certain banking entities from engaging in proprietary trading or from acquiring or retaining an ownership interest in, or sponsoring or having certain relationships with, a hedge fund or private equity fund, subject to certain exemptions (such statutory provisions together with implementing regulations, the **Volcker Rule**).

The Volcker Rule includes as a "covered fund" any entity that would be an investment company but for the exemptions provided by Section 3(c)(1) or Section 3(c)(7) of the Investment Company Act, subject to certain exclusions found within the Volcker Rule. Therefore, the Issuer intending to rely on Section 3(c)(7) would be a covered fund unless an exclusion applies.

No assurance can be made that the Issuer will qualify for any other exclusion or exemption that might be available under the Volcker Rule and its implementing regulations. If the Issuer were determined to be a covered fund, then covered banking entities and other entities subject to the Volcker Rule would be restricted from acquiring and retaining certain ownership interests in the Issuer.

No party to the transaction has taken a view as to which investors may invest in the Notes. As such, investors should consult their own legal advisors in determining whether the Volcker Rule would prohibit or restrict them from acquiring an interest in the Notes, or would require them to subsequently divest such interest, both in connection with their purchase of Notes on the closing date.

(h) **Legislation affecting Dividend Equivalent Payments (Section 871(m) of the U.S. Internal Revenue Code)**

In accordance with U.S. Treasury regulations issued under Section 871(m) of the U.S. Internal Revenue Code of 1986 (the **Section 871(m) Regulations**), certain payments on certain Notes that are, in whole or in part, directly or indirectly contingent upon, or determined by reference to, the payment or deemed payment of a dividend (a **Dividend Equivalent Payment**) linked to U.S. equities or indices that include U.S. equities (such equities and indices, **U.S. Underlying Equities**) generally become subject to a 30 per cent. U.S. withholding tax when made to non-U.S. holders as defined pursuant to Section 871(m) Regulations (a **Non-U.S. Holder**). Specifically, the Section 871(m) Regulations will generally apply to Notes that replicate the economic performance of one or more U.S. Underlying Equities, either as Delta-One products till 31 December 2024 or as products with a delta at least equal to 0.8 as from 1 January 2025, as determined by the Issuer generally on the date the expected delta of the product is determined by the Issuer (such date being the Trade Date) based on tests set out in the applicable Section 871(m) Regulations. For this purpose, a **Delta-One product** is a Note with a delta (generally the ratio of a change in the fair market value of the derivative security relative to a change in the fair market value of the U.S. Underlying Equity which the derivative security references) of one.

If the 30 per cent. U.S. withholding tax on dividend equivalents paid or deemed paid applies, it will reduce the payment received by Non-U.S. Holders. If a Non-U.S. Holder becomes subject to the 30 per cent. U.S. withholding tax, the withholding tax may be reduced by an applicable tax treaty, eligible for credit against other U.S. tax liabilities or refunded, provided that the beneficial owner claims a credit or refund from the United States Internal Revenue Service in a timely manner, but the Issuer makes no assessment as to whether any such tax credits will be available to Non-U.S. Holders.

*Potential application of Section 871(m) Regulations to an investment in the Notes might adversely affect Noteholders.*

(i) **Notes where denominations involve integral multiples**

In relation to any issue of Notes, which have denominations consisting of a minimum Specified Denomination, plus one or more higher integral multiples of another smaller amount, it is possible that such Notes may be traded in amounts that are not integral multiples of such minimum Specified Denomination. In such a case a Noteholder who, as a result of trading such amounts, holds an amount which is less than the minimum Specified Denomination in its account with the relevant clearing system at the relevant time may not receive a Definitive Note in respect of such holding (should Definitive Notes be printed) and would need to purchase a nominal amount of Notes such that it is holding amounts to a Specified Denomination.

If Definitive Notes are issued, Noteholders should be aware that Definitive Notes, which have a denomination, that is not an integral multiple of the minimum Specified Denomination may be illiquid and difficult to trade. As a result, Noteholders shall in turn be adversely impacted.

(j) **Currency Unavailability Risk**

If the Issuer is unable to make payments in the Specified Currency (or it becomes impracticable for it to do so) due to circumstances beyond its reasonable control including, without limitation, any (1) sanctions or exchange controls imposed by any relevant governmental authority or (2) restrictions or controls applicable to the Issuer, any Agent or the Principal Paying Agent (as applicable), a relevant clearing system, or any of their account banks that would prevent transfers in the Specified Currency from the Issuer to the Noteholder(s), the Issuer will be entitled to satisfy its obligations to the Noteholder(s) by making payment in the Substitution Currency (as defined in the *Definitions Conditions*). Any reference to the "Specified Currency" shall be deemed to be a reference to the Substitution Currency with respect that particular affected payment. This may adversely affect the value of the Notes and the Noteholder(s) may lose some or all of their invested capital.

(k) **Compounding of Risk**

Risks relating to the Notes may be correlated or compounded and such correlation and/or compounding may result in increased volatility in the value of the Notes and/or in increased losses for Noteholder(s).

For example, Russia's invasion of Ukraine in 2022 has created market volatility which could impact the liquidity of the market for the Notes or the Underlying Assets. Separately, if for example the Specified Currency in respect of the Notes is Russian Ruble, the Issuer may be unable to make payments in the Specified Currency (due to restrictions on such payments imposed following Russia's invasion of Ukraine) and may instead make such payments in a Substitution Currency (see the risk factor entitled "*Currency Unavailability Risk*" above). In this example, these two risks are correlated (since they relate to the same event) and could compound each other resulting in increased volatility in the value of the Notes and/or in increased losses for Noteholder(s).

(l) **Enforceability of Judgments**

The United Kingdom left the European Union on 31 January 2020 ("**Brexit**") and the transitional period agreed in the withdrawal agreement expired on 31 December 2020. As a result, the Recast Brussels Regulation (Regulation (EU) No. 1215/2012 of the European Parliament and of the Council of 12 December 2012) has ceased to apply to the UK (and English court judgments).

There is uncertainty concerning the enforcement of English court judgments in France following Brexit. As no new reciprocal agreement on civil justice has been agreed, there will be a period of uncertainty concerning the enforcement of English court judgments in France. As a result, there is a risk that a judgment entered against the Issuer in an English court may not be recognised or enforceable in France (respectively) as a matter of law without a re-trial on its merits.

#### 4. **RISKS RELATED TO THE STRUCTURE OF A PARTICULAR ISSUE OF SECURITIES**

##### 4.1. **Risks related to the interest rate**

(a) **Fixed Rate Notes**

General Condition 4.1 (*Interest on Fixed Rate Notes*) allows for Fixed Rate Notes to be issued. Investment in Notes which bear interest at a fixed rate involves the risk that subsequent changes in market interest rates may adversely affect the value of the relevant Tranche of Notes. While the nominal interest rate of the Fixed Rate Notes is fixed during the term of such Notes, the current interest rate on the capital markets (**market interest rate**) typically varies on a daily

basis. As the market interest rate changes, the market value of the Fixed Rate Notes would typically change in the opposite direction. If the market interest rate increases, the market value of the Fixed Rate Notes would typically fall, until the yield of such Notes is approximately equal to the market interest rate. If the market interest rate falls, the market value of the Notes would typically increase, until the yield of such Notes is approximately equal to the market interest rate. The degree to which the market interest rate may vary presents a significant risk to the market value of the Fixed Rate Notes if a Noteholder were to dispose of such Notes.

(b) **Floating Rate Notes**

General Condition 4.2 (*Interest on Floating Rate Notes*) allows for Floating Rate Notes to be issued. A key difference between Floating Rate Notes and Fixed Rate Notes is that interest income on Floating Rate Notes cannot be anticipated. Due to varying interest income, investors are not able to determine a definite yield of Floating Rate Notes at the time they purchase them, so that their return on investment cannot be compared with that of investments having longer fixed interest periods. If the relevant Final Terms provide for frequent interest payment dates, investors are exposed to the reinvestment risk if market interest rates decline. That is, Noteholders may reinvest the interest income paid to them only at the relevant lower interest rates then prevailing. In addition, the Issuer's ability to issue Fixed Rate Notes may affect the market value and secondary market (if any) of the Floating Rate Notes (and *vice versa*).

The degree to which the reference rates may vary is uncertain. The interest amount payable on any Interest Payment Date may be different from the amount payable on the initial or previous Interest Payment Date and may negatively impact the return under the Floating Rate Notes and result in a reduced market value of the Notes if a Noteholder were to dispose of such Notes.

(c) **Risks relating to Notes linked to a "benchmark" rate, index or price source**

The Rate of Interest in respect of certain Notes may be determined by reference to a Relevant Benchmark that constitutes a "benchmark" for the purposes of Regulation (EU) 2016/1011, as amended (the **Benchmarks Regulation**) published in the Official Journal of the EU on 29 June 2016 and applied since 1 January 2018.

Interest rates and indices which are deemed to be "benchmarks" (including EURIBOR) are the subject of recent national and international regulatory guidance and proposals for reform. Some of these reforms are already effective whilst others are still to be implemented. These reforms may cause such benchmarks to perform differently than in the past, to disappear entirely, to be subject to revised calculation methods, or have other consequences which cannot be predicted. Any such consequence could have a material adverse effect on any Notes linked to or referencing such a "benchmark".

The Benchmarks Regulation applies to the provision of benchmarks, the contribution of input data to a benchmark and the use of a benchmark within the EU. Notwithstanding the provisions of General Condition 15.2 (*Benchmark Trigger Event*) and of the Asset Linked Conditions which seek to offset any adverse effects for the Noteholders, the Benchmarks Regulation could have a material impact on any Notes linked to or referencing a "benchmark", in particular in any of the following circumstances:

- an index which is a "benchmark" is restricted from being used in certain ways by a supervised entity if its administrator does not obtain authorisation or registration or, if based in a non-EU jurisdiction, as applicable, the administrator is not recognised as equivalent or recognised or endorsed and the transitional provisions do not apply; and
- if the methodology or other terms of the "benchmark" could be changed in order to comply with the requirements of the Benchmarks Regulation. Such changes could, among other things, have the effect of reducing or increasing the rate or level or otherwise affecting the volatility of the published rate or level of the "benchmark" and as a consequence, Noteholders could lose part of their investment.

More broadly, any of the international or national reforms, or the general increased regulatory scrutiny of "benchmarks", could increase the costs and risks of administering or otherwise participating in the setting of a "benchmark" and complying with any such regulations or requirements.

Such factors may have the following effects on certain "benchmarks": (i) discourage market participants from continuing to administer or contribute to the "benchmark"; (ii) trigger changes in the rules or methodologies used in the "benchmark" or (iii) lead to the disappearance of the "benchmark".

Any of the above changes or any other consequential changes as a result of international or national reforms or other initiatives or investigations, could have a material adverse effect on the value of and return on any Notes linked to or referencing a "benchmark".

If a benchmark were discontinued or otherwise unavailable, the rate of interest on Notes which are linked to or which reference such benchmark will be determined for the relevant period by the fall-back provisions applicable to such Notes (see General Condition 15.2 (*Benchmark Trigger Event*) and the Asset Linked Conditions). Any of these measures could have an adverse effect on the value or liquidity of, and return on, any Notes linked to or referencing a "benchmark".

Regulation (EU) 2019/2089 of the European Parliament and of the Council of 27 November 2019 has amended the existing provisions of the Benchmarks Regulation by extending the transitional provisions applicable to material benchmarks and third-country benchmarks until the end of 2021. The existing provisions of the Benchmarks Regulation were further amended by Regulation (EU) 2021/168 of the European Parliament and of the Council of 10 February 2021 published in the Official Journal of the European Union on 12 February 2021 (the **Amending Regulation**) which applies since 13 February 2021.

The Amending Regulation introduces a harmonised approach to deal with the cessation or wind-down of certain benchmarks by conferring the power to designate a statutory replacement for certain benchmarks on the European Commission, such replacement being limited to contracts and financial instruments. In addition, the transitional provisions applicable to third-country benchmarks were extended until the end of 2023. The European Commission is empowered to further extend this period until the end of 2025, if necessary. These developments could raise uncertainty regarding any future regulatory or legislative requirement based on the implementing regulations.

(d) **Zero Coupon Notes are subject to higher price fluctuations than non-discounted securities**

General Condition 4.4 (*Interest on Zero Coupon Notes*) allows for Zero Coupon Notes to be issued. The prices at which Zero Coupon Notes trade in the secondary market tend to fluctuate more in relation to general changes in interest rates than do prices for conventional interest-bearing securities because the discounted issue prices are substantially below par. If market interest rates increase, Zero Coupon Notes can suffer higher price losses than other securities having the same maturity. Therefore, in similar market conditions, the holders of Zero Coupon Notes could be subject to higher losses on their investments than the holders of other instruments such as Fixed Rate Notes or Floating Rate Notes. Any such volatility may have a significant adverse effect on the market value of the Notes.

(e) **Risks related to negative interest**

In accordance with General Condition 4.10 (*Negative Interest*), in certain circumstances, specifically provided in the applicable Final Terms, the Final Redemption Amount, Instalment Redemption Amount or Early Redemption Amount, as the case may be, may be reduced by applying a negative amount (or rate) thereto, it being specified that in no event the Final Redemption Amount, Instalment Redemption Amount or Early Redemption Amount, as the case

may be, shall be less than zero. As a result, Noteholders may lose all or part of the capital invested.

#### **4.2. Risks related to the redemption of the Notes**

##### **(a) Notes subject to optional redemption by the Issuer**

In accordance with General Conditions 3.2 (Redenomination), 4.2(e) (*FRS Additional Disruption Events*), 6.3 (*Redemption for tax reasons*), 6.5 (*Redemption for FATCA Withholding*), 6.6 (*Clean-up Call Option*) and 18 (*Illegality and Force Majeure*), the Final Terms for a particular issue of Notes may provide for early redemption at the option of the Issuer upon the occurrence of a Scheduled Payment Currency Cessation Event, a FRS Additional Disruption Events, for taxation reasons, FATCA Withholding, in case of the clean-up call option and illegality and force majeure. The Issuers may redeem such Notes at an amount equal to the fair market value of such Note.

If the Issuer exercises its right to redeem any Notes, this may limit the market value of the Notes concerned. During any period when the Issuer may elect to redeem Notes, the market value of those Notes generally will not rise substantially above the price at which they can be redeemed and a Noteholder may not be able to reinvest the redemption proceeds in a manner which achieves a similar effective return. This may also be true prior to any redemption period, or during any period where there is an actual or perceived increased likelihood that the Notes may be redeemed (including where there are circumstances giving rise to a right to redeem for tax or regulatory reasons).

As a consequence of an early redemption, the yields received upon redemption may be lower than expected, and the redemption amount of the Notes may be lower than the purchase price for the Notes paid by the Noteholder. The Noteholder may thus not receive the total amount of the capital invested. In addition, Noteholders that choose to reinvest monies they receive through an early redemption may be able to do so only in securities with a lower yield than the redeemed Notes. Should the Notes at such time be trading well above the price set for redemption, the negative impact on the Noteholders' anticipated returns would be significant.

##### **(b) Notes subject to automatic redemption**

In accordance with General Conditions 6.4 (*Special Tax Redemption*) and 6.5 (*Redemption for FATCA Withholding*), the Issuer shall redeem the Notes upon the occurrence of a special tax event or in case of a FATCA Withholding. Such automatic redemption may negatively affect the value of the Notes and may lead to redemption at an amount or time less favourable for Noteholders. As a result, the Noteholder may thus not receive the total amount of the capital invested.

##### **(c) Risks related to Early Redemption Trigger Events**

General Condition 6.2 (*Early Redemption Trigger Events*) and Annex 5 – Early Redemption Trigger Conditions provide for several Early Redemption Trigger Events (the Issuer Call Early Redemption Trigger, the Knock-out Early Redemption Trigger, the Target Early Redemption Trigger and the Automatic Early Redemption Trigger), which may limit the market value of Notes. On and prior to any Early Redemption Date, the market value of those Notes will generally not rise substantially above the price at which they can be redeemed.

The Issuer may be expected to redeem Notes when its cost of borrowing is lower than the interest rate on the Notes. The yields received upon redemption may be lower than expected, and the redeemed face amount of the Notes may be lower than the purchase price for the Notes paid for the Notes by the investor. As a consequence, part of the capital invested by the investor may be lost, so that the investor in such case would not receive the total amount of capital invested. Additionally, at the Early Redemption Date, an investor would generally not be able to reinvest

the redemption proceeds at an effective interest rate as high as the interest rate on the Notes being redeemed and may only be able to do so at a significantly lower rate.

(d) **Risks related to Redemption Methods**

The Redemption Method applicable to the Final Redemption Amount or the Instalment Redemption Amount, as applicable, may be different to the Redemption Method applicable to the Early Redemption Amount. Where Performance Redemption or Growth Redemption applies, the Early Redemption Amount, Instalment Redemption Amount or Final Redemption Amount, as applicable, will be calculated by reference to a Redemption Payoff. Noteholders should therefore also refer to the relevant risk factors set out below which apply to the Redemption Payoff specified in the applicable Final Terms to be applicable for determining the Early Redemption Amount, the Final Redemption Amount or the Instalment Redemption Amount, as the case may be. The calculation of such Redemption Payoff may be linked to the value of one or more Underlying(s) that have been selected under the relevant Redemption Payoff. The performance of the Underlying(s) will consequently affect the Early Redemption Amount, Instalment Redemption Amount or Final Redemption Amount an investor will receive.

As a result, the Early Redemption Amount, Instalment Redemption Amount or Final Redemption Amount may be less than the nominal amount of the Notes and Noteholders may lose all or part of the amount of the capital invested.

(e) **Fair Market Value Redemption Amount**

Where a Note is subject to early redemption, it may (where specified in the applicable Final Terms) be redeemed at its Fair Market Value Redemption Amount, which may be different from the amount due on the scheduled redemption date. Save in respect of Notes where the Fair Value Redemption Amount is determined by reference to a fixed percentage, the Fair Market Value Redemption Amount in respect of a Note will be an amount equal to the fair market value of the Note (subject to a minimum of zero). Following the early redemption of the Notes, a Noteholder may not be able to reinvest the redemption proceeds at an equivalent rate of return to the Notes being redeemed and may only be able to do so at a significantly lower rate or in worse investment conditions.

(f) **Redemption Unwind Costs**

Redemption Unwind Costs or Payoff Feature Unwind Costs, if applicable, reflect an amount, equal to such Note's pro rata portion of the value (determined in the currency in which the Notes are denominated) of any losses, expenses and costs to the Issuer and/or any of its Affiliates who may have hedged the price risk of the Notes and any loss of tax relief or other tax consequences of unwinding or adjusting any underlying or related swap agreement or other hedging arrangements, all as calculated by the Calculation Agent in its sole discretion. The investor has no way of knowing if the Notes have been hedged, the terms of any such hedge and the consequences of when such hedge is unwound or adjusted and so have no way of knowing what this amount will be and the effect on the amount paid on redemption of the Notes.

(g) **Risks related to Disruption Events**

Linked Interest Notes and Linked Redemption Notes may be subject to risks related to additional disruption events, market disruption events, disrupted days and other events that have a material effect on the Notes, if applicable (each as defined in the relevant Asset Conditions, the **Disruption Events**).

The occurrence of any Disruption Event may result in the postponement of the relevant observation date relating to any Underlying or affected component Underlying of a Basket, the postponement of the relevant payment date for interest or redemption or the redemption of the Notes by the Issuer. The amount to be paid following any postponement of the payment date

will not be adjusted to take into account any interest or other sum in respect of the postponement of the payment.

Investors should be aware that the Calculation Agent has a large amount of discretion upon the occurrence of any Disruption Event. The Calculation Agent may make adjustments to the Conditions as it considers appropriate and may determine the fair market value of the relevant Underlying or good faith estimate of the level of the Index, as applicable, in accordance with the relevant Asset Conditions.

Any postponement of the observation date or payment date or any amendment to the Conditions may have an adverse effect on the value of the Notes. The occurrences of any such event may also adversely affect the investors' investment schedule, timetable or plans in relation to which the payment dates of the Notes are connected.

#### **4.3. Risks related to Commodity Linked Notes**

Chapter 1 of Annex 1 - Asset Conditions: Commodity Linked Asset Conditions allows for Commodity Linked Notes to be issued. The Issuers may issue Notes where the amount of principal payable is dependent upon the value of a commodity.

Noteholders should be aware that depending on the terms of the Commodity Linked Notes (i) they may receive no or a limited amount of interest, (ii) payment of principal or interest may occur at a different time than expected and (iii) they may lose all or a substantial portion of their investment. In addition, the movements in the value of the commodity(ies) may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices and the timing of changes in the relevant value of a commodity(ies) may affect the actual yield to Noteholders, even if the average level is consistent with their expectations. In general, the earlier the change in the value of the commodity(ies), the greater the effect on yield.

The market price of such Notes may be volatile and may be affected by the time remaining to the redemption date and the volatility of the value of the commodity(ies). The value of commodities may be affected by economic, financial and political events in one or more jurisdictions, including factors affecting the exchange(s) or quotation system(s) on which the relevant commodities may be traded.

If a Market Disruption Event in relation to a commodity occurs, this may also have an adverse effect on the value or liquidity of the Notes.

As a result, Noteholders are exposed to the risk that changes in value of a commodity may adversely affect the value of Commodity Linked Notes and as a result, Noteholders could lose all or part of their investment.

#### **4.4. Risks related to Index Linked Notes**

Chapter 2 of Annex 1 - Asset Conditions: Index Linked Asset Conditions allows for Index Linked Notes to be issued. The Issuers may issue Notes where the amount of principal and/or interest payable are dependent upon the level of an index or indices.

Noteholders should be aware that depending on the terms of the Index Linked Notes (i) they may receive no or a limited amount of interest, (ii) payment of principal or interest may occur at a different time than expected and (iii) they may lose all or a substantial portion of their investment. In addition, the movements in the level of the index or indices may be subject to significant fluctuations that may not correlate with changes in the relevant index or indices and the timing of changes in the relevant level of the index or indices may affect the actual yield of the Notes, even if the average level is consistent with their expectations. In general, the earlier the change in the level of an index, the greater the effect on yield.

The market price of such Notes may be volatile and may depend on the time remaining to the redemption date and the volatility of the level of the index or indices. The level of the index or indices may be affected by the economic, financial and political events in one or more jurisdictions, including but not limited to the stock exchange(s) or quotation system(s) on which any securities comprising the index or indices may

be traded. Noteholders are exposed to the risk that changes in the levels of the index or indices may adversely affect the value of Index Linked Notes and as a result, could lose all or part of their investment.

#### 4.5. Risks related to Inflation Linked Notes

Chapter 3 of Annex 1 - Asset Conditions: Inflation Linked Asset Conditions allows for Inflation Linked Notes to be issued. The Issuers may issue Notes where the amount of principal and/or interest is determined by reference to an inflation index or inflation indices.

Neither the current nor the historical levels of any of the inflation indices should be taken as an indication of future performance of such inflation index during the term of any Inflation Linked Notes. Noteholders are exposed to the risk that changes in the levels of the Inflation Index may adversely affect the value of Inflation Linked Notes and as a result, Noteholders could lose all or part of their investment.

#### 4.6. Risks related to Rate Linked Notes

Chapter 4 of Annex 1 - Asset Conditions: Rate Linked Asset Conditions allows for Rate Linked Notes to be issued. The Issuers may issue Notes where the amount of principal and/or interest payable are dependent upon movements in benchmark rate. Accordingly an investment in Rate Linked Notes may bear similar market risks to a direct interest rate investment.

Noteholders should be aware that, depending on the terms of the Rate Linked Notes (i) they may receive no or a limited amount of interest, (ii) payment of principal or interest may occur at a different time than expected and (iii) they may lose a substantial portion of their investment. In addition, movements in interest rates may be subject to significant fluctuations that may not correlate with changes in other indices and the timing of changes in the interest rates may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in interest rates, the greater the effect on yield.

Interest rates are determined by various factors which are influenced by macro-economic, political or financial factors, speculation and central bank and government intervention. In recent years, interest rates have been relatively low and stable, but this may not continue and interest rates may rise and/or become volatile. Fluctuations that have occurred in any interest rate in the past are not necessarily indicative, however, of fluctuation that may occur in the rate during the term of any Note. Fluctuations in interest rates will affect the value of Rate Linked Notes.

The market price of such Notes may be volatile and, if the amount of principal and/or interest payable is dependent upon movements in interest rates, may depend upon the time remaining to the redemption date and the volatility of interest rates. Movements in interest rates may be dependent upon economic, financial and political events in one or more jurisdictions. As a result, Noteholders are exposed to the risk that changes in interest rates may adversely affect the value of Rate Linked Notes and as a result, Noteholders could lose all or part of their investment.

#### 4.7. Risks related to ETF Linked Notes

Chapter 5 of Annex 1 - Asset Conditions: ETF Linked Asset Conditions Condition allows for ETF Linked Notes to be issued. The Issuers may issue Notes where the amount of principal payable is dependent upon the price or changes in the price of units or shares in an exchange traded fund or exchange traded funds or, depending on the price or changes in the price of units or shares in such a fund or funds, the Issuer's obligation on redemption is to deliver a specified amount of shares. As a result, Noteholders are exposed to the risk that changes in the price of units or shares in an exchange traded fund or exchange traded funds may adversely affect the value of ETF Linked Notes and as a result, Noteholders could lose all or part of their investment.

(a) **Where the Underlying is an exchange traded fund, there is a risk that such exchange traded fund will not accurately track its underlying share or index**

Where the Notes are linked to an ETF and the investment objective of such ETF is to track the performance of a share or an index, the Noteholders are exposed to the performance of such ETF

rather than the underlying share or index such ETF tracks. For certain reasons, including to comply with certain tax and regulatory constraints, an ETF may not be able to track or replicate the constituent securities of the underlying share or index, which could give rise to a difference between the performance of the underlying share or index and such ETF. Accordingly, Noteholders who purchase Notes that are linked to an ETF may receive a lower return than if such investors had invested in the share or the index underlying such ETF directly.

(b) **Action or non-performance by the management company, fund administrator or sponsor of an exchange traded fund may adversely affect the Notes**

The management company, fund administrator or sponsor of an ETF will have no involvement in the offer and sale of the Notes and will have no obligation to any purchaser of such Notes. The management company, fund administrator or sponsor of an ETF may take any actions in respect of such ETF without regard to the interests of the purchasers of the Notes, and any of these actions could adversely affect the market value of the Notes. In its day-to-day operations and its investment strategy, an ETF will rely on the fund advisor, the investment advisor, the management company and/or on third parties providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments used by such ETF to employ its investment strategy. The insolvency or non-performance of services of any such persons or institutions may expose an ETF to financial loss. Failure of procedures or systems, as well as human error or external events associated with an ETF's management and/or administration may cause losses to an ETF and affect the market value of the Notes.

(c) **Determinations made by the Calculation Agent in respect of Potential Adjustment Events and Extraordinary Events may have an adverse effect on the value of the Notes**

Upon determining that a Potential Adjustment Event or an Extraordinary Event has occurred in relation to an underlying exchange traded fund or in relation to a share or unit of an underlying exchange traded fund, the Calculation Agent has discretionary authority under the Terms and Conditions of the Notes to make certain determinations to account for such event including to (i) make adjustments to the terms of the Notes and/or (ii) cause early redemption of the Notes, any of which determinations may have an adverse effect on the value of the Notes.

(d) **Risks relating to physical settlement**

Where the Notes provide for physical delivery, the Issuer may determine that the specified assets to be delivered are either (a) assets which for any reason (including, without limitation, failure of the relevant clearance system or due to any law, regulation, court order or market conditions or the non-receipt of any requisite consents with respect to the delivery of assets which are loans) it is impossible or illegal to deliver on the specified settlement date or (b) assets which the Issuer and/or any affiliate has not received under the terms of any transaction entered into by the Issuer and/or such affiliate to hedge the Issuer's obligations in respect of the Notes. Any such determination may delay settlement in respect of the Notes and/or cause the obligation to deliver such specified assets to be replaced by an obligation to pay a cash amount which, in either case, may affect the value of the Notes and, in the case of payment of a cash amount, will affect the timing of the valuation of such Notes and as a result, the amount of nominal payable on redemption.

(e) **Non-delivery of ETF Units will not constitute an Event of Default**

Where physical settlement applies to the Notes, if the Issuer and/or any of its affiliates have not received the ETF Units and/or cash for whatever reason, including as a result of a failure to deliver by a third party under the terms of any hedging transaction, such event will not constitute an Event of Default for the purpose of the Notes. In such circumstances settlement of the Notes, may be substantially delayed and/or may be in cash (in whole or in part).

#### 4.8. Risks related to Share Linked Notes

Chapter 6 of Annex 1 - Asset Conditions: Share Linked Asset Conditions Condition allows for Share Linked Notes to be issued. The Issuers may issue Notes where the amount of principal payable is dependent upon the price or changes in the price of shares, the Issuer's obligation on redemption is to deliver a specified amount of shares. As a result, Noteholders are exposed to the risk that changes in the price of shares may adversely affect the value of Share Linked Notes and as a result, Noteholders could lose all or part of their investment.

(a) **Limited anti-dilution protection**

The Calculation Agent may make adjustments to elements of the Notes as described in the Share Linked Asset Conditions. The Calculation Agent is not required to make an adjustment for every corporate event that may affect the underlying shares or depositary receipts. Those events or other actions by the issuer of underlying shares or depositary receipts or a third party may nevertheless adversely affect the market price of the underlying shares or depositary receipts and, therefore, adversely affect the value of the Notes. The issuer of underlying shares or depositary receipts or a third party could make an offering or exchange offer or the issuer of underlying shares or depositary receipts could take another action that adversely affects the value of the underlying shares or depositary receipts and the Notes but does not result in an adjustment.

(b) **Risks relating to physical settlement**

Where the Notes provide for physical delivery, the Issuer may determine that the specified assets to be delivered are either (a) assets which for any reason (including, without limitation, failure of the relevant clearance system or due to any law, regulation, court order or market conditions or the non-receipt of any requisite consents with respect to the delivery of assets which are loans) it is impossible or illegal to deliver on the specified settlement date or (b) assets which the Issuer and/or any affiliate has not received under the terms of any transaction entered into by the Issuer and/or such affiliate to hedge the Issuer's obligations in respect of the Notes. Any such determination may delay settlement in respect of the Notes and/or cause the obligation to deliver such specified assets to be replaced by an obligation to pay a cash amount which, in either case, may affect the value of the Notes and, in the case of payment of a cash amount, will affect the timing of the valuation of such Notes and as a result, the amount of principal payable on redemption.

(c) **Non-delivery of Shares will not constitute an Event of Default**

Where physical settlement applies to the Notes, if the Issuer and/or any of its affiliates have not received the Shares and/or cash for whatever reason, including as a result of a failure to deliver by a third party under the terms of any hedging transaction, such event will not constitute an Event of Default for the purpose of the Notes. In such circumstances settlement of the Notes, may be substantially delayed and/or may be in cash (in whole or in part) which may affect Noteholders.

#### 4.9. Risks related to Fund Linked Notes

Chapter 7 of Annex 1 - Asset Conditions: Fund Linked Asset Conditions Condition allows for Fund Linked Notes to be issued. The fund units used as underlying assets of the Fund Linked Notes may be issued by any pooled investment vehicle or other similar type of arrangement, such as hedge funds or mutual funds (hereafter a Reference Fund). As a result, Noteholders are exposed to the risk that changes in the price of fund units may adversely affect the value of Fund Linked Notes and as a result, Noteholders could lose all or part of their investment.

Statements in these risk factors concerning funds and fund managers also apply to any portfolio or basket of funds and any related portfolio manager.

(a) **Risks relating to underlying Reference Funds that are pooled investment vehicles**

Fund Interest units, and investments in pooled investment vehicles generally, are speculative and involve a high degree of risk.

To the extent the underlying(s) of a Series of Notes include(s) a Fund Interest or Basket of Fund Interests for a Series of Notes, the Notes of such Series will be subject to some of the risks of an investment in a Reference Fund or the Basket Reference Funds. The lack of oversight and regulation associated with arrangements that are Reference Funds may increase the likelihood of fraud and negligence by the fund's managers and/or the investment advisors, their brokerage firms or banks.

Reference Funds may involve complex tax structures and delays in distributing important tax information and may have high fees and expenses that may offset the Reference Fund's trading profits.

Substantial redemptions on a Reference Fund on a particular day could require such Reference Fund to liquidate positions more rapidly than would be otherwise desirable.

Reference Funds, including the funds on which Notes may be indexed, generally do not make information about their operations and holdings public. Even if the Issuer may have arrangements with a Reference Fund manager to obtain information required to calculate the value of the fund, it may not have access to the activities of the fund on a continuous basis or at all. There are currently no regulatory requirements compelling funds to release information of the kind that would allow the Issuer to value a fund or to accurately determine the value of the fund units and, consequently, the Redemption Amount of the relevant Notes.

(b) **The use of leverage may increase the risk of loss in the value of the fund units**

The underlying funds may have recourse to leverage, i.e. borrow amounts that represent more than 100 per cent. of the value of their assets to invest further in assets that involve additional risks. Accordingly, a small downward movement in the value of a fund's assets may result in a significantly larger loss for the fund.

(c) **Fund managers may take risky investments notably because of the possibility to earn incentive compensation**

The fund managers and/or the investment advisors to Reference Funds may invest in and trade in a variety of financial instruments using sophisticated investment techniques for hedging and non-hedging purposes.

While these investment strategies and financial instruments allow the fund managers and/or the investment advisors the flexibility to implement a range of strategies in an attempt to generate positive returns for the fund, they also create the risk of significant losses that may adversely affect the fund.

The potential for a fund manager to earn performance-based compensation (including a manager that is affiliated with the Issuer) may encourage such fund manager to trade in a more speculative manner than it otherwise would. Therefore, because the incentive compensation of the fund's managers and/or investment advisors to Reference Funds is often directly influenced by the performance of such funds, each fund manager may consequently have an incentive to take greater risks when making investments that may result in greater profits. By taking greater risks when making investments consequently there is greater scope for significant losses. In addition, the fund managers and/or the investment advisors may receive management, advisory or performance fees even though the fund has not realised any gains.

(d) **The illiquidity of the underlying Reference Fund's investments or the occurrence of certain extraordinary events may cause the payment of the Final or Early Redemption Amount, any Instalment Amount or any Interest Amount to be reduced or delayed**

Any Interest Amount, Instalment Redemption Amount, Final Redemption Amount or Early Redemption Amount due to investors in Fund Linked Notes may be based on the redemption proceeds that would be paid in cash by the underlying Reference Fund to a hypothetical investor as a result of a valid and timely notice for redemption given by such hypothetical investor with effect as of the relevant valuation date. To meet a redemption request, the underlying Reference Fund would likely sell its own assets but such investments may not be readily saleable on or shortly after the valuation date for various reasons, including, but not limited to:

- (i) infrequent redemption opportunities allowed by such underlying Reference Fund (for example, many Reference Funds only allow monthly or quarterly liquidity);
- (ii) "gating", lock-ups, side pockets or discretionary redemption delays or suspensions imposed by such underlying Reference Fund (for example, many Reference Funds have provisions whereby redemption requests are scaled back if the aggregate amount of such requests reaches a predetermined limit); and
- (iii) such underlying Reference Funds' own investments may be illiquid.

In these situations, (i) the payment of any Interest Amount, Instalment Redemption Amount, Final Redemption Amount or Early Redemption Amount may be postponed by the Calculation Agent to a day soon after the date on which the underlying Reference Fund pays all the redemption proceeds in respect of a valid and timely redemption order given after the occurrence of an event described above or to the maturity date of the Notes. If the redemption proceeds have not been paid by the underlying Reference Fund on the redemption date of the Notes, the payment of any interest Amount, Instalment Redemption Amount or final redemption Amount may be postponed.

If certain extraordinary events occur affecting an underlying Reference Fund, such as, but without limitation, the insolvency, nationalisation or merger of the underlying Reference Fund, a resignation or termination or replacement of the administrator, custodian, investment adviser or manager of the fund, or a breach by the underlying Reference Fund of its investment strategy, the Issuer may decide to terminate soon after the occurrence of such extraordinary event, the exposure of the Notes to the underlying Reference Fund and pay all amounts due on the redemption date of the Notes on the basis of the redemption proceeds paid by the underlying Reference Fund in the liquidation of the exposure to such underlying Reference Fund. If the underlying Reference Fund is also subject to liquidity problems as described above, the postponement of the payment of amounts as described above may also apply.

In the fund industry, it is likely that such delay would have an adverse impact on the amount payable to an investor under the Notes.

- (e) **If the underlying Reference Fund(s) invest(s) through a master-feeder structure, the latter may have an adverse effect on the underlying Reference Fund(s) and, therefore, the Notes**

The underlying Reference Fund(s) may invest through a "master-feeder" structure. As such, the underlying Reference Fund(s) will contribute substantially part or all of its assets to the master Reference Fund and may do so alongside other investors, including other feeder funds. The relevant master fund may also establish or allow investment by additional investors or feeder funds in the future.

The master-feeder fund structure, in particular the existence of multiple investment vehicles investing in the same portfolio, presents certain unique risks to investors. The underlying Reference Fund(s) may be materially affected by the actions of other investors, investment vehicles and feeder funds investing in the master fund, particularly if such investors have large investments in the master fund. For example, if a larger investment vehicle or entity with a large investment in the master fund redeems from the master fund, illiquidity in certain securities or markets could make it difficult for the master fund to liquidate positions on favourable terms to effect such redemption, which could result in losses or a decrease in the net asset value of the

master fund. In addition, to satisfy such redemptions, the sub-manager may need to liquidate the master fund's most liquid investments, leaving remaining investors (including the underlying fund(s)) invested in more illiquid instruments. Such withdrawals may also leave the master fund with a less diversified pool of investments. This may increase the overall portfolio risk of the master fund, and, ultimately, the Notes. Conversely, the sub-manager may refuse a redemption request if it believes that such request, if fulfilled, would have a material adverse impact on the remaining investors of the master fund. This may negatively impact the liquidity of the master fund and, therefore, the underlying fund(s) and the Notes.

#### **4.10. Risks related to Multi-Asset Basket Linked Notes**

An investment in Multi-Asset Basket Linked Notes will entail significant risks not associated with an investment in a conventional debt security. On redemption of Multi-Asset Basket Linked Redemption Notes, Noteholders will receive an amount (if any) determined by reference to the price, value or level of two (2) or more types of Underlyings. Multi-Asset Basket Linked Interest Notes pay interest calculated by reference to the price, value or level of two (2) or more types of Underlyings. The Underlyings being a commodity, index, inflation index, benchmark rate, ETF, share or fund interest, please refer to the risk factors above.

#### **4.11. Risks related to Payoff Features**

In accordance with Annex 4 (*Payoff Feature Conditions*), the Notes may be subject to the application of a Payoff Feature. The application of a Payoff Feature may mean that Notes are, in turn, subject to the application of Linked Interest and/or Linked Redemption, as specified in the applicable Final Terms.

The Linked Interest Rate and/or Redemption Payoff determined under the Linked Interest or Linked Redemption may be linked to the value of the Underlying(s) that have been selected under the relevant Common Interest Payoffs, Combination Interest Payoffs and/or Common Redemption Payoffs. Negative performance of the Underlying(s) will consequently affect the value of the Linked Interest Rate and/or Redemption Payoff determined under the Linked Interest or Linked Redemption. Principal and/or interest paid as a result of the application of the relevant Payoff Feature may be less (and in certain circumstances, significantly less) than investors' initial investment in the relevant Notes and could be as low as zero (0).

##### **(a) Additive Payoff Feature**

The Additive Payoff Feature sets out that any Payoff Feature may be combined with one or more other Payoff Features. Accordingly where Additive Payoff Feature apply, investors should refer to the relevant Payoff Feature Conditions included in the combination. This combination results in the payoff being all the more complex and investors should be aware that the result may be that the relevant Note does not perform as they may expect and that they could lose all or part of their investment.

##### **(b) Global Cap Interest Payoff Feature and Global Cap Redemption Payoff Feature**

For each Interest Payment Date on which the sum of the Interest Amounts paid or accrued up to and including such Interest Payment Date is equal to or greater than the Global Cap Amount, no Interest Amount will be payable.

The amount payable on the Redemption Date or an Instalment Date may be reduced by (in the case of the Final Redemption Amount) an amount equal to the Global Cap Amount or (in the case of each Instalment Redemption Amount) the Instalment Cap. The value of an underlying may therefore negatively affect the amount payable on the Redemption Date or an Instalment Date, as the case may be, if the interest amounts are calculated by reference to the value of an underlying.

##### **(c) Global Floor Interest Payoff Feature and Global Floor Redemption Payoff Feature**

For a specified Interest Payment Date on which the sum of the Interest Amounts paid or accrued up to and including such Interest Payment Date is less than the Global Floor Amount, the Interest

Amount payable on such Interest Payment Date will be adjusted so that the sum of such Interest Amounts will equal the Global Floor Amount.

The amount payable on the Redemption Date or the final Instalment Date, as the case may be, may be increased by an amount equal to the Global Floor Amount. The value of an underlying may therefore negatively affect the amount payable on the Redemption Date or the final Instalment Date, as the case may be, if the interest amounts are calculated by reference to the value of an underlying.

(d) **Issuer Interest Switch Payoff Feature and Issuer Redemption Switch Payoff Feature**

The Issuer may elect to change:

- (i) the basis on which interest is calculated from Linked Interest<sub>1</sub> to Linked Interest<sub>2</sub> and/or
- (ii) the basis on which the Final Redemption Amount or the Instalment Redemption Amount, as the case may be, is calculated from Linked Redemption<sub>1</sub> to Linked Redemption<sub>2</sub>.

If the Issuer elects to exercise such option this may negatively affect the Linked Interest Rate and/or the Redemption Payoff, as applicable, and therefore the value of the Notes.

(e) **Knock-out Interest Switch Payoff Feature and Knock-out Redemption Switch Payoff Feature**

In the event of a Knock-out Interest Switch Payoff Feature or Knock-out Redemption Switch Payoff Feature being applicable, upon the occurrence of a Knock-out Interest Switch Event or a Knock-out Redemption Switch Event:

- (i) if the Knock-out Interest Switch Payoff Feature is applicable, the method of calculating the Linked Interest Rate will automatically switch from Linked Interest<sub>1</sub> to Linked Interest<sub>2</sub>, and/or
- (ii) if the Knock-out Redemption Switch Payoff Feature is applicable, the method of calculating the Redemption Payoff with respect to the Final Redemption Amount or the Instalment Redemption Amount, as the case may be, will automatically switch from Linked Redemption<sub>1</sub> to Linked Redemption<sub>2</sub>.

The switch may not be beneficial for investors and this feature may negatively impact the value of the Notes.

(f) **Target Interest Switch Payoff Feature**

The basis on which interest is calculated will switch automatically from Linked Interest<sub>1</sub> to Linked Interest<sub>2</sub> if a Target Interest Switch Event occurs.

Linked Interest<sub>2</sub> may be a less beneficial way of calculating the Linked Interest Rate in subsequent Interest Accrual Periods and this may also negatively affect the value of the Notes.

(g) **Memory Interest Payoff Feature**

In the event that the Linked Interest Rate in any Interest Accrual Period is zero (0), where the Linked Interest Rate in any subsequent Interest Accrual Period is greater than zero (0), such Linked Interest Rate will be increased by a factor reflecting the number of previous consecutive Interest Payment Dates to which no interest was paid. There is no guarantee that the relevant Linked Interest Rate will reflect a market rate and the value of the Notes may substantially decrease. Furthermore there is no guarantee that the Linked Interest Rate will be greater than zero (0) in which case the Interest Amounts payable under the Notes may be zero (0).

(h) **Single Interest Payment Date Payoff Feature**

The amount payable as interest may accrue throughout the life of the Notes based on observations and determinations throughout the life of the Notes but will be paid as a single amount on the Single Interest Payment Date. Where Notes are redeemed prior to the Single Interest Payment Date, there is no guarantee that the amount payable on such redemption date will take into account (i) any accrued but unpaid interest, or (ii) the amount that would have been payable as interest if the Notes had not been redeemed early, which may affect the market value of the Notes.

(i) **Knock-out Performance Interest Switch Payoff Feature and Knock-out Performance Redemption Switch Payoff Feature**

In the event of a Knock-out Performance Interest Switch Payoff Feature being applicable, upon the occurrence of a Knock-out Performance Interest Switch Event, the method of calculating the Linked Interest Rate will automatically switch from Linked Interest<sub>1</sub> to Linked Interest<sub>2</sub>.

In the event of a Knock-out Performance Redemption Switch Payoff Feature being applicable, upon the occurrence of a Knock-out Performance Redemption Switch Event, the method of calculating the Final Redemption Amount or the relevant Instalment Amount, as the case may be, will automatically switch from Linked Redemption<sub>1</sub> to Linked Redemption<sub>2</sub>.

The switch may not be beneficial for investors and this feature may negatively impact the value of the Notes.

- (r) ensure that it does not, directly or indirectly, cause the Issuer or the relevant Dealer(s) to breach any Rule or any requirement to obtain or make any filing, authorisation or consent in any jurisdiction; and
- (s) satisfy any further conditions specified in the applicable Final Terms,

in each case for so long as they are authorised to make such offers under MiFID II.

The financial intermediaries referred to in 1 and 2 above are together referred to herein as **Authorised Offerors**.

For the avoidance of doubt, none of the Dealers or the Issuer shall have any obligation to ensure that an Authorised Offeror complies with applicable laws and regulations and shall therefore have no liability in this respect.

The Issuer accepts responsibility, in the Non-exempt Offer Jurisdiction(s) specified in the Final Terms, for the content of this Base Prospectus in relation to any person (an **Investor**) in such Non-exempt Offer Jurisdiction(s) to whom an offer of any Notes is made by any Authorised Offeror and where the offer is made in compliance with all the conditions attached to the giving of the consent, all as mentioned in this Base Prospectus and/or as specified in the applicable Final Terms. However, none of the Issuer or any Dealer has any responsibility for any of the actions of any Authorised Offeror, including compliance by an Authorised Offeror with applicable conduct of business rules or other local regulatory requirements or other securities law requirements in relation to such offer.

The consent referred to above relates to Offer Periods (if any) occurring within 12 months from the date of the approval of this Base Prospectus by the CSSF.

**In the event the applicable Final Terms designate Authorised Offeror(s) to whom the Issuer has given its consent to use this Base Prospectus during an Offer Period, the Issuer may also give consent to Additional Authorised Offeror(s) so long as they are authorised to make such offers under MiFID II (also an Authorised Offeror) after the date of the applicable Final Terms and, if it does so, it will publish any new information in relation to such Additional Authorised Offeror(s) who are unknown at the time of the approval of this Base Prospectus or the filing of the applicable Final Terms on its website (<https://www.edmond-de-rothschild.com/en/Pages/Information-reglementees.aspx>) and at [www.luxse.com](http://www.luxse.com).**

**If the Final Terms specify that General Consent is applicable, any General Authorised Offeror is required, for the duration of the Offer Period, to publish on its website or on the website of the Initial Authorised Offeror (if any) that it is using this Base Prospectus for the relevant Non-exempt Offer with the consent of the Issuer and in accordance with the conditions attached thereto.**

Other than as set out above, neither the Issuer nor any of the Dealers has authorised the making of any Non-exempt Offer by any person in any circumstances and such person is not permitted to use this Base Prospectus in connection with its offer of any Notes. Any such offers are not made on behalf of the Issuer or by any of the Dealers or Authorised Offerors and none of the Issuer or any of the Dealers or Authorised Offerors has any responsibility or liability for the actions of any person making such offers.

An Investor intending to acquire or acquiring any Notes from an Authorised Offeror will do so, and offers and sales of the Notes to an Investor by an Authorised Offeror will be made, in accordance with any terms and other arrangements in place between such Authorised Offeror and such Investor including as to price allocations and settlement arrangements (the **Terms and Conditions of the Non-exempt Offer**). The Issuer will not be a party to any such arrangements with Investors (other than Dealers) in connection with the offer or sale of the Notes and, accordingly, this Base Prospectus does not and any applicable Final Terms will not contain such information and an investor must obtain such information from the Authorised Offeror. **The Terms and Conditions of the Non-exempt Offer shall be provided to Investors by that Authorised Offeror at the time the Non-exempt Offer is made.** None of the Issuer or any of the Dealers or other Authorised Offerors has any responsibility or liability for such information.

# BASE PROSPECTUS – USER GUIDE

## Introduction

---

Various types of Notes may be issued under the Programme and these are described in more detail in the Base Prospectus. Potential investors should read and ensure they understand the suite of documentation pursuant to which different types of Notes will be offered pursuant to the Base Prospectus. An overview of the documentation is set out below.

## Documentation

---

### ❖ The Base Prospectus

The Base Prospectus contains information regarding:

- the form of the Notes;
- the Terms and Conditions of the Notes;
- the Issuer;
- the principal risks associated with an investment in the Notes.

The Base Prospectus may be supplemented by the Issuer. As such, potential investors should ensure that when reviewing the Base Prospectus, they also review each supplement (if any) to the Base Prospectus. Potential investors should also be aware that some information in the Base Prospectus is incorporated into it by reference and therefore may need to be accessed separately.

### ❖ Final Terms

The Final Terms set out information specific to a particular Series of Notes and complete the contractual terms and conditions for that Series of Notes. In certain cases, summary information relating to the Issuer and the Notes will be appended to the Final Terms in what is referred to as an "Issue Specific Summary".

### ❖ The Agency Agreement

The Issuer has entered into an agency agreement (the **Agency Agreement**) pursuant to which they have appointed to act Banque Internationale à Luxembourg as its agents in performing certain operational duties in connection with the Notes. The Agency Agreement also includes the form of certain notices that may be delivered either to or from Noteholders in accordance with the Terms and Conditions of a Series of Notes.

### ❖ The Programme Agreement

The Issuers have entered into a programme agreement pursuant to which they have agreed with the Dealers referred to in the Base Prospectus the terms on which they will issue and subscribe for Notes, respectively.

### ❖ The Deed of Covenant

The Issuers have entered into deeds of covenant, governed by English law, pursuant to which Noteholders will, subject to the conditions thereof and the terms and conditions of the Notes, be contractually entitled to take proceedings against the Issuer in the event that the Notes have become due and repayable but have not been repaid in full and become void as a consequence.

## THE FINAL TERMS

A Final Terms document is prepared in connection with each Series of Notes for the purposes of setting out the elections that complete the Terms and Conditions applicable to that Series of Notes and to provide certain issue-specific and related information.

The Final Terms is split into two parts (Part A and Part B). The diagram below summarises the broad function of Part A and Part B of the Final Terms in respect of a Series of Notes and provides an overview of the different sections of those two parts.

## INTEREST

Interest on Notes may be determined by reference to a fixed rate or a floating rate or may be structured as a zero coupon security, which effectively bears interest by being issued at a discount to its face value. For the purposes of this User's Guide, Notes of this type are referred to as Notes that bear **General Interest**. Notes may alternatively bear interest determined by reference to an Underlying Asset and/or by reference to a formula. For the purposes of this User's Guide, Notes of this type are referred to as Notes that bear **Structured Interest**.

The table below summarises the sections of the Terms and Conditions set out in the Base Prospectus that will be relevant to holders of Notes bearing General Interest or Structured Interest.

## REDEMPTION

A Series of Notes may be redeemed on its scheduled redemption date or in scheduled instalments by repayment of the nominal amount outstanding in respect of such Series of Notes (subject to certain adjustments, as set out in the applicable Terms and Conditions). For the purposes of this User's Guide, Notes of this type are referred to as Notes that are subject to **General Redemption**. A Series of Notes may alternatively be redeemed on its scheduled redemption date or in scheduled instalments by payment of an amount determined by reference to an Underlying Asset and/or a formula. For the purposes of this User's Guide, Notes of this type are referred to as Notes that are subject to **Structured Redemption**.

The table below summarises the sections of the Terms and Conditions set out in the Base Prospectus that will be relevant to holders of Notes subject to General Redemption or Structured Redemption.

## REDEMPTION METHOD

Unless previously redeemed or purchased and cancelled, each Note that provides for Instalment Dates and Instalment Amounts (such Notes being **Instalment Notes**) shall be partially redeemed on each Instalment Date at the relevant Instalment Amount corresponding to such Instalment Date.

For **Standard** and **Structured Redemption Products** there are 3 different formulas set out below to choose from depending on the product.

	Paragraph	Formula
1	Standard Redemption	Reference Price x Principal Amount
2	Performance Redemption	(Reference Price + <b>Redemption Payoff</b> ) x Principal Amount
3	Growth Redemption	(Reference Price x <b>Redemption Payoff</b> ) x Principal Amount

A **Standard Redemption** (Condition 2 (*Standard Redemption*) of Annex 6 (*Redemption Method Conditions*)) method does not involve a Payoff; a Referenced Price (usually a percentage) will be mentioned in the Term Sheet.

A **Structured Redemption** involves either a Performance Redemption or a Growth Redemption, respectively Condition 3 and 4 of Annex 6 (*Redemption Method Conditions*). A **Structured Redemption** requires a Payoff that is a **Common Redemption Payoff**.

**Common Redemption Payoff** (Annex 2, Part B) are enumerated in the following below charts.

If documents which are incorporated by reference themselves incorporate any information or other documents therein, either expressly or implicitly, such information or other documents will not form part of this Base Prospectus for the purposes of the Prospectus Regulation except where such information or other documents are specifically incorporated by reference in this Base Prospectus.

The 2022 Conditions and the 2023 Conditions are incorporated by reference in this Base Prospectus for the purpose only of further issues of Notes to be assimilated (assimilées) and form a single series with Notes already issued under the 2022 Conditions or the 2023 Conditions.

**FORM OF THE NOTES**

*This section provides information on the form of the Notes.*

Each Tranche of Notes will be in bearer form and will be initially issued in the form of a temporary global note (a **Temporary Global Note**) or, if so specified in the applicable Final Terms, a permanent global note (a **Permanent Global Note and, together with the Temporary Global Note, the Global Notes**), which, in either case, will:

- (i) if the Global Notes are intended to be issued in new global note (**NGN**) form, as stated in the applicable Final Terms, be delivered on or prior to the original issue date of the Tranche to a common safekeeper (the **Common Safekeeper**) for Euroclear Bank SA/NV (**Euroclear**) and Clearstream Banking, S.A. (**Clearstream**); and
- (ii) if the Global Notes are not intended to be issued in NGN form (and are therefore intended to be issued in classic global note (**CGN**) form), be delivered on or prior to the original issue date of the Tranche to a common depositary (the **Common Depositary**) for Euroclear and Clearstream.

Whilst any Note is represented by a Temporary Global Note, payments of principal, interest (if any) and any other amount payable in respect of the Notes due prior to the Exchange Date (as defined below) will be made (against presentation of the Temporary Global Note if the Temporary Global Note is intended to be issued in CGN form) only to the extent that certification (in a form to be provided) to the effect that the beneficial owners of interests in such Note are not U.S. persons or persons who have purchased for resale to any U.S. person, as required by U.S. Treasury regulations, has been received by Euroclear and/or Clearstream and Euroclear and/or Clearstream as applicable, has given a like certification (based on the certifications it has received) to the Agent.

On and after the date (the **Exchange Date**) which is 40 days after a Temporary Global Note is issued, interests in such Temporary Global Note will be exchangeable (free of charge) upon a request as described therein either for (a) interests in a Permanent Global Note of the same Series or (b) for definitive Notes (**Definitive Notes**) of the same Series with, where applicable, receipts, interest coupons and talons attached (as indicated in the applicable Final Terms and subject, in the case of Definitive Notes, to such notice period as is specified in the applicable Final Terms), in each case against certification of beneficial ownership as described above unless such certification has already been given. The holder of a Temporary Global Note will not be entitled to collect any payment of interest, principal or other amount due on or after the Exchange Date unless, upon due certification, exchange of the Temporary Global Note for an interest in a Permanent Global Note or for Definitive Notes is improperly withheld or refused.

Payments of principal, interest (if any) or any other amounts on a Permanent Global Note will be made through Euroclear and/or Clearstream (against presentation or surrender (as the case may be) of the Permanent Global Note if the Permanent Global Note is intended to be issued in CGN form) without any requirement for certification.

The applicable Final Terms will specify that a Permanent Global Note will be exchangeable (free of charge), in whole but not in part, for Definitive Notes with, where applicable, receipts, interest coupons and talons attached upon either (a) not less than 60 days' written notice from Euroclear and/or Clearstream (acting on the instructions of any holder of an interest in such Permanent Global Note) to the Agent as described therein or (b) only upon the occurrence of an Exchange Event. For these purposes, **Exchange Event** means that (i) an Event of Default (as defined in Condition 9) has occurred and is continuing, or (ii) the Issuer has been notified that both Euroclear and Clearstream have been closed for business for a continuous period of 14 days (other than by reason of holiday, statutory or otherwise) or have announced an intention permanently to cease business or have in fact done so and no successor clearing system is available, or (iii) the Issuer has or will become subject to adverse tax consequences which would not be suffered were the Notes represented by the Permanent Global Note in definitive form. The Issuer will promptly give notice to Noteholders in accordance with Condition 13 if an Exchange Event occurs. In the event of the occurrence of an Exchange Event, Euroclear and/or Clearstream (acting on the instructions of any holder of an interest in such Permanent Global Note) may give notice to the Agent requesting exchange and, in the event of the occurrence of an Exchange Event as described in (iii) above, the Issuer may also give notice to the Agent requesting exchange. Any such exchange shall occur not later than 45 days after the date of receipt of the first relevant notice by the Agent.

The following legend will appear on all Permanent Global Notes and all Definitive Notes which have an original maturity of more than 365 days and on all receipts and interests coupons relating to such Notes:

"ANY UNITED STATES PERSON WHO HOLDS THIS OBLIGATION WILL BE SUBJECT TO LIMITATIONS UNDER THE UNITED STATES INCOME TAX LAWS, INCLUDING THE LIMITATIONS PROVIDED IN SECTIONS 165(j) AND 1287(a) OF THE INTERNAL REVENUE CODE."

The sections referred to provide that United States holders, with certain exceptions, will not be entitled to deduct any loss on Notes, receipts or interest coupons and will not be entitled to capital gains treatment of any gain on any sale, disposition, redemption or payment of principal in respect of such Notes, receipts or interest coupons.

Notes which are represented by a Global Note will only be transferable in accordance with the rules and procedures for the time being of Euroclear or Clearstream, as the case may be.

Pursuant to the Agency Agreement (as defined under "Terms and Conditions of the Notes"), the Agent shall arrange that, where a further Tranche of Notes is issued which is intended to form a single Series with an existing Tranche of Notes, the Notes of such further Tranche shall be assigned a common code and ISIN which are different from the common code and ISIN assigned to Notes of any other Tranche of the same Series.

Any reference herein to Euroclear and/or Clearstream shall, whenever the context so permits be deemed to include a reference to any additional or alternative clearing system specified in the applicable Final Terms.

A Note may be accelerated by the holder thereof in certain circumstances described in Condition 9. In such circumstances, where any Note is still represented by a Global Note and the Global Note (or any part thereof) has become due and repayable in accordance with the Terms and Conditions of such Notes and payment in full of the amount due has not been made in accordance with the provisions of the Global Note then the Global Note will become void at 8.00 p.m. (London time) on such day. At the same time, holders of interests in such Global Note credited to their accounts with Euroclear and/or Clearstream, as the case may be, will become entitled to proceed directly against the Issuer on the basis of statements of account provided by Euroclear and/or Clearstream on and subject to the terms of a deed of covenant (the **Deed of Covenant**) dated 12 July 2024 and executed by the Issuer.

## 3. REDENOMINATION

If a Scheduled Payment Currency Cessation Event occurs:

- 3.1 The Calculation Agent may, at any time, convert all of the Issuer's payment obligations in respect of the Notes into any other currency as the Calculation Agent may select, in which case all such payment obligations shall be converted into such other currency (the Replacement Payment Currency) at the rate of exchange determined by the Calculation Agent without the need for any further action or any consent. Any such conversion shall be effective from the time and date notified to Noteholders by the Issuer in accordance with General Condition 14 (*Notices*). Upon conversion (i) all of the Issuer's payment obligations in respect of the Notes shall be denominated and payable in the Replacement Payment Currency, (ii) the Conditions shall be construed accordingly and (iii) the Calculation Agent shall be entitled to make such other changes to the Conditions as it deems appropriate in order to give effect to the conversion.
- 3.2 Until such time as the Calculation Agent converts the Issuer's payment obligations under the Notes in accordance with paragraph 3.1 above, or in circumstances where the Calculation Agent determines not to do so, the Issuer's payment obligations in respect of the Notes shall be converted into the currency then adopted in France without the need for any further action or any consent at the rate of exchange specified by applicable law or as otherwise determined by the Calculation Agent and the Conditions shall be construed accordingly (including, without limitation, by giving effect to such other changes to the Conditions as the Calculation Agent deems appropriate in order to reflect the conversion).
- 3.3 By giving notice to the Noteholders in accordance with General Condition 14 (*Notices*), the Issuer, in its sole and absolute discretion, may redeem all, but not some only, of the Notes early on a date to be specified by the Issuer, each Note being redeemed at its Fair Market Value Redemption Amount denominated in the Replacement Payment Currency (if applicable) or the currency then adopted in France.

Upon the occurrence of a Scheduled Payment Currency Cessation Event, the Issuer shall give notice, as soon as practicable, to the Noteholders in accordance with General Condition 14 (*Notices*) stating the occurrence of the Scheduled Payment Currency Cessation Event, giving brief details thereof and the action proposed to be taken in relation thereto.

In making any calculation or determination for the purposes of this General Condition 3, the Calculation Agent shall take into consideration all available information, which it deems relevant but shall otherwise act, in its sole and absolute discretion. Without limitation to the foregoing, the Calculation Agent shall not be obliged to convert the Issuer's payment obligations under any Series of Notes into a Replacement Payment Currency following a Scheduled Payment Currency Cessation Event. None of the Issuer or the Calculation Agent shall have any responsibility or liability to any Noteholder in respect of any loss incurred following the occurrence of a Scheduled Payment Currency Cessation Event.

Any payment made by the Issuer in accordance with this General Condition 3 will constitute a valid payment and will not constitute a default in respect of the Notes.

## 4. INTEREST

The applicable Final Terms will indicate whether the Notes are one or more of: (a) Fixed Rate Notes, (b) Floating Rate Notes, (c) Zero Coupon Notes, and/or (d) Linked Interest Notes.

### 4.1 Interest on Fixed Rate Notes

- (a) If:
- (i) "All Interest Accrual Periods" is specified in the applicable Final Terms, each Fixed Rate Note bears interest from (and including) the Interest Commencement Date to (but excluding) the Redemption Date at the rate(s) equal to the Rate(s) of Interest; and
  - (ii) certain Interest Accrual Periods (other than All Interest Accrual Periods) are specified in the applicable Final Terms, each Fixed Rate Note bears interest from (and including) the first day of the first Interest Accrual Period so specified in the applicable Final Terms to (and including) the last day of the last Interest Accrual Period so specified in the applicable Final Terms at the rate(s) equal to the Rate(s) of Interest. For the avoidance of doubt, any references in this General Condition 4.1 to Interest Accrual Period will be deemed to be references only to such specified Interest Accrual Periods for the purpose of this provision.

In each case above, interest will accrue on a daily basis on each day during each relevant Interest Accrual Period and will be payable in respect of the relevant Interest Accrual Period in arrears on the relevant Interest Payment Date.

- (b) If "One-off Coupon" is specified as applicable in the applicable Final Terms, each Fixed Rate Note will bear interest at the Rate of Interest, which will be payable on the Interest Payment Date, in each case as specified in the applicable Final Terms. Where "One-off Coupon" is applicable to a Series of Notes, it may be the sole interest payment or an additional interest payment in respect of such Notes.
- (c) If the Notes are in definitive form the amount of interest payable on each Interest Payment Date in respect of the Interest Accrual Period ending on (but excluding) the Interest Period Date immediately preceding, or falling on, such Interest Payment Date will amount to the **Fixed Coupon Amount**. Payments of interest on any Interest Payment Date will, if so specified in the applicable Final Terms, amount to the **Broken Amount** (the Fixed Coupon Amount and the Broken Amount being together, **Interest Amounts**).
- (d) Except in the case of Notes in definitive form where an applicable Fixed Coupon Amount or Broken Amount is specified in the applicable Final Terms, the interest amount in respect of a period (an **Interest Amount**) shall be calculated by applying the Rate of Interest to:
  - (i) in the case of Fixed Rate Notes which are represented by a Global Note, either (i) the aggregate outstanding nominal amount of the Fixed Rate Notes represented by such Global Note or (ii) the nominal amount represented by the Specified Denomination (or, if more than one, the lowest Specified Denomination), all as provided in the applicable Final Terms; or
  - (ii) in the case of Fixed Rate Notes in definitive form, the Calculation Amount, or

and in each case multiplying such sum by the applicable Day Count Fraction (except in the case of Notes for which One-off Coupon has been specified and where no Interest Accrual Period applies), and rounding the resultant figure in accordance with General Condition 4.6 (*Rounding*). Where the Specified Denomination of a Fixed Rate Note in definitive form is a multiple of the Calculation Amount, the amount of interest payable in respect of such Fixed Rate Note shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination, without any further rounding.

#### 4.2 Interest on Floating Rate Notes

- (a) Interest Payment Dates
 

If:

  - (i) "All Interest Accrual Periods" is specified in the applicable Final Terms, each Floating Rate Note bears interest from (and including) the Interest Commencement Date to (but excluding) the Redemption Date at the applicable Rate of Interest; or

- (ii) certain Interest Accrual Periods (other than All Interest Accrual Periods) are specified in the applicable Final Terms, each Floating Rate Note bears interest from (and including) the first day of the first Interest Accrual Period so specified in the applicable Final Terms to (and including) the last day of the last Interest Accrual Period so specified in the applicable Final Terms at the applicable Rate of Interest. For the avoidance of doubt, any references in this General Condition 4.2 to Interest Accrual Period will be deemed to be references only to such specified Interest Accrual Periods.

In each case, interest will accrue on a daily basis on each day during each relevant Interest Accrual Period and such interest will be payable in respect of the relevant Interest Accrual Period in arrears on the relevant Interest Payment Date.

(iv) Change in Standard Terms and Market Conventions

The Calculation Agent, acting reasonably, may amend Condition 4.2(b)(i) from time to time to the extent that it determines necessary in order to ensure consistency with prevailing market standards or market trading conventions (as established pursuant to the agreement of the leading dealers in the derivatives market for rates or any relevant committee established by ISDA, a market-wide protocol, any applicable law or regulation or the rules of any applicable exchange or clearing system) that would be or are applicable to any Reference Hedge Transaction from time to time. The Calculation Agent may not, without the consent of the Issuer, make any amendments to Condition 4.2(b)(i) of the Notes pursuant to this Condition 4.2(b)(iv) other than to the extent necessary to give effect to the relevant change(s). The Calculation Agent shall notify the Issuer and the Noteholders as soon as reasonably practicable upon making any such amendment.

(expressed as a percentage rate *per annum*) for the Reference Rate which appears or appear, as the case may be, on the Relevant Screen Page as at the Relevant Screen Page Time on the Interest Determination Date in question plus or minus (as indicated in the applicable Final Terms) the Margin (if any), all as determined by the Calculation Agent. If five (5) or more of such offered

quotations are available on the Relevant Screen Page, the highest (or, if there is more than one such highest quotation, one only of such quotations) and the lowest (or, if there is more than one such lowest quotation, one only of such quotations) shall be disregarded by the Calculation Agent for the purpose of determining the arithmetic mean (rounded as provided in General Condition 4.6 (*Rounding*)) of such offered quotations.

If the Relevant Screen Page is not available or if, in the case of General Condition 4.2(b)(v)(A) (*Screen Rate Determination for Floating Rate Notes*), no offered quotation appears or, in the case of General Condition 4.2(b)(v)(A) (*Screen Rate Determination for Floating Rate Notes*), fewer than three (3) offered quotations appear, in each case at the Relevant Screen Page Time, the Calculation Agent shall request each of the Reference Banks to provide the Calculation Agent with its offered quotation (expressed as a percentage rate *per annum*) for the Reference Rate at the Relevant Screen Page Time on the Interest Determination Date in question. If two (2) or more of the Reference Banks provide the Calculation Agent with offered quotations, the Rate of Interest for the Interest Accrual Period shall be the arithmetic mean (rounded if necessary in accordance with General Condition 4.6 (*Rounding*)) of the offered quotations plus or minus (as appropriate) the Margin (if any), all as determined by the Calculation Agent.

If on any Interest Determination Date one only or none of the Reference Banks provides the Calculation Agent with an offered quotation as provided in the preceding paragraph, the Rate of Interest for the relevant Interest Accrual Period shall be the rate *per annum* which the Calculation Agent determines as being the arithmetic mean (rounded if necessary in accordance with General Condition 4.6 (*Rounding*)) of the rates, as communicated to (and at the request of) the Calculation Agent by the Reference Banks or any two (2) or more of them, at which such banks were offered at the Relevant Screen Page Time on the relevant Interest Determination Date, deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate by leading banks in the Relevant Inter-Bank Market plus or minus (as appropriate) the Margin (if any) or, if fewer than two (2) of the Reference Banks provide the Calculation Agent with offered rates, the offered rate for deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate, or the arithmetic mean (rounded in accordance with General Condition 4.6 (*Rounding*)) of the offered rates for deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate, at which, at the Relevant Screen Page Time on the relevant Interest Determination Date, any one or more banks (which bank or banks is or are in the opinion of the Issuer suitable for the purpose) informs the Calculation Agent it is quoting to leading banks in the Relevant Inter-Bank Market plus or minus (as appropriate) the Margin (if any), provided that, if the Rate of Interest cannot be determined in accordance with the foregoing provisions of this paragraph, the Rate of Interest shall be determined as at the last preceding Interest Determination Date (though substituting, where a different Margin is to be applied to the relevant Interest Accrual Period from that which applied to the last preceding Interest Accrual Period, the Margin relating to the relevant Interest Accrual Period in place of the Margin relating to that last preceding Interest Accrual Period).

(c) Determination of Rate of Interest and calculation of Interest Amounts

- (i) The Calculation Agent will at or as soon as practicable after each time at which the Rate of Interest is to be determined, determine the Rate of Interest for the relevant Interest Accrual Period.
- (ii) Following such determination of the Rate of Interest, the Calculation Agent will determine the Applicable Rate of Interest for the relevant Interest Accrual Period as follows:

**Applicable Rate of Interest** = (Rate of Interest x Universal Leverage)

where:

**Universal Leverage** means the percentage or number specified as such in the applicable Final Terms or, if no such percentage or number is specified in the applicable Final Terms or specified to be not applicable, the Universal Leverage shall be deemed to be one (1). For the avoidance of

doubt, the Universal Leverage may have a positive or a negative value, and in the case of a number, may be one (1).

(iii) The Calculation Agent will calculate the amount of interest (the **Interest Amount**) payable on the Floating Rate Notes for the relevant Interest Accrual Period by applying the Applicable Rate of Interest to:

(A) in the case of Floating Rate Notes which are represented by a Global Note, either (I) the aggregate outstanding nominal amount of the Notes represented by such Global Note or (II) the nominal amount represented by the Specified Denomination (or, if more than one, the lowest Specified Denomination), all as provided in the applicable Final Terms;

(B) in the case of Floating Rate Notes in definitive form, the Calculation Amount, or

and, in each case, multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure in accordance with General Condition 4.6 (*Rounding*). Where the Specified Denomination of a Floating Rate Note in definitive form is a multiple of the Calculation Amount, the Interest Amount payable in respect of such Note shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination, without any further rounding.

(d) Notification of Applicable Rate of Interest and Interest Amounts

(i) The Calculation Agent shall notify the Principal Paying Agent of the Applicable Rate of Interest and Interest Amounts for the relevant Interest Accrual Period as soon as practicable after calculating the same.

(ii) The Principal Paying Agent will cause the Applicable Rate of Interest and each Interest Amount for each Interest Accrual Period and the relevant Interest Payment Date to be notified to the Issuer and any stock exchange on which the relevant Floating Rate Notes are for the time being listed and notice thereof to be published in accordance with General Condition 14 (*Notices*) as soon as possible after their determination but in no event later than the first Luxembourg Business Day thereafter. Each Interest Amount and Interest Payment Date so notified may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without prior notice in the event of an extension or shortening of the Interest Accrual Period. Any such amendment will be promptly notified to each stock exchange on which the relevant Floating Rate Notes are for the time being listed and to the Noteholders in accordance with General Condition 14 (*Notices*). For the purposes of this General Condition 4.2(d), the expression **Luxembourg Business Day** means a day (other than a Saturday or a Sunday) on which banks and foreign exchange markets are open for business in Luxembourg.

(e) FRS Additional Disruption Events

The provisions of this General Condition 4.2(e) apply to Floating Rate Notes only.

(i) Consequences of the occurrence of a FRS Additional Disruption Event

If a FRS Additional Disruption Event occurs, the Issuer in its sole and absolute discretion may take the action, if applicable, described in (A) or (B) below:

(A) require the Calculation Agent to determine in its sole and absolute discretion the appropriate adjustment, if any, to be made to the Conditions to account for the FRS Additional Disruption Event and determine the effective date of such adjustment; or

(B) upon giving notice to the Noteholders in accordance with General Condition 14 (*Notices*), redeem all but not some only of the Notes, each Note being redeemed by payment of an amount equal to the Fair Market Value Redemption Amount, where

payments will be made in such manner as shall be notified to the Noteholders in accordance with General Condition 14 (*Notices*).

Upon the occurrence of a FRS Additional Disruption Event, the Issuer shall give notice as soon as practicable to the Noteholders in accordance with General Condition 14 (*Notices*) stating the occurrence of the FRS Additional Disruption Event, giving details thereof and the action proposed to be taken in relation thereto.

(ii) Definitions

**Change in Law** means, unless Change in Law is specified as not applicable in the applicable Final Terms, that, on or after the Trade Date, (A) due to the adoption of or any change in any applicable law or regulation (including, without limitation, any tax law), or (B) due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority), the Issuer determines in its sole and absolute discretion that it has become illegal to hold, acquire or dispose of relevant hedge positions relating to the floating element of the Interest Rate.

**FRS Additional Disruption Event** means any of Change in Law, Hedging Disruption and/or Increased Cost of Hedging, in each case unless disapplied in the applicable Final Terms.

**Hedging Disruption** means, unless Hedging Disruption is specified as not applicable in the applicable Final Terms, that:

- (a) the Issuer and/or any of its Affiliates is unable, after using commercially reasonable efforts, to (I) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge any relevant price risk including but not limited to the currency risk of the Issuer in issuing and performing its obligations with respect to the Notes, or (II) freely realise, recover, remit, receive, repatriate or transfer the proceeds of any such transaction(s) or asset(s).

**Increased Cost of Hedging** means, unless Increased Cost of Hedging is specified as not applicable in the applicable Final Terms, that the Issuer and/or any of its Affiliates would incur a materially increased (as compared with circumstances existing on the Trade Date) amount of tax, duty, expense or fee (other than brokerage commissions) to (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the market risk (including, without limitation, equity price risk, foreign exchange risk and interest rate risk) of the Issuer in issuing and performing its obligations with respect to the Notes, or (b) realise, recover or remit the proceeds of any such transaction(s) or asset(s), provided that any such materially increased amount that is incurred solely due to the deterioration of the creditworthiness of the Issuer and/or any of its Affiliates shall not be deemed an Increased Cost of Hedging.

(f) Other Events

This Condition will apply to the Floating Rate Notes unless specified as being not applicable in the applicable Final Terms. Notwithstanding the foregoing provisions of this General Condition 4.2, if any other event occurs which the Calculation Agent determines, acting in good faith, has a material effect on the Notes, then:

- (i) the Calculation Agent may make such adjustments to any of the Conditions as it considers appropriate to account for any such event and determine the date(s) on which any such adjustments will be effective; or
- (ii) the Issuer may, upon giving notice to the Noteholders in accordance with General Condition 14 (*Notices*), redeem all but not some only of the Notes, each Note being redeemed by payment of

an amount equal to the Fair Market Value Redemption Amount. Payments will be made in such manner as shall be notified to the Noteholders in accordance with General Condition 14 (*Notices*).

Upon the Calculation Agent making a determination pursuant to this General Condition 4.2(f), the Issuer shall give notice as soon as practicable to Noteholders in accordance with General Condition 14 (*Notices*) giving details of such determination.

#### 4.3 Interest on Linked Interest Notes

##### (a) Interest Payment Dates

If:

- (i) "All Interest Accrual Periods" is specified in the applicable Final Terms, each Linked Interest Note bears interest at the applicable Linked Interest Rate (as defined in General Condition 4.3(b) (*Linked Interest Rate*)) on its outstanding nominal amount from (and including) the Interest Commencement Date to (but excluding) the Redemption Date; or
- (ii) certain Interest Accrual Periods (other than All Interest Accrual Periods) are specified in the applicable Final Terms, each Linked Interest Note bears interest from (and including) the first day of the first Interest Accrual Period so specified in the applicable Final Terms to (and including) the last day of the last Interest Accrual Period so specified in the applicable Final Terms at the applicable Linked Interest Rate. For the avoidance of doubt, any references in this General Condition 4.3 to Interest Accrual Period will be deemed to be references only to such specified Interest Accrual Periods.

In each case, interest will accrue on a daily basis on each day during each relevant Interest Accrual Period and such interest will be payable in respect of the relevant Interest Accrual Period in arrears on the relevant Interest Payment Date.

##### (b) Linked Interest Rate

The rate payable from time to time in respect of the applicable Linked Interest Notes (each a **Linked Interest Rate**) will be determined in accordance with the relevant Terms and Conditions, as specified in the applicable Final Terms.

##### (c) Determination of Linked Interest Rate and calculation of Interest Amounts

- (i) The Calculation Agent will determine the Linked Interest Rate on the Interest Determination Date for the relevant Interest Accrual Period.
- (ii) Following such determination of the Linked Interest Rate, the Calculation Agent will determine the Applicable Linked Interest Rate for the relevant Interest Accrual Period as follows:

**Applicable Linked Interest Rate** = (Linked Interest Rate x Universal Leverage) + Universal Margin

where:

**Universal Leverage** means the percentage or number specified as such in the applicable Final Terms or, if no such percentage or number is specified in the applicable Final Terms or specified to be not applicable, the Universal Leverage shall be deemed to be one (1). For the avoidance of doubt, the Universal Leverage may have a positive or a negative value, and in the case of a number, may be one (1).

**Universal Margin** means (a) a percentage, (b) a number or (c) a Universal Floating Rate (plus or minus the Universal Offset), each specified in the applicable Final Terms, or, if no such percentage, number or rate is specified in the applicable Final Terms or is specified to be not applicable, the Universal Margin shall be deemed to be zero (0). For the avoidance of doubt,

Universal Margin may have a positive or negative value, and in the case of a number, may be zero (0).

**Universal Floating Rate** means an interest rate specified as such in the applicable Final Terms and calculated in respect of an Interest Accrual Period in accordance with General Condition 4.2(b) above as if such interest rate was the Rate of Interest applicable to the Notes.

**Universal Offset** means a percentage specified as such in the applicable Final Terms or, if no such percentage is specified in the applicable Final Terms or is specified to be not applicable, the Universal Offset shall be deemed to be zero (0).

- (iii) The Calculation Agent will calculate the amount of interest (the **Interest Amount**) payable on the Linked Interest Notes for the relevant Interest Accrual Period by multiplying the Applicable Linked Interest Rate by:
  - (A) in the case of Linked Interest Notes which are represented by a Global Note (other than where General Condition 4.3(c)(iii)(C) below applies), either (i) the aggregate outstanding nominal amount of the Notes represented by such Global Note or (ii) the nominal amount represented by the Specified Denomination (or, if more than one, the lowest Specified Denomination), all as provided in the applicable Final Terms;
  - (B) in the case of a Linked Interest Note in definitive form, the Calculation Amount (other than where General Condition 4.3(c)(iii)(C) below applies); or
  - (C) in the case of a Linked Interest Note where the relevant Linked Interest Rate is determined in whole or in part by reference to the Share Linked Asset Conditions, the Index Linked Asset Conditions or the ETF Linked Asset Conditions, the Specified Denomination of the relevant Linked Interest Note,

and, in each case, multiplying such product by the applicable Day Count Fraction, and rounding the resultant figure in accordance with General Condition 4.6 (*Rounding*). In the case of General Condition 4.3(c)(iii)(C) above, where the Specified Denomination of a Linked Interest Note in definitive form is a multiple of the Calculation Amount, the Interest Amount payable in respect of such Note shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach such Specified Denomination, without any further rounding.

- (d) Notification of Applicable Linked Interest Rate and Interest Amounts
  - (i) The Calculation Agent shall notify the Principal Paying Agent of the Applicable Linked Interest Rate and Interest Amounts for the relevant Interest Accrual Period as soon as practicable after calculating the same.
  - (ii) The Principal Paying Agent will cause the Applicable Linked Interest Rate and each Interest Amount for each Interest Accrual Period and the relevant Interest Payment Date to be notified to the Issuer and any stock exchange on which the relevant Linked Interest Notes are for the time being listed and notice thereof to be published in accordance with General Condition 14 (*Notices*) as soon as possible after the day on which the notice was given to the Principal Paying Agent but in no event later than the fourth Luxembourg Business Day thereafter. For the purposes of this General Condition 4.3(d), the expression **Luxembourg Business Day** means a day (other than a Saturday or a Sunday) on which banks and foreign exchange markets are open for business in Luxembourg.

#### 4.4 **Interest on Zero Coupon Notes**

No amount of interest will accrue or become payable on Zero Coupon Notes.

#### 4.5 **Margin, Minimum Rate of Interest and Maximum Rate of Interest**

- (a) With respect to Floating Rate Notes only, if any Margin is specified in the applicable Final Terms (either (i) generally, or (ii) in relation to one or more Interest Accrual Periods), an adjustment shall be made to all Applicable Rates of Interest, in the case of (i), or the Applicable Rates of Interest for the specified Interest Accrual Periods, in the case of (ii), by adding (if a positive number) or subtracting the absolute value (if a negative number) of such Margin.
- (b) With respect to Floating Rate Notes only, if the applicable Final Terms specify a Minimum Rate of Interest for any Interest Accrual Period, then, in the event that the Applicable Rate of Interest in respect of such Interest Accrual Period determined in accordance with General Condition 4.2 (*Interest on Floating Rate Notes*) is less than such Minimum Rate of Interest, the Applicable Rate of Interest for such Interest Accrual Period shall be such Minimum Rate of Interest.
- (c) With respect to Floating Rate Notes only, if the applicable Final Terms specify a Maximum Rate of Interest for any Interest Accrual Period, then, in the event that the Applicable Rate of Interest in respect of such Interest Accrual Period determined in accordance with General Condition 4.2 (*Interest on Floating Rate Notes*) is greater than such Maximum Rate of Interest, the Applicable Rate of Interest for such Interest Accrual Period shall be such Maximum Rate of Interest.
- (d) With respect to all Notes, unless otherwise stated in the applicable Final Terms with respect to Floating Rate Notes, the Minimum Rate of Interest, shall be deemed to be zero.

#### 4.6 **Rounding**

For the purposes of any calculations required pursuant to these General Conditions (unless otherwise specified), (a) all percentages resulting from such calculations shall be rounded, if necessary, to the nearest one hundred-thousandth of a percentage point (with 0.000005 of a percentage point being rounded up), (b) all figures shall be rounded to seven significant figures (provided that if the eighth significant figure is a 5 or greater, the seventh significant shall be rounded up) and (c) all currency amounts that fall due and payable shall be rounded to the nearest unit of such currency (with half a unit being rounded up). For these purposes "unit" means the lowest amount of such currency that is available as legal tender in the country of such currency.

#### 4.7 **Cessation of Accrual of Interest**

- (a) Except as otherwise provided in this General Condition 4 (Interest), each Note (or in the case of the redemption of part only of a Note, that part only of such Note) will cease to bear interest (if any) from the date for its redemption unless, upon due presentation thereof, payment of nominal is improperly withheld or refused. In such event, interest will continue to accrue as from the date for its redemption, until whichever is the earlier of:
  - (i) the date on which all amounts due in respect of such Note have been paid; and
  - (ii) five (5) days after the date on which the full amount of the moneys payable in respect of such Note has been received by the Principal Paying Agent and notice to that effect has been given to the Noteholders in accordance with General Condition 14 (*Notices*).

#### 4.8 **Payoff Features**

The interest payable in respect of each Note will be subject to each Payoff Feature (if any) specified as applicable in the applicable Final Terms. A Payoff Feature will apply to: (a) all Interest Accrual Periods if "All Interest Accrual Periods" is specified to apply in the applicable Final Terms; or (b) to certain Interest Accrual Periods as specified in the applicable Final Terms in respect of a Payoff Feature.

#### 4.9 **Interpolation**

In respect of any Interest Accrual Period to which "Linear Interpolation" is specified as being applicable in the applicable Final Terms, the Rate of Interest or Linked Interest Rate, as the case may be, for that Interest Accrual Period shall be determined by the Calculation Agent, in its sole and absolute discretion, through the use of straight-line interpolation by reference to two rates based on the relevant Rate of Interest or Linked Interest Rate, as the case

may be, one of which shall be determined as if the designated maturity of that rate were the period of time for which rates are next shorter than the length of the Interest Accrual Period and the other of which shall be determined as if the designated maturity of that rate were the period of time for which rates are next longer than the length of the Interest Accrual Period.

#### 4.10 Negative Interest

Unless otherwise specified in the applicable Final Terms, where an amount or rate of interest is calculated as, in accordance with this General Condition 4 and any applicable Additional Conditions, a negative amount or rate, as the case may be, such amount or rate shall be deemed to be zero. Noteholders shall not, in such circumstances be required to make any payment to the Issuer in respect of such negative amount or rate nor shall any other payments then or in the future due in respect of the Notes be adjusted in respect of such negative amount or rate, except where, in certain circumstances, specifically provided in the applicable Final Terms whereby the Final Redemption Amount, Instalment Redemption Amount or Early Redemption Amount, as the case may be, may be reduced by applying a negative amount (or rate) thereto, all as provided in the applicable Final Terms, it being specified that in no event the Final Redemption Amount, Instalment Redemption Amount or Early Redemption Amount, as the case may be, shall be less than zero.

#### 4.11 Interest in respect of Instalment Notes

The Interest Amount in respect of any Instalment Note shall be calculated by the Principal Paying Agent in accordance with the applicable provisions of this General Condition 4 by reference to the outstanding nominal amount of such Note on the date of determination (disregarding any payments in respect of nominal to be made on the date of determination).

### 5. PAYMENTS

#### 5.1 Method of payment

- (a) Subject as provided below:
- (i) payments in a Specified Currency other than euro will be made by credit or transfer to an account in the relevant Specified Currency (which, in the case of a payment in Japanese yen to a non-resident of Japan, shall be a non-resident account) maintained by the payee with, or, at the option of the payee, by a cheque in such Specified Currency drawn on, a bank in the principal financial centre of the country of such Specified Currency; and
  - (ii) payments in euro will be made by credit or transfer to a euro account (or any other account to which euro may be credited or transferred) specified by the payee or, at the option of the payee, by a euro cheque.
- (b) Payments will be subject in all cases to (i) any fiscal or other laws and regulations applicable thereto in the place of payment or other laws to which the Issuer or its Agents agree to be subject and the Issuer will be liable for any taxes or duties of whatever nature imposed or levied by such laws, regulations, directives or agreements, but without prejudice to the provisions of General Condition 8 (*Taxation*) and (ii) when applicable, any withholding or deduction required pursuant to Section 871(m) of the U.S. Internal Revenue Code of 1986 (the **Code** and such withholding, **871(m) Withholding**). In addition, in determining the amount of 871(m) Withholding imposed with respect to any amounts to be paid on the Notes, the Issuer shall be entitled to withhold on any "dividend equivalent" (as defined for purposes of Section 871(m) of the Code) at the highest rate applicable to such payments regardless of any exemption from, or reduction in, such withholding otherwise available under applicable law.
- (c) Payments on the Notes that reference U.S. securities or an index that includes U.S. securities may be calculated by reference to dividends on such U.S. securities that are reinvested at a rate of 70%. In such case, in calculating the relevant payment amount, the holder will be deemed to receive, and the Issuer will be deemed to withhold, 30% of any dividend equivalent payments (as defined in Section 871(m) of the Code) in respect of the relevant U.S. securities. The Issuer will not pay any additional amounts to the holder on account of the Section 871(m) amount deemed withheld.

## 5.2 Presentation of Definitive Notes, Receipts and Coupons

- (a) Payments of nominal in respect of Definitive Notes will (subject as provided below) be made in the manner provided in General Condition 5.1 (*Method of payment*) only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of Definitive Notes, and payments of interest in respect of Definitive Notes will (subject as provided below) be made as aforesaid only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of Coupons, in each case at the specified office of any Paying Agent outside the United States (which expression, as used herein, means the United States of America (including the States and the District of Columbia and its possessions)).
- (b) Payments of instalments of nominal (if any) in respect of Definitive Notes, other than the final instalment, will (subject as provided below) be made in the manner provided in General Condition 5.1 (*Method of payment*) only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of the relevant Receipt in accordance with the preceding paragraph. Payment of the final instalment will be made in the manner provided in General Condition 5.1 (*Method of payment*) only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of the relevant Note in accordance with the preceding paragraph. Each Receipt must be presented for payment of the relevant instalment together with the Definitive Note to which it appertains. Receipts presented without the Definitive Note to which they appertain do not constitute valid obligations of the Issuer. Upon the date on which any Definitive Note becomes due and repayable, unmatured Receipts (if any) relating thereto (whether or not attached) shall become void and no payment shall be made in respect thereof.
- (c) Fixed Rate Notes in definitive bearer form (other than Long Maturity Notes (as defined below)) should be presented for payment together with all unmatured Coupons appertaining thereto (which expression shall for this purpose include Coupons falling to be issued on exchange of matured Talons), failing which the amount of any missing unmatured Coupon (or, in the case of payment not being made in full, the same proportion of the amount of such missing unmatured Coupon as the sum so paid bears to the sum due) will be deducted from the sum due for payment. Each amount of nominal so deducted will be paid in the manner mentioned above against surrender of the relative missing Coupon at any time before the expiry of 10 years after the Relevant Date (as defined in General Condition 8.2 (*Gross Up*)) in respect of such nominal (whether or not such Coupon would otherwise have become void under General Condition 9 (*Prescription*)) or, if later, five (5) years from the date on which such Coupon would otherwise have become due, but in no event thereafter.
- (d) Upon any Fixed Rate Note in definitive bearer form becoming due and repayable prior to its Redemption Date, all unmatured Talons (if any) appertaining thereto will become void and no further Coupons will be issued in respect thereof.
- (e) Upon the date on which any Floating Rate Note, Linked Interest Note or Long Maturity Note in definitive form becomes due and repayable, unmatured Coupons and Talons (if any) relating thereto (whether or not attached) shall become void and no payment or, as the case may be, exchange for further Coupons shall be made in respect thereof. A **Long Maturity Note** is a Fixed Rate Note (other than a Fixed Rate Note which on issue had a Talon attached) whose nominal amount on issue is less than the aggregate interest payable thereon provided that such Note shall cease to be a Long Maturity Note on the Interest Payment Date on which the aggregate amount of interest remaining to be paid after that date is less than the nominal amount of such Note.
- (f) If the due date for redemption of any Definitive Note is not an Interest Payment Date, interest (if any) accrued in respect of such Note from (and including) the preceding or Interest Payment Date or, as the case may be, the Interest Commencement Date shall be payable only against surrender of the relevant Definitive Note.

## 5.3 Payments in respect of Bearer Global Notes

Payments of nominal and interest (if any) in respect of Notes represented by any Global Note in bearer form will (subject as provided below) be made in the manner specified above in relation to Notes or otherwise in the manner specified in the relevant Global Note against presentation or surrender, as the case may be, of such Global Note at

the specified office of any Paying Agent outside the United States. A record of each payment, distinguishing between any payment of nominal and any payment of interest, will be made on such Global Note either by the Paying Agent to which it was presented or in the records of Euroclear and Clearstream, Luxembourg, as applicable.

#### 5.4 General provisions applicable to payments

- (a) The holder of a Global Note shall be the only person entitled to receive payments in respect of Notes represented by such Global Note and the Issuer will be discharged by payment to, or to the order of, the holder of such Global Note in respect of each amount so paid. Each of the persons shown in the records of Euroclear, Clearstream, Luxembourg or any Relevant Clearing System as the beneficial holder of a particular nominal amount of Notes represented by such Global Note must look solely to Euroclear or Clearstream, Luxembourg, as the case may be, for its share of each payment so made by the Issuer to, or to the order of, the holder of such Global Note.
- (b) Notwithstanding the foregoing provisions of this General Condition 5, if any amount of nominal and/or interest in respect of Notes is payable in U.S. dollars, such U.S. dollar payments of nominal and/or interest in respect of such Notes will be made at the specified office of a Paying Agent in the United States if:
  - (i) the Issuer has appointed Paying Agents with specified offices outside the United States with the reasonable expectation that such Paying Agents would be able to make payment in U.S. dollars at such specified offices outside the United States of the full amount of nominal and interest on the Notes in the manner provided above when due;
  - (ii) payment of the full amount of such nominal and interest at all such specified offices outside the United States is illegal or effectively precluded by exchange controls or other similar restrictions on the full payment or receipt of nominal and interest in U.S. dollars; and
  - (iii) such payment is then permitted under United States law without involving, in the opinion of the Issuer, adverse tax consequences to the Issuer.

#### 5.5 Payment Business Day

- (a) If the date for payment of any amount in respect of any Note, Receipt or Coupon is not a Payment Business Day, the holder thereof shall instead be entitled to payment: (i) on the next following Payment Business Day in the relevant place, if "Following Payment Business Day" is specified in the applicable Final Terms; or (ii) on the next following Payment Business Day in the relevant place, unless the date for payment would thereby fall into the next calendar month, in which event such date for payment shall be brought forward to the immediately preceding Payment Business Day in the relevant place, if "Modified Following Payment Business Day" is specified in the applicable Final Terms or (iii) on the immediately preceding Payment Business Day in the relevant place, if "Preceding Payment Business Day" is specified in the applicable Final Terms; provided that if neither "Following Payment Business Day" nor "Modified Following Payment Business Day" nor "Preceding Payment Business Day" is specified in the applicable Final Terms, "Following Payment Business Day" shall be deemed to apply. In the event that (A) any adjustment is made to the date for payment in accordance with this General Condition 5 and (B) "Adjustment of Interest Accrual Periods" is specified as being "Not Applicable" in the applicable Final Terms, the relevant amount due in respect of any Note, Receipt or Coupon shall not be affected by any such adjustment. For these purposes, **Payment Business Day** means any day, which is:
  - (i) subject to the provisions of the Agency Agreement, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in:
    - (A) (in respect of Definitive Notes) the relevant place of presentation; and
    - (B) each Additional Financial Centre specified in the applicable Final Terms; and
  - (ii) either (A) in relation to any sum payable in a Specified Currency other than euro, a day on which commercial banks and foreign exchange markets settle payments and are open for general

business (including dealing in foreign exchange and foreign currency deposits) in the principal financial centre of the country of the relevant Specified Currency (if other than the place of presentation and any Additional Financial Centre and which if the Specified Currency is Australian dollars or New Zealand dollars, shall be Sydney or Auckland respectively) or (B) in relation to any sum payable in euro, a day on which the T2 is open.

- (b) If the date specified for a payment of any amount in respect of any Note, Receipt or Coupon falls on a day in a month which does not exist (including, without limitation, when such payment is scheduled to be paid on 29 February in a year when that day does not occur), the holder of such Note, Receipt or Coupon shall instead be entitled to payment on the immediately preceding Payment Business Day in the relevant place.

## 5.6 Payment in case of Currency Unavailability

This Condition shall apply when payment is due to be made in respect of any Note in the Specified Currency and the Issuer is or will be unable to (or it is or will become impracticable for it to) make such payment in the Specified Currency due to circumstances beyond its reasonable control including, without limitation, any (i) sanctions or exchange controls imposed by any relevant governmental authority, or (ii) restrictions or controls applicable to the Issuer, any Agent, the Principal Paying Agent, Relevant Clearing System, or any of their account banks, which would in each case prevent or make impracticable transfers in the Specified Currency from the Issuer to the Noteholder(s) (a **Currency Unavailability Event**).

In the event that the Issuer or Calculation Agent determines that a Currency Unavailability Event has occurred with respect to any particular scheduled payment or payments due by the Issuer to the Noteholder(s) (the **Affected Payment(s)**), the Issuer will be entitled to satisfy its obligations by making any Affected Payment in the Substitution Currency on the basis of the spot exchange rate at which the applicable amount of the Specified Currency is offered in exchange for the Substitution Currency in an appropriate inter-bank market at the time and date determined by the Calculation Agent by reference to such screen rates or other quotations as the Calculation Agent deems appropriate (the **Spot Exchange Rate**). Any Affected Payment made in the Substitution Currency in accordance with this Condition will not constitute a breach of the Issuer's obligations under the Notes or any other Event of Default.

If a Currency Unavailability Event occurs, then any reference to the "Specified Currency" shall be deemed to be a reference to the Substitution Currency with respect to the particular Affected Payments.

No later than four (4) Business Days prior to the day such amount is scheduled to be paid in the Substitution Currency, or, as soon as reasonably practicable, if a Currency Unavailability Event occurs within such a period of four (4) Business Days, the Issuer will send a notice (an **Affected Payment Notice**) to the Noteholder(s) (copied to the Calculation Agent, the Principal Paying Agent) of (i) the determination that a Currency Unavailability Event has occurred and (ii) the Substitution Currency in which the relevant Affected Payment will be made. The Issuer will thereafter send as soon as reasonably practical to the Noteholder(s) (copied to the Calculation Agent, the Principal Paying Agent) a notice specifying the applicable Spot Exchange Rate. The relevant Affected Payments will be paid in the Substitution Currency whether or not the Currency Unavailability Event exists or is continuing after the relevant Affected Payment Notice has been sent to the Noteholder(s); provided however, that unless a further Affected Payment Notice has been sent in respect of future payments subject to a Currency Unavailability Event, such future payments will be paid in the original contractual currency.

For the purposes of this Condition, any determination by the Issuer or Calculation Agent shall be made in good faith and a commercially reasonable manner, and shall be binding on all parties.

## 5.7 General

None of the Calculation Agent, the Issuer, any Dealer or any Agent shall have any responsibility for any errors or omissions in the calculation of any Early Redemption Amount, the Final Redemption Amount, or Instalment Redemption Amount, as the case may be, or other amount whatsoever.

## 5.8 Interpretation

Any reference in these Terms and Conditions to nominal in respect of the Notes shall, to the extent permitted by applicable law, be deemed to include, as applicable:

- (a) any additional amounts which may be payable with respect to nominal under General Condition 8 (*Taxation*), if applicable;
- (b) the Final Redemption Amount of the Notes;
- (c) the Early Redemption Amount of the Notes;
- (d) the Fair Market Value Redemption Amount of the Notes;
- (e) in relation to Notes redeemable in instalments, the Instalment Redemption Amounts; and
- (f) any premium and any other amounts (other than interest) which may be payable by the Issuer under or in respect of the Notes.

Any reference in these Terms and Conditions to interest in respect of the Notes shall be deemed to include, as applicable, any additional amounts which may be payable with respect to interest under General Condition 8 (*Taxation*).

Any reference in these Terms and Conditions to "payment", "repayment" and "redemption" and other related expressions (including, without limitation, for the purposes of the definition of "Payment Business Day" in General Condition 5.5 (*Payment Business Day*)) shall, where the context admits, include the delivery of any securities or other assets pursuant to physical settlement as provided in Annex 1 (*Asset Conditions*) in respect of ETF Linked Notes or Share Linked Notes.

## 6. REDEMPTION AND PURCHASE

### 6.1 Redemption by Instalments and Final Redemption

Unless previously redeemed or purchased and cancelled as provided in this General Condition 6 (other than pursuant to General Condition 6.9) and subject to Condition 6.13:

- (a) on each Instalment Date, each Instalment Note shall be partially redeemed by the Issuer at the relevant Instalment Redemption Amount; and
- (b) each Note will be finally redeemed by the Issuer at its Final Redemption Amount specified in the applicable Final Terms and determined in accordance with the provisions set out in Annex 6 (*Redemption Method Conditions*) in the relevant Specified Currency on the Redemption Date or, in the case of an Instalment Note falling within paragraph (a) above, its final Instalment Redemption Amount on the final Instalment Date, in each case subject to any provision to the contrary in the Additional Conditions.

### 6.2 Early Redemption Trigger Events

The applicable Final Terms will specify whether any Early Redemption Trigger Event applies to the Notes. The provisions detailing such Early Redemption Trigger Events are set out in Annex 5 (*Early Redemption Trigger Conditions*).

The Early Redemption Amount payable in respect of Notes to which an Early Redemption Trigger Event applies shall be determined by the Calculation Agent in accordance with the provisions of Annex 6 (*Redemption Method Conditions*).

### 6.3 Redemption for tax reasons

Where General Condition 8.2 (*Gross Up*) is specified in the applicable Final Terms as applying to the Notes, such Notes may be redeemed at the option of the Issuer in whole, but not in part, at any time, on giving not less than the minimum period nor more than the maximum period of notice specified in the applicable Final Terms to the

Principal Paying Agent and, in accordance with General Condition 14 (*Notices*), the Noteholders (which notice shall be irrevocable), if:

- (a) on the occasion of the next payment due under the Notes, the Issuer has or will become obliged to pay additional amounts as provided or referred to in General Condition 8 (*Taxation*) as a result of any change in, or amendment to, the laws or regulations of a Tax Jurisdiction (as defined in General Condition 8.2 (*Gross Up*)), or any change in the application or official interpretation of such laws or regulations, which change or amendment becomes effective on or after the date on which agreement is reached to issue the first Tranche of the Notes; and
- (b) such obligation cannot be avoided by the Issuer taking reasonable measures available to it,

provided that no such notice of redemption shall be given earlier than 90 days prior to the earliest date on which the Issuer would be obliged to pay such additional amounts.

Notes redeemed pursuant to this General Condition 6.3 will be redeemed at their Fair Market Value Redemption Amount.

#### 6.4 **Special Tax Redemption**

Where General Condition 8.2 (*Gross Up*) is specified in the applicable Final Terms as applying to the Notes, if the Issuer would, on the occasion of the next payment of nominal or interest in respect of the Notes, be prevented by French law from making payment to the Noteholders of the full amount then due and payable, notwithstanding the undertaking to pay additional amounts contained in General Condition 8 (*Taxation*), then the Issuer shall forthwith give notice of such fact to the Principal Paying Agent and the Issuer shall, upon giving not more than seven days' prior notice to the Noteholders, forthwith redeem all, but not some only, of the Notes at their Fair Market Value Redemption Amount, on the latest practicable Interest Payment Date on which the Issuer could make payment of the full amount then due and payable in respect of the Notes, provided that if such notice would expire after such Interest Payment Date the date for redemption pursuant to such notice to Noteholders shall be the later of:

- (a) the latest practicable date on which the Issuer could make payment of the full amount then due and payable in respect of the Notes; and
- (b) fourteen days after giving notice to the Principal Paying Agent as aforesaid.

#### 6.5 **Redemption for FATCA Withholding**

- (a) This General Condition 6.5 will apply to the Notes if so specified in the applicable Final Terms. The Issuer may or will redeem any FATCA Affected Notes, at any time, in accordance with the provisions of this General Condition 6.5.
- (b) Upon becoming aware that a Note is a FATCA Affected Note, the Issuer shall use reasonable endeavours to deliver a FATCA Issuer Notice, which shall specify
  - (i) the relevant series number and ISIN in relation to Notes that have become FATCA Affected Notes;
  - (ii) whether or not the Issuer will redeem any of the FATCA Affected Notes; and
  - (iii) where the Issuer elects to redeem any of the FATCA Affected Notes,
    - (A) the FATCA Affected Notes the Issuer will redeem;
    - (B) and
    - (C) the date on which such FATCA Affected Notes will be redeemed by the Issuer.
- (c) Where the FATCA Issuer Notice specifies that the Issuer will not redeem a FATCA Affected Note, the holder of any such FATCA Affected Note, provided that such Note continues to be a FATCA Affected

Note, may deliver a FATCA Investor Notice requesting the early redemption of the FATCA Affected Note and specifying a date for redemption that must be at least ten (10) Business Days after the effective date of such notice. Following receipt of the FATCA Investor Notice, the Issuer will redeem such FATCA Affected Note on the date specified for redemption in the relevant FATCA Investor Notice.

- (d) Notes redeemed pursuant to this General Condition 6.5 will be redeemed at their Fair Market Value Redemption Amount.
- (e) For the purposes of this General Condition:

**Code** means the U.S. Internal Revenue Code of 1986, as amended.

**FATCA Affected Note** means any Note in respect of which (i) the Issuer, in relation to any future payments due under the Notes, will be obliged (either directly or indirectly, including without limitation through an agent or clearing system) to make a FATCA Withholding and (ii) such FATCA Withholding cannot be avoided by the Issuer taking reasonable measures available to it.

**FATCA Investor Notice** means a notice given by the holder of any FATCA Affected Note to the Issuer in accordance with General Condition 14 (*Notices*). A copy of such FATCA Investor Notice shall be given to the Principal Paying Agent in accordance with General Condition 14 (*Notices*) (which notice shall be irrevocable and shall specify a bank account (or, if payment is required to be made by cheque, an address) to which payment is to be made under this General Condition 6.5).

**FATCA Issuer Notice** means a notice given by the Issuer to the Principal Paying Agent and in accordance with General Condition 14 (*Notices*), to the Noteholders.

**FATCA Withholding** means any withholding or deduction required pursuant to an agreement described in Section 1471(b) of the Code or any withholding or deduction otherwise imposed pursuant to Sections 1471 through 1474 of the Code, or any fiscal or regulatory legislation, rules or practices adopted pursuant to any intergovernmental agreement entered into in connection with the implementation of such sections of the Code.

## 6.6 Clean-up Call Option

Where General Condition 6.6 (*Clean-up Call Option*) is specified in the applicable Final Terms as applying to the Notes, such Notes may be redeemed at the option of the Issuer in whole, but not in part, at any time, on giving not less than the minimum period and not more than the maximum period of notice specified in the applicable Final Terms to the Principal Paying Agent, as the case may be, and, in accordance with General Condition 14 (*Notices*), to the Noteholders (which notice shall be irrevocable), if the aggregate nominal amount outstanding of the Notes is equal to 10 per cent. or less than the aggregate nominal amount of the Notes on the Issue Date, as determined by the Calculation Agent in its sole and absolute discretion.

Notes redeemed pursuant to this General Condition 6.6 will be redeemed at their Fair Market Value Redemption Amount.

## 6.7 Redemption Amounts

- (a) Where the Notes are to be redeemed prior to the Redemption Date at their Fair Market Value Redemption Amount pursuant to the Conditions, including, without limitation, pursuant to General Condition 6.3 (*Redemption for tax reasons*), General Condition 6.4 (*Special Tax Redemption*), General Condition 6.5 (*Redemption for FATCA Withholding*), General Condition 6.6 (*Clean-up Call Option*), General Condition 10 (*Events of Default*) or General Condition 18 (*Illegality and Force Majeure*), each Note will be redeemed at the Fair Market Value Redemption Amount. Notes may also be redeemed at the Fair Market Value Redemption Amount in any other circumstances set out in the applicable Additional Conditions.
- (b) The **Fair Market Value Redemption Amount** shall be determined by the Calculation Agent in its sole and absolute discretion as equal to the fair market value of the Note as at (or about) the date fixed for redemption, taking into account, without limitation and without double counting, where "Hedge Amount"

is specified in the applicable Final Terms as being applicable, the deduction of the Hedge Amount, provided that:

- (i) this determination shall disregard the financial condition of the Issuer in case an Event of Default under Condition 10(a) or Condition 10(c), as applicable, has occurred and is continuing with respect to the Issuer;
  - (ii) if a Fair Market Value Redemption Amount has been determined for any reason other than the occurrence of an Event of Default under Condition 10(a) or Condition 10(c), as applicable (the **Pre-Default FMVRA**) and is unpaid on the date on which an Event of Default under Condition 10(a) or Condition 10(c), as applicable, occurs with respect to the Issuer (the **Post-Default FMVRA Determination Date**), then the Pre-Default FMVRA will be deemed to be equal to the Fair Market Value Redemption Amount determined as of the Post-Default FMVRA Determination Date (the **Post-Default FMVRA**) and the Post-Default FMVRA shall disregard the financial condition of the Issuer in accordance with paragraph (i) above; and
  - (iii) the Fair Market Value Redemption Amount shall not be a negative amount.
- (c) In determining the fair market value of the Note, the Calculation Agent shall take into consideration all information, which it deems relevant (including, without limitation, market conditions, and, in the case of early redemption pursuant to General Condition 18 (*Illegality and Force Majeure*), the impracticality, illegality or impossibility giving rise to the early redemption).
  - (d) The Fair Market Value Redemption Amount determined as specified above shall be determined taking into account any amounts in respect of accrued but unpaid interest and accordingly no other amount of accrued but unpaid interest will be payable where the Notes are redeemed by payment of the Fair Market Value Redemption Amount.
  - (e) In connection with any early redemption of the Notes, the **Hedge Amount** is the losses or costs (expressed as a positive number) to the Issuer or any Affiliate thereof that are incurred under then prevailing circumstances or gains (expressed as a negative number) of the Issuer or any Affiliate thereof that are realised under then prevailing circumstances in each case in unwinding any related underlying hedging arrangements entered into in respect of such Note (including, without limitation, any rate swap transaction, swap option, basis swap, forward rate transaction, commodity swap, commodity option, equity or equity index swap, interest rate option, currency transaction, asset swap transaction, credit derivative transaction or funding transaction such as but not limited to internal funding arrangement or a repurchase transaction, including any market bid/offer spread and any ancillary cost in relation to such unwinding), whether such hedging arrangement is held directly by the Issuer or indirectly through an Affiliate, provided that the determination of the Hedge Amount shall disregard the financial condition of the Issuer in case an Event of Default under Condition 10(a) or Condition 10(c), as applicable, has occurred and is continuing with respect to the Issuer.
  - (f) Notwithstanding the above, in respect of any Note for which a Fair Market Value Redemption Amount Percentage is specified in the applicable Final Terms, the Fair Market Value Redemption Amount will be an amount equal to the Principal Amount of such Note outstanding as at the date of calculation (as set out in Annex 6 of the Terms and Conditions as if the Early Redemption Amount was being calculated) or, in the case of a Zero Coupon Note, the Accreted Value, multiplied by the Fair Market Value Redemption Amount Percentage specified in the applicable Final Terms.
  - (g) Payment of such Fair Market Value Redemption Amount will be made in such manner as shall be notified to the Noteholders in accordance with General Condition 14 (*Notices*).

## 6.8 Purchases

The Issuer may at any time purchase Notes (provided that, in the case of Definitive Notes, all unmatured Receipts, Coupons and Talons appertaining thereto are purchased therewith) at any price in the open market or otherwise.

Notes purchased by or on behalf of the Issuer may, at the option of the Issuer, be so surrendered and cancelled or may be held or resold, in accordance with applicable laws and regulations.

#### 6.9 **Cancellation**

All Notes, which are purchased for cancellation or redeemed by the Issuer, will forthwith be cancelled (together with all unmatured Receipts, Coupons and Talons attached thereto or surrendered therewith at the time of redemption). All Notes so cancelled and any Notes purchased and cancelled pursuant to General Condition 6.8 (*Purchases*) (together with all unmatured Receipts, Coupons and Talons cancelled therewith) shall be forwarded to the Principal Paying Agent and cannot be reissued or resold.

#### 6.10 **Zero Coupon Notes**

If the amount payable in respect of any Zero Coupon Note upon redemption of such Zero Coupon Note pursuant to General Condition 6.1 (*Redemption by Instalments and Final Redemption*), 6.3 (*Redemption for tax reasons*), 6.4 (*Special Tax Redemption*), General Condition 6.5 (*Redemption for FATCA Withholding*), 6.6 (*Clean-up Call Option*) or upon its becoming due and repayable as provided in General Condition 10 (*Events of Default*) or General Condition 18 (*Illegality and Force Majeure*) is improperly withheld or refused, the amount due and repayable in respect of such Zero Coupon Note shall be the Fair Market Value Redemption Amount as though the references in General Condition 6.7 (*Redemption Amounts*) to the date fixed for the redemption were replaced by references to the date which is the earlier of:

- (i) the date on which all amounts due in respect of such Zero Coupon Note have been paid; and
- (ii) five (5) days after the date on which the full amount of the moneys payable in respect of such Zero Coupon Notes has been received by the Principal Paying Agent and notice to that effect has been given to the Noteholders in accordance with General Condition 14 (*Notices*).

#### 6.11 **Payoff Features**

With respect to each Note, the Early Redemption Amount, Instalment Redemption Amount or the Final Redemption Amount will be subject to the Payoff Features (if any) specified as applicable in the applicable Final Terms.

#### 6.12 **Negative Redemption Amount**

Where an Instalment Redemption Amount, Early Redemption Amount, Fair Market Value Redemption Amount, Final Redemption Amount or other relevant redemption amount is calculated or determined as, in accordance with this General Condition 6 and any applicable Additional Conditions, a negative amount, then such amount will be deemed to be zero. Noteholders will not in such circumstances be required to make any payment to the Issuer in respect of such negative amount or rate nor will any other payments then or in the future due in respect of the Notes be adjusted in respect of such negative amount.

#### 6.13 **No Event of Default**

If the Final Terms for any Notes specify that "Event of Default" is not applicable, then no Events of Default shall apply to such Notes and Noteholders will not be able to accelerate the maturity of such Notes on the basis of an Event of Default.

### 7. **ADDITIONAL CONDITIONS**

#### 7.1 **Application of the Additional Conditions**

Where any Additional Conditions are specified in the applicable Final Terms for any Notes, the General Conditions shall be subject to the provisions contained in such Additional Conditions and will not apply to the extent they are inconsistent with the provisions of such Additional Conditions. In all cases, these General Conditions and the provisions of such Additional Conditions shall be subject to the applicable Final Terms, and will not apply to the extent they are inconsistent with the provisions of such Final Terms.

## 7.2 **Product Simplification**

Where any amount payable in respect of the Notes is determined by reference to a formula set out in the Definitions Conditions or in the applicable Additional Conditions, that formula, where set out in the Final Terms applicable to the Notes, may be simplified from the form of that formula set out in the Definitions Conditions or in the applicable Additional Conditions in circumstances where an element of the formula has a value of either 0 or 1, or is not used or is not applicable for the purposes of the relevant Series of Notes, so that such element may be omitted from the relevant formula as set out in the applicable Final Terms.

## 8. **TAXATION**

### 8.1 **Taxation**

All payments of nominal and interest in respect of the Notes, Receipts and Coupons will be made without withholding or deduction for or on account of any present or future taxes or duties of whatever nature imposed or levied by or on behalf of any Tax Jurisdiction unless such withholding or deduction is required by law (a **Gross Up Event**).

### 8.2 **Gross Up**

If a Gross Up Event occurs and only if "Gross Up" is specified in the applicable Final Terms, the Issuer will, to the fullest extent permitted by French law, pay such additional amounts as shall be necessary in order that the net amounts received by the holders of the Notes, Receipts or Coupons after such withholding or deduction shall equal the respective amounts of nominal and interest which would otherwise have been receivable in respect of the Notes, Receipts or Coupons, as the case may be, in the absence of such withholding or deduction, except that no such additional amounts shall be payable with respect to any Note, Receipt or Coupon:

- (a) presented for payment in France; or
- (b) to, or to a third party on behalf of, a holder which is liable for such taxes or duties in respect of such Note, Receipt or Coupon by reason of its having some connection with a Tax Jurisdiction other than the mere holding of such Note, Receipt or Coupon; or
- (c) presented for payment by, or on behalf of, a holder who would be able to avoid such withholding or deduction by making a declaration or any other statement, including but not limited to, a declaration of residence or non-residence, but fails to do so; or
- (d) presented for payment more than 30 days after the Relevant Date (as defined below) except to the extent that the holder thereof would have been entitled to an additional amount on presenting the same for payment on such thirtieth day assuming that day to have been a Payment Business Day (as defined in General Condition 5.5 (*Payment Business Day*)); or
- (e) presented for payment by or on behalf of a holder who would be able to avoid such withholding or deduction by presenting the relevant Note, Receipt or Coupon to another Paying Agent in a Member State of the European Union.

As used in these General Conditions:

**Tax Jurisdiction** means France or any political subdivision or any authority thereof or therein having power to tax.

The **Relevant Date** means the date on which such payment first becomes due, except that, if the full amount of the moneys payable has not been duly received by the Principal Paying Agent, as the case may be, on or prior to such due date, it means the date on which, the full amount of such moneys having been so received, notice to that effect is duly given to the Noteholders in accordance with General Condition 14 (*Notices*).

In the event that the "Gross Up" is specified as not applicable in the applicable Final Terms, the Issuer will make payments of nominal and interest to the holders of the Notes, Receipts and Coupons net of withholding or deduction

for or on account of any present or future taxes or duties of whatever nature imposed or levied by or on behalf of any jurisdiction.

### 8.3 **FATCA**

No additional amounts will be paid by the Issuer or any Paying Agent on account of any deduction or withholding from a payment on, or in respect of, the Notes where such deduction or withholding is imposed pursuant to any agreement with the U.S. Internal Revenue Service in connection with Sections 1471-1474 of the U.S. Internal Revenue Code, as amended and the U.S. Treasury regulations thereunder (**FATCA**), any intergovernmental agreement between the United States and France or any other jurisdiction with respect to FATCA, or any law, regulation or other official guidance enacted in any jurisdiction implementing, or relating to, FATCA or any intergovernmental agreement.

### 9. **PRESCRIPTION**

The Notes, Receipts and Coupons will become void unless claims in respect of nominal and/or interest are made within a period of 10 years (in the case of nominal) and five (5) years (in the case of interest) after the Relevant Date (as defined in General Condition 8.2 (*Gross Up*)) therefor.

There shall not be included in any Coupon sheet issued on exchange of a Talon any Coupon the claim for payment in respect of which would be void pursuant to this General Condition 9 or General Condition 5.2 (*Presentation of Definitive Notes, Receipts and Coupons*) or any Talon which would be void pursuant to General Condition 5.2 (*Presentation of Definitive Notes, Receipts and Coupons*).

### 10. **EVENTS OF DEFAULT**

Unless this General Condition 10 is specified as being not applicable in the applicable Final Terms, if any one or more of the following events (each an **Event of Default**) shall occur:

- (a) if default is made in the payment of any nominal or interest due on the Notes or any of them on the due date and such default, in the case of any payment of interest or, in respect of Instalment Notes, nominal, continues for a period of 15 days or more after written notice thereof is received by the Issuer from the Principal Paying Agent (and the Principal Paying Agent shall be bound to give such notice forthwith upon the request of any Noteholder) unless the Issuer shall have remedied such default before the expiry of such period and save that late delivery of any Physical Settlement Amount in the circumstances described in Annex 1 (*Asset Conditions*) in respect of ETF Linked Notes or Share Linked Notes shall not constitute an Event of Default hereunder; or
- (b) if the Issuer fails to perform or observe any of its other obligations under the Terms and Conditions of the Notes and (except where such failure is incapable of remedy when no notice will be required) and if such default is capable of being remedied by the Issuer, such default has not been so remedied within 60 days after written notice is received by the Issuer from the Principal Paying Agent (and the Principal Paying Agent shall be bound to give such notice forthwith upon the request of any Noteholder) specifying such default and requiring the same to be remedied; or
- (c) if the Issuer ceases to pay its debts generally as and when they fall due or a judgment is issued for the judicial liquidation (*liquidation judiciaire*) of the Issuer or for the transfer of the whole of its business (*cession totale de l'entreprise*), or the Issuer is subject to similar bankruptcy or insolvency proceedings, or the Issuer makes any proposals for a conveyance, assignment or other arrangement concerning the whole or a substantial part of its assets for the benefit of its creditors, or a resolution is passed by the Issuer for its winding-up or dissolution, other than in connection with the consolidation or amalgamation of the Issuer with, or its merger with or into, or the transfer of all or substantially all its assets to another entity and the creditworthiness of the resulting, surviving or transferee entity is not materially weaker than that of the Issuer immediately prior to such action,

then any holder of a Note may, by written notice to the Issuer at the specified office of the Principal Paying Agent, effective upon the date of receipt thereof by the Principal Paying Agent, declare any Notes held by the holder to be

forthwith due and payable whereupon the same shall become forthwith due and payable at the Fair Market Value Redemption Amount, without presentment, demand, protest or other notice of any kind.

## 11. **REPLACEMENT OF NOTES, RECEIPTS, COUPONS AND TALONS**

Should any Note, Receipt, Coupon or Talon be lost, stolen, mutilated, defaced or destroyed, it may be replaced at the specified office of the Principal Paying Agent (in the case of Notes, Receipts and Coupons) upon payment by the claimant of such costs and expenses as may be incurred in connection therewith and on such terms as to evidence and indemnity as the Issuer may reasonably require. Mutilated or defaced Notes, Receipts, Coupons or Talons must be surrendered before replacements will be issued.

## 12. **AGENTS**

### 12.1 **General provisions**

- (a) The names of the initial Paying Agents and their initial specified offices are set out below.
- (b) The Issuer is entitled to vary or terminate the appointment of any Agent and/or appoint additional or other Agents and/or approve any change in the specified office through which any Agent acts, provided that:
  - (i) there will at all times be a Principal Paying Agent;
  - (ii) so long as the Notes are listed on any stock exchange or admitted to listing by any other relevant authority, there will at all times be a Paying Agent with a specified office in such place as may be required by the rules and regulations of the relevant stock exchange (or any other relevant authority);
  - (iii) where the Conditions so require, there will be a Delivery Agent; and
  - (iv) there will at all times be a Paying Agent in a jurisdiction within continental Europe;
- (c) In acting under the Agency Agreement, the Agents act solely as agents of the Issuer and do not assume any obligation to, or relationship of agency or trust with, any Noteholders, Receiptholders or Couponholders.
- (d) In addition, the Delivery Agent may (with the prior written consent of the Issuer) delegate certain of its functions and duties as delivery agent to a delegee in relation to ETF Linked Notes subject to physical delivery or Share Linked Notes subject to physical delivery.

### 12.2 **Calculation Agent**

- (a) The Issuer shall procure that there shall at all times be one or more Calculation Agents if provision is made for them in the applicable Final Terms and for so long as any Notes are outstanding. Where more than one Calculation Agent is appointed in respect of the Notes, references in the Conditions to the Calculation Agent shall be construed as each Calculation Agent performing its respective duties under the Conditions.
- (b) If the Calculation Agent is unable or unwilling to act as such or if the Calculation Agent fails to perform any functions or duty imposed on it by the Conditions or the Calculation Agency Agreement, it shall forthwith notify the Issuer and the relevant Agent and such Issuer shall appoint a leading bank or financial institution engaged in the interbank market (or, if appropriate, money, swap or over-the-counter index options market) that is most closely connected with the calculation or determination to be made by the Calculation Agent (acting through any office actively involved in such market) to act as such in its place. The Calculation Agent may not resign its duties without a successor having been appointed.
- (c) For the avoidance of doubt, nothing in this General Condition 12.2 shall prevent the Issuer from appointing its Affiliate to act as a Calculation Agent in relation to any Series of the Notes.
- (d) If the Calculation Agent does not at any time for any reason determine or calculate the Rate of Interest or the Linked Interest Rate for an Interest Accrual Period or any Interest Amount, the Issuer shall do so (or

shall appoint an agent on its behalf to do so) and such determination or calculation shall be deemed to have been made by the Calculation Agent. In doing so, the Issuer shall apply the provisions of General Condition 4 (*Interest*) and General Condition 5 (*Payments*), with any necessary consequential amendments, to the extent that, in its opinion, it can do so, and, in all other respects, it shall do so in such manner as it shall deem fair and reasonable in all the circumstances.

- (e) The Issuer reserves the right at any time to vary or terminate the appointment of the Calculation Agent in accordance with the relevant Calculation Agency Agreement, provided that there will at all times be a Calculation Agent, if so required by the Conditions. Notice of any termination of appointment of the Calculation Agent will be given to Noteholders in accordance with General Condition 14 (*Notices*).
- (f) In relation to each Series of Notes, the Calculation Agent (whether it be the Issuer, its Affiliate or another entity) acts solely as agent of the Issuer and does not assume any obligation or duty to, or any relationship of agency or trust for or with, the Noteholders, the Receipholders or the Couponholders.
- (g) The Calculation Agent may, with the consent of the Issuer, delegate any of its obligations and functions to a third party as it deems appropriate and any determination or calculation by any such delegate shall be deemed to be a determination or calculation by the Calculation Agent.

### 12.3 Determinations

- (a) Unless stated otherwise in the Conditions, all determinations and calculations under the Conditions will be made by the Calculation Agent.
- (b) Any determination, judgment or adjustment made by the Issuer and/or the Calculation Agent pursuant to the Conditions shall (save in the case of manifest error) and to the extent permitted by applicable law, be final, conclusive and binding on the Issuer, the relevant Agents and the Noteholders, unless otherwise expressly provided in the Conditions.
- (c) In particular, all certificates, communications, opinions, determinations, calculations, quotations and decisions given, expressed, made or obtained for the purposes of the provisions of General Condition 4 (*Interest*) and General Condition 6 (*Redemption and Purchase*), whether by the relevant Agent or, if applicable, the Calculation Agent or the Issuer, shall (in the absence of manifest error), and to the extent permitted by applicable law, be binding on the Issuer, the Principal Paying Agent, the Calculation Agent (if applicable), the other Paying Agents and all Noteholders, Receipholders and Couponholders and (in the absence as aforesaid) no liability to the Issuer, the Noteholders, the Receipholders or the Couponholders shall attach to the Principal Paying Agent or, if applicable, the Calculation Agent in connection with the exercise or non-exercise by it of its powers, duties and discretions pursuant to such provisions.

Day unless, in the opinion of the Calculation Agent, any such day is a Disrupted Day. If any such day is a Disrupted Day, then the provisions of Commodity Linked Asset Condition 3.2 (*Consequences of the occurrence of Disrupted Days*) below shall apply.

**Payment Extension Day** means a day, which is a Payment Business Day.

**Price Source** means the publication (or such other origin of reference, including an Exchange) containing (or reporting) the Relevant Price (or prices from which the Relevant Price is calculated) specified in the applicable Final Terms in respect of the relevant Commodity Reference Price.

**Price Source Disruption** means:

- (a) the failure of the relevant Price Source to announce or publish the Specified Price (or the information necessary for determining the Specified Price) for the relevant Commodity Reference Price;
- (b) the temporary or permanent discontinuance or unavailability of the Price Source;
- (c) if the Commodity Reference Price is "Commodity Reference Dealers", the failure to obtain at least three quotations as requested from the relevant Reference Dealers; or

**Price Materiality Percentage** means the percentage (if any) specified as such in the applicable Final Terms.

**Reference Dealers** means, in respect of a Commodity for which the Commodity Reference Price is "Commodity Reference Dealers", the four dealers specified in the applicable Final Terms or, if dealers are not so specified, four leading dealers in the relevant market selected by the Calculation Agent in its discretion.

**Relevant Commodity Benchmark** means, in respect of the Notes:

- (a) a Commodity Reference Price (or, if applicable, the index, benchmark or other price source that is referred to in the Commodity Reference Price); or
- (b) any other index, benchmark or price source specified as a "Relevant Commodity Benchmark" in the applicable Final Terms.

**Relevant Price** means, in respect of an Observation Date, the price, expressed as a price per Unit, determined with respect to that Observation Date for the specified Commodity Reference Price.

**Scheduled Observation Date** means any original date that, but for the occurrence of a Market Disruption Event, would have been an Observation Date.

**Specified Price** means, in respect of a Commodity Reference Price, any of the following prices (which must be a price reported in or by, or capable of being determined from information reported in or by, the relevant Price Source) (and, if applicable, as of the time so specified): (A) the high price; (B) the low price; (C) the average of the high price and the low price; (D) the closing price; (E) the opening price; (F) the bid price; (G) the asked price; (H) the average of the bid price and the asked price; (I) the settlement price; (J) the official settlement price; (K) the official price; (L) the morning fixing; (M) the afternoon fixing; (N) the fixing; or (O) the spot price, as specified in the applicable Final Terms.

**Trade Date** means the date specified as such in the applicable Final Terms.

**Trading Disruption** means the material suspension of, or the material limitation imposed on, trading in the Futures Contract or the relevant Commodity on the relevant Exchange or in any additional futures contract, options contract or commodity on any Exchange. For these purposes:

- (a) a suspension of the trading in the Futures Contract or the relevant Commodity on any Commodity Business Day shall be deemed to be material only if:
  - (i) all trading in such Futures Contract or Commodity is suspended for the entire Observation Date; or
  - (ii) all trading in such Futures Contract or Commodity is suspended subsequent to the opening of trading on the Observation Date, trading does not recommence prior to the regularly scheduled close of trading in such Futures Contract or such Commodity on such Observation Date and such suspension is announced less than one hour preceding its commencement; and
- (b) a limitation of trading in the Futures Contract or the relevant Commodity on any Commodity Business Day shall be deemed to be material only if the relevant Exchange establishes limits on the range within which the price of the Futures Contract or the Commodity may fluctuate and the closing or settlement price of the Futures Contract or the Commodity on such day is at the upper or lower limit of that range.

**Unit** means, in respect of Commodity, the unit of measure of the relevant Commodity, as specified in the Final Terms.

### 3. EVENTS RELATING TO COMMODITY LINKED SECURITIES

#### 3.1 Market Disruption Events

**Market Disruption Event** means, with respect to a Commodity, any of the following events as may be specified in the applicable Final Terms:

- (a) Price Source Disruption;
- (b) Trading Disruption;
- (c) Disappearance of Commodity Reference Price;
- (d) Material Change in Formula;
- (e) Material Change in Content; or
- (f) Tax Disruption.

The occurrence of a Market Disruption Event shall be determined by the Calculation Agent in good faith.

#### 3.2 Consequences of the occurrence of Disrupted Days

- (a) If, in the case of Commodity Linked Notes relating to a single Commodity, an Observation Date is a Disrupted Day, then the Calculation Agent may:
  - (i) postpone the Observation Date, in which case the Observation Date shall be the next Commodity Business Day which is not a Disrupted Day (the **Commodity Determination Date**), unless each consecutive Commodity Business Day up to and including the Disruption Longstop Date is a Disrupted Day, in which case (A) the Disruption Longstop Date shall be deemed to be the Observation Date, notwithstanding the fact that such day is a Disrupted Day and (B) the Calculation Agent shall determine, in good faith, the Relevant Price for such Observation Date; or

- (ii) determine the Relevant Price (or a method for determining a Relevant Price) for such day, taking into consideration the latest available quotation for the relevant Commodity Reference Price and any other information that in good faith it deems relevant.
- (b) If, in the case of Commodity Linked Notes relating to a Basket of Commodities, an Observation Date is a Disrupted Day, then:
  - (i) if "Common Pricing" is specified in the applicable Final Terms to be applicable, no date will be an Observation Date unless such date is a day on which all referenced Commodity Reference Prices (for which such date would otherwise be an Observation Date) are published or announced; or
  - (ii) if "Common Pricing" is specified in the applicable Final Terms to be not applicable, (1) for each Commodity not affected by the occurrence of a Disrupted Day, the Observation Date shall be the Scheduled Observation Date; and (2) for each Commodity affected by the occurrence of a Disrupted Day (each an **Affected Commodity**), the Calculation Agent may:
    - (A) postpone the Observation Date, in which case the Observation Date shall be the Commodity Determination Date relating to such Affected Commodity, unless each consecutive Commodity Business Day up to and including the Disruption Longstop Date is a Disrupted Day relating to such Affected Commodity, in which case (I) the Disruption Longstop Date shall be deemed to be the Observation Date, notwithstanding the fact that such day is a Disrupted Day relating to the relevant Affected Commodity and (II) the Calculation Agent shall determine for such day, in good faith, the fair market value of the relevant Affected Commodity; in case of multiple Affected Commodities, the latest Commodity Determination Date will be the Commodity Determination Date for the purpose of Commodity Linked Asset Condition 1(a) above; or
    - (B) determine the Relevant Price (or a method for determining a Relevant Price) for the Relevant Affected Commodity, taking into consideration the latest available quotation for the relevant Commodity Reference Price and any other information that in good faith it deems relevant.
- (c) If the Calculation Agent is not able to or does not determine the Relevant Price in accordance with Commodity Linked Asset Condition 3.2(a) or Commodity Linked Asset Condition 3.2(b) above, as the case may be, or if such determination would not, in the opinion of the Calculation Agent, account for the occurrence of the Disrupted Day:
  - (i) the Calculation Agent may make such adjustments to any of the Conditions as it considers appropriate to account for any such Market Disruption Event and determine the date(s) on which any such adjustments will be effective; in making any such adjustments, the Calculation Agent may take into account the equivalent adjustment(s) which would be made to a commodity derivative transaction in the interbank market following the relevant event occurring and where the Calculation Agent deems appropriate (in its sole and absolute discretion), adjust the Conditions to give effect to such adjustment(s); or
  - (ii) if the Calculation Agent is not able to or does not determine any adjustments for the purposes of sub-paragraph (i) above, the Issuer may, in its sole and absolute discretion, upon giving notice to the Noteholders in accordance with General Condition 14 (*Notices*), redeem all but not some only of the Notes, each Note being redeemed by payment of an amount equal to the Fair Market Value Redemption Amount. Payments will be made in such manner as shall be notified to the Noteholders in accordance with General Condition 14 (*Notices*); or
  - (iii) if the Calculation Agent is not able to or does not determine any adjustments for the purposes of sub-paragraph (i) above, the Issuer may, in its sole and absolute discretion, upon giving notice to the Noteholders in accordance with General Condition 14 (*Notices*), elect to redeem on the

Maturity Date all but not some only of the Notes, each Note being redeemed on the Maturity Date by payment of an amount equal to the Monetisation Amount in accordance with the provisions of Redemption Method Condition 6 (*Monetisation*) of Annex 6 (*Redemption Method Conditions*).

- (d) The Calculation Agent shall give notice as soon as practicable to the Noteholders in accordance with General Condition 14 (*Notices*) of the occurrence of a Disrupted Day on any Observation Date. Such notice shall give the details of such Disrupted Day and the action proposed to be taken by the Calculation Agent in relation thereto.

### 3.3 Averaging Date Disruption

If any Averaging Date is a Disrupted Day, then, where the consequence specified for "Averaging Date Disruption" in the applicable Final Terms is:

- (a) "Omission", then such Averaging Date will be deemed not to be a relevant Averaging Date for purposes of determining the relevant Commodity Reference Price, and if through the operation of this provision no Averaging Date would occur with respect to the relevant Observation Date, Commodity Linked Asset Condition 3.2 will apply for purposes of determining the relevant price or amount on the final Averaging Date in respect of that Observation Date as if such final Averaging Date were an Observation Date that was a Disrupted Day;
- (b) "Postponement", then Commodity Linked Asset Condition 3.2 will apply for purposes of determining the relevant price or amount on that Averaging Date as if such Averaging Date were an Observation Date that was a Disrupted Day, irrespective of whether, pursuant to such determination, that deferred Averaging Date would fall on a date that already is or is deemed to be an Averaging Date for the relevant Commodity; or
- (c) "Modified Postponement", then:
  - (i) in the case of a Basket of Commodities, the Averaging Date for each Commodity not affected by the occurrence of a Disrupted Day shall be the date specified in the applicable Final Terms as an Averaging Date in respect of the relevant Observation Date and the Averaging Date for any Commodity affected by the occurrence of a Disrupted Day shall be the first succeeding Commodity Business Day in relation to such Commodity that is not a Disrupted Day in relation to such Commodity and on which another Averaging Date in respect of the relevant Observation Date does not or is not deemed to occur, and if the first succeeding Commodity Business Day has not occurred prior to the Averaging Disruption Longstop Date, then (A) the Averaging Disruption Longstop Date shall be deemed the Averaging Date (irrespective of whether such day is already an Averaging Date), and (B) the Calculation Agent shall determine the relevant price or amount for that Averaging Date in accordance with Commodity Linked Asset Condition 3.2; and
  - (ii) otherwise, the Averaging Date shall be the first succeeding Commodity Business Day that is not a Disrupted Day and on which another Averaging Date in respect of the relevant Observation Date does not or is not deemed to occur, and if the first succeeding Commodity Business Day has not occurred prior to the Averaging Disruption Longstop Date, then (A) the Averaging Disruption Longstop Date shall be deemed the Averaging Date (irrespective of whether such day is already an Averaging Date), and (B) the Calculation Agent shall determine the relevant price or amount for that Averaging Date in accordance with Commodity Linked Asset Condition 3.2.

### 3.4 Correction to Published Prices

- (a) For purposes of determining or calculating the Relevant Price for any day, if "Correction of Commodity Prices" is specified in the applicable Final Terms to be applicable and the price published or announced on a given day and used or to be used by the Calculation Agent to determine the Relevant Price in respect of that day is subsequently corrected and the correction (the **Corrected Relevant Price**) is published or announced by the person responsible for that publication or announcement prior to the relevant Correction

Cut-Off Date specified in the applicable Final Terms, the Calculation Agent, in its sole discretion, shall determine what, if any, adjustments to make to the Relevant Price for that day, using such corrected price. For the avoidance of doubt, any Corrected Relevant Price published on or after the relevant Correction Cut-Off Date shall be disregarded.

- (b) The Calculation Agent shall notify the Issuer of any such correction, the revised Relevant Price and, if any amount (the **Actual Amount**) has been paid to Noteholders on the basis of the original Relevant Price, the amount that should have been paid or delivered to the Noteholders on the basis of the corrected Relevant Price (the **Adjusted Amount**). Upon being notified of the Adjusted Amount, the Issuer may (but shall not be obligated to) take such action as it considers necessary or appropriate to either pay additional amounts (if the Adjusted Amount is greater than the Actual Amount) or recover amounts (if the Adjusted Amount is less than the Actual Amount) from the person to whom the Actual Amounts were paid (including, for the purposes of recoveries by the Issuer, by deducting from each Interest Amount payable on the next following Interest Payment Date (if any) an amount equal to each Note's *pro rata* share of an amount equal to the Actual Amount minus the Adjustment Amount, provided that each Interest Amount shall be subject to a minimum of zero). Notwithstanding the foregoing, under no circumstances shall the Issuer be obligated to recover any moneys from any Relevant Clearing System. The Calculation Agent shall not be obliged to make any determination under this paragraph (b) and shall have no liability to any person for any determination made or not made under this paragraph (b).
- (c) Notwithstanding the foregoing, where the Calculation Agent, in its sole discretion, determines that the price published or announced on a given day and used or to be used by it to determine the Relevant Price in respect of that day is expected to be subsequently corrected, then the Calculation Agent may, in its sole discretion, delay the determination or calculation of the Relevant Price in respect of such day and instead notify the Issuer of the expected correction. If the Calculation Agent notifies the Issuer of an expected correction to a Relevant Price, the Issuer shall not make any payments until the Calculation Agent determines or calculates the correct Relevant Price and the day on which such payments are due shall be delayed to the same extent as was the determination or calculation of the correct Relevant Price. No additional amounts shall be payable as a result of any such delay.

### 3.5 Additional Disruption Events

(a) Definitions

**Additional Disruption Event** means any of Change in Law, Hedging Disruption and/or Increased Cost of Hedging, in each case unless disapplied in the applicable Final Terms.

**Change in Law** means, unless Change in Law is specified as not applicable in the applicable Final Terms, that, on or after the Trade Date, (a) due to the adoption of or any change in any applicable law or regulation (including, without limitation, any tax law), or (b) due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority), the Issuer determines in its sole and absolute discretion that (i) it has become illegal for the Issuer and/or any of its Affiliates to hold, acquire or dispose of relevant hedge positions relating to a Commodity or Futures Contract or the Issuer and/or any of its Affiliates is unable to maintain the agreements entered into in respect of such hedge positions or (ii) the Issuer and/or any of its Affiliates will incur a materially increased cost in performing its obligations under the Notes (or any relevant hedge positions relating to a Commodity or Futures Contract) (including, without limitation, due to any increase in tax liability, decrease in tax benefit or other adverse effect on its tax position).

**Hedging Disruption** means, unless Hedging Disruption is specified as not applicable in the applicable Final Terms, that:

- (a) the Issuer and/or any of its Affiliates is unable, after using commercially reasonable efforts, to (i) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge any relevant price risk including but not limited to the currency risk of the Issuer in issuing and performing its obligations with respect to the Notes, or (ii) freely realise, recover, remit, receive, repatriate or transfer the proceeds of any such transaction(s) or asset(s).

**Increased Cost of Hedging** means, unless Increased Cost of Hedging is specified as not applicable in the applicable Final Terms, that the Issuer and/or any of its Affiliates would incur a materially increased (as compared with circumstances existing on the Trade Date) amount of tax, duty, expense or fee (other than brokerage commissions) to (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the market risk (including, without limitation, commodity price risk, foreign exchange risk and interest rate risk) of the Issuer in issuing and performing its obligations with respect to the Notes, or (b) realise, recover or remit the proceeds of any such transaction(s) or asset(s), provided that any such materially increased amount that is incurred solely due to the deterioration of the creditworthiness of the Issuer and/or any of its Affiliates shall not be deemed an Increased Cost of Hedging.

(b) Consequences of the occurrence of an Additional Disruption Event

Where "Additional Disruption Event" is specified in the applicable Final Terms as being applicable and if an Additional Disruption Event occurs, the Issuer in its sole and absolute discretion may:

- (i) require the Calculation Agent to make such adjustments to any of the Conditions as it considers appropriate in its sole and absolute discretion to account for such Additional Disruption Event and determine the date(s) on which any such adjustments will be effective; or
- (ii) upon giving notice to the Noteholders in accordance with General Condition 14 (*Notices*), redeem all but not some only of the Notes, each Note being redeemed by payment of an amount equal to the Fair Market Value Redemption Amount. Payments will be made in such manner as shall be notified to the Noteholders in accordance with General Condition 14 (*Notices*); or
- (iii) upon giving notice to the Noteholders in accordance with General Condition 14 (*Notices*), elect to redeem on the Maturity Date all but not some only of the Notes, each Note being redeemed on the Maturity Date by payment of an amount equal to the Monetisation Amount in accordance with the provisions of Redemption Method Condition 6 (*Monetisation*) of Annex 6 (*Redemption Method Conditions*).

Upon the occurrence of an Additional Disruption Event, the Issuer shall give notice as soon as practicable to the Noteholders in accordance with General Condition 14 (*Notices*) stating the occurrence of the Additional Disruption Event, giving details thereof and the action proposed to be taken in relation thereto.

### 3.6 Other Events

This Condition will apply to the Notes unless specified as being not applicable in the applicable Final Terms. Notwithstanding the foregoing provisions of these Commodity Linked Asset Conditions, if any other event occurs which the Calculation Agent determines, acting in good faith, has a material effect on the Notes, then:

- (a) the Calculation Agent may make such adjustments to any of the Conditions as it considers appropriate to account for any such event and determine the date(s) on which any such adjustments will be effective; or
- (b) the Issuer may, upon giving notice to the Noteholders in accordance with General Condition 14 (*Notices*), redeem all but not some only of the Notes, each Note being redeemed by payment of an amount equal to the Fair Market Value Redemption Amount. Payments will be made in such manner as shall be notified to the Noteholders in accordance with General Condition 14 (*Notices*);
- (c) the Issuer may, in its sole and absolute discretion, upon giving notice to the Noteholders in accordance with General Condition 14 (*Notices*), elect to redeem on the Maturity Date all but not some only of the Notes, each Note being redeemed on the Maturity Date by payment of an amount equal to the Monetisation Amount in accordance with the provisions of Redemption Method Condition 6 (*Monetisation*) of Annex 6 (*Redemption Method Conditions*).

Upon the Calculation Agent making a determination pursuant to this Commodity Linked Asset Condition 3.6, the Issuer shall give notice as soon as practicable to Noteholders in accordance with General Condition 14 (*Notices*) giving details of such determination.

### 3. EVENTS RELATING TO INDEX LINKED NOTES

#### 3.1 Market Disruption Events, Disrupted Days and Consequences

- (a) Definitions

**Early Closure** means, in respect of an Index:

- (a) if Multiple Exchange is specified as being not applicable in the relevant Final Terms, the closure on any Exchange Business Day with respect to such Index of any relevant Exchange(s) relating to Component Notes that comprise 20 per cent. or more of the level of such Index or any Related Exchange(s) prior to its Scheduled Closing Time unless such earlier closing time is announced by such Exchange(s) or Related Exchange(s) at least one hour prior to the earlier of (i) the actual closing time for the regular trading session on such Exchange(s) or Related Exchange(s) on such Exchange Business Day and (ii) the submission deadline for orders to be entered into the Exchange or Related Exchange system for execution at the Valuation Time on such Exchange Business Day; or
- (b) if Multiple Exchange is specified as being applicable in the relevant Final Terms, the closure on any Exchange Business Day of the Exchange in respect of any Component Note or the Related Exchange prior to its Scheduled Closing Time unless such earlier closing is announced by such Exchange or Related Exchange (as the case may be) at least one hour prior to the earlier of: (i) the actual closing time for the regular trading session on such Exchange or Related Exchange (as the case may be) on such Exchange Business Day; and (ii) the submission deadline for orders to be entered into the Exchange or Related Exchange system for execution at the relevant Valuation Time on such Exchange Business Day.

**Exchange Disruption** means, in respect of an Index:

- (a) if Multiple Exchange is specified as being not applicable in the relevant Final Terms, any event (other than an Early Closure) that disrupts or impairs (as determined by the Calculation Agent) the ability of market participants in general (i) to effect transactions in, or obtain market values for on any relevant Exchange(s) in Component Notes that comprise 20 per cent. or more of the level of the relevant Index, or (ii) to effect transactions in, or obtain market values for, futures or options contracts relating to the relevant Index on any relevant Related Exchange; or
- (b) if Multiple Exchange is specified as being applicable in the relevant Final Terms, any event (other than an Early Closure) that disrupts or impairs (as determined by the Calculation Agent) the ability of market participants in general to effect transactions in, or obtain market values for: (i) any Component Note on the Exchange in respect of such Component Note; or (ii) futures or options contracts relating to the Index on the Related Exchange.

**Trading Disruption** means, in respect of an Index, any suspension of or limitation imposed on trading by the relevant Exchange or Related Exchange or otherwise and whether by reason of movements in price exceeding limits permitted by the relevant Exchange or Related Exchange or otherwise (a) relating to (i) if Multiple Exchange is specified as being not applicable in the relevant Final Terms, Component Notes that comprise 20 per cent. or more of the level of such Index on any relevant Exchange(s) or (ii) if Multiple Exchange is specified as being applicable in the relevant Final Terms, any Component Note on the Exchange in respect of such Component Note or (b) in futures or options contracts relating to such Index on any relevant Related Exchange.

**Market Disruption Event** means, in respect of an Index:

- (a) if Multiple Exchange is specified as being not applicable in the relevant Final Terms, the occurrence or existence of (A) a Trading Disruption which the Calculation Agent determines is material, at any time during the one-hour period that ends at the relevant Valuation Time, (B) an Exchange Disruption which the Calculation Agent determines is material, at any time during the one-hour period that ends at the relevant Valuation Time or (C) an Early Closure; for the purposes of determining whether a Market Disruption Event exists at any time, if a Market Disruption Event occurs in respect of a Component Note included in such Index at any time, then the relevant percentage contribution of that Component Note to the level of such Index shall be based on a comparison of (I) the portion of the level of such Index

attributable to that Component Note and (II) the overall level of the Index, in each case immediately before the occurrence of such Market Disruption Event; or

- (b) if Multiple Exchange is specified as being applicable in the relevant Final Terms, either:
- (i) (A) the occurrence or existence in respect of any Component Note of (I) a Trading Disruption which the Calculation Agent determines is material, at any time during the one-hour period that ends at the relevant Valuation Time in respect of the Exchange on which such Component Note is principally traded, (II) an Exchange Disruption which the Calculation Agent determines is material, at any time during the one-hour period that ends at the relevant Valuation Time in respect of the Exchange on which such Component Note is principally traded, or (III) an Early Closure and (B) the aggregate of all Component Notes in respect of which a Trading Disruption, an Exchange Disruption or an Early Closure occurs or exists comprises 20 per cent. or more of the level of the Index; or
  - (ii) the occurrence or existence, in respect of futures or options contracts relating to the Index, of: (A) a Trading Disruption which the Calculation Agent determines is material, at any time during the one hour period that ends at the Valuation Time in respect of the Related Exchange; (B) an Exchange Disruption, which in either case the Calculation Agent determines is material, at any time during the one hour period that ends at the Valuation Time in respect of the Related Exchange; or (C) an Early Closure,

and for the purposes of determining whether a Market Disruption Event exists at any time, if a Market Disruption Event occurs in respect of a Component Note included in such Index at any time, then the relevant percentage contribution of that Component Note to the level of such Index shall be based on a comparison of (A) the portion of the level of such Equity attributable to that Component Note and (B) the overall level of the Index, in each case using the official opening weightings as published by the Index Sponsor as part of the market "opening data"; and

- (b) Consequences of the occurrence of Disrupted Days
- (i) If an Observation Date is a Disrupted Day, then:
    - (A) in the case of Index Linked Notes relating to a single Index, the Calculation Agent will postpone the Observation Date, in which case the Observation Date shall be the first immediately succeeding Scheduled Trading Day that is not a Disrupted Day (the **Index Determination Date**), unless each consecutive Scheduled Trading Day up to and including the Disruption Longstop Date is a Disrupted Day, in which case (I) the Disruption Longstop Date shall be deemed to be the Observation Date, notwithstanding the fact that such day is a Disrupted Day and (II) the Calculation Agent shall determine the level of the Index as of the Valuation Time on the Disruption Longstop Date, in the case of an Index, in accordance with the formula for and method of calculating the Index last in effect prior to the occurrence of the first Disruption Day using the Exchange traded or quoted price as of the Valuation Time on the Disruption Longstop Date of each security comprised in the Index (or, if an event giving rise to a Disrupted Day has occurred in respect of the relevant security on the Disruption Longstop Date, its good faith estimate of the value of the relevant security as of the Valuation Time on that Disruption Longstop Date); and
    - (B) in the case of Index Linked Notes relating to a Basket of Indices:
      - (I) for each Index not affected by the occurrence of a Disrupted Day, the Observation Date shall be the Scheduled Observation Date; and
      - (II) for each Index affected by the occurrence of a Disrupted Day (each an **Affected Index**), the Calculation Agent will postpone the Observation Date, in which case the Observation Date shall be the Index Determination Date relating to

such Affected Index, unless each consecutive Scheduled Trading Day up to and including the Disruption Longstop Date is a Disrupted Day relating to such Affected Index, in which case (1) the Disruption Longstop Date shall be deemed to be the Observation Date for the relevant Affected Index, notwithstanding the fact that such day is a Disrupted Day and (2) the Calculation Agent shall determine the level of the relevant Affected Index as of the Valuation Time on the Disruption Longstop Date, in the case of an Index, in accordance with the formula for and method of calculating the Affected Index last in effect prior to the occurrence of the first Disrupted Day using the Exchange traded or quoted price as of the Valuation Time on the Disruption Longstop Date of each security comprised in the Affected Index (or, if an event giving rise to a Disrupted Day has occurred in respect of the relevant security on the Disruption Longstop Date, its good faith estimate of the value of the relevant security as of the Valuation Time on that Disruption Longstop Date); in case of multiple Affected Indices, the latest Index Determination Date will be the Index Determination Date for the purpose of Index Linked Asset Condition 1(a) above.

- (ii) If the Calculation Agent is not able to or does not determine the level of the Index in accordance with Index Linked Asset Condition 3.1(b)(i)(A) or Index Linked Asset Condition 3.1(b)(i)(B) above, as the case may be, or if such determination would not, in the opinion of the Calculation Agent, account for the occurrence of the Disrupted Day:
  - (A) the Calculation Agent may make such adjustments to any of the Conditions as it considers appropriate to account for any such Disrupted Day and determine the date(s) on which any such adjustments will be effective. In making any such adjustments, the Calculation Agent may take into account the equivalent adjustment(s) which would be made to an index derivative transaction in the market following the relevant event occurring and where the Calculation Agent deems appropriate (in its sole and absolute discretion), adjust the Conditions to give effect to such adjustment(s); or
  - (B) if the Calculation Agent is not able to or does not determine any adjustments for the purposes of sub-paragraph (A) above, the Issuer may, in its sole and absolute discretion, upon giving notice to the Noteholders in accordance with General Condition 14 (*Notices*), redeem all but not some only of the Notes, each Note being redeemed by payment of an amount equal to the Fair Market Value Redemption Amount. Payments will be made in such manner as shall be notified to the Noteholders in accordance with General Condition 14 (*Notices*); or
  - (C) if the Calculation Agent is not able to or does not determine any adjustments for the purposes of sub-paragraph (A) above, the Issuer may, in its sole and absolute discretion, upon giving notice to the Noteholders in accordance with General Condition 14 (*Notices*), elect to redeem on the Maturity Date all but not some only of the Notes, each Note being redeemed on the Maturity Date by payment of an amount equal to the Monetisation Amount in accordance with the provisions of Redemption Method Condition 6 (*Monetisation*) of Annex 6 (*Redemption Method Conditions*).
- (iii) The Calculation Agent shall give notice as soon as practicable to the Noteholders in accordance with General Condition 14 (*Notices*) of the occurrence of a Disrupted Day on an Observation Date. Such notice shall give the details of such Disrupted Day and the action proposed to be taken by the Calculation Agent in relation thereto.

(c) Averaging Date Disruption

If any Averaging Date is a Disrupted Day, then, where the consequence specified for "Averaging Date Disruption" in the applicable Final Terms is:

- (i) "Omission", then such Averaging Date will be deemed not to be a relevant Averaging Date for purposes of determining the relevant Index Level, and if through the operation of this provision no Averaging Date would occur with respect to the relevant Observation Date, Index Linked Asset Condition 3.1(b) will apply for purposes of determining the relevant price or amount on the final Averaging Date in respect of that Observation Date as if such final Averaging Date were an Observation Date that was a Disrupted Day;
- (ii) "Postponement", then Index Linked Asset Condition 3.1(b) will apply for purposes of determining the relevant price or amount on that Averaging Date as if such Averaging Date were an Observation Date that was a Disrupted Day, irrespective of whether, pursuant to such determination, that deferred Averaging Date would fall on a date that already is or is deemed to be an Averaging Date for the relevant Index; or
- (iii) "Modified Postponement", then:
  - (A) in the case of a Basket of Indices, the Averaging Date for each Index not affected by the occurrence of a Disrupted Day shall be the date specified in the applicable Final Terms as an Averaging Date in respect of the relevant Observation Date and the Averaging Date for any Index affected by the occurrence of a Disrupted Day shall be the first succeeding Scheduled Trading Day in relation to such Index that is not a Disrupted Day in relation to such Index and on which another Averaging Date in respect of the relevant Observation Date does not or is not deemed to occur, and if the first succeeding Scheduled Trading Day has not occurred prior to the Averaging Disruption Longstop Date, then (I) the Averaging Disruption Longstop Date shall be deemed the Averaging Date (irrespective of whether such day is already an Averaging Date), and (II) the Calculation Agent shall determine the relevant price or amount for that Averaging Date in accordance with Index Linked Asset Condition 3.1(b); and
  - (B) otherwise, the Averaging Date shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day and on which another Averaging Date in respect of the relevant Observation Date does not or is not deemed to occur, and if the first succeeding Scheduled Trading Day has not occurred prior to the Averaging Disruption Longstop Date, then (I) the Averaging Disruption Longstop Date shall be deemed the Averaging Date (irrespective of whether such day is already an Averaging Date), and (II) the Calculation Agent shall determine the relevant price or amount for that Averaging Date in accordance with Index Linked Asset Condition 3.1(b).

### 3.2 Index Adjustments

- (a) Successor Index / Sponsor

If a relevant Index is (i) not calculated and announced by the Index Sponsor but is calculated and announced by a successor sponsor acceptable to the Calculation Agent, or (ii) replaced by a successor index using, in the determination of the Calculation Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of that Index, then in each case that index (the **Successor Index**) will be deemed to be the Index.

- (b) Modification and Cessation of Calculation of an Index and Administrator/Benchmark Event

- (i) If:

- (A) on or prior to an Observation Date, the relevant Index Sponsor makes or announces that it will make a material change in the formula for or the method of calculating a relevant Index or in any other way materially modifies that Index (other than a modification prescribed in that formula or method to maintain that Index in the event of changes in constituent securities and capitalisation and other routine events) (an **Index**

- Modification**), or permanently cancels a relevant Index and no Successor Index exists (an **Index Cancellation**);
- (B) on any Observation Date, the Index Sponsor fails to calculate and announce a relevant Index (an **Index Disruption**); or
  - (C) on or prior to any Observation Date, an Administrator/Benchmark Event occurs (together with an Index Modification, an Index Cancellation and an Index Disruption, each an **Index Adjustment Event**),
- (ii) then the Calculation Agent may:
- (A) determine to substitute the Index with a Substitution Index, where a **Substitution Index** means in relation to the Index affected by an Index Adjustment Event and at the discretion of the Calculation Agent, an index whose principal terms are equivalent to those of the affected Index. Principal terms of an index include its strategy, its currency, the periodicity of its calculation and of the publication of its level, the type of its underlying assets, its geographic and economic zone or its rules; or
  - (B) determine if such Index Adjustment Event has a material effect on the Notes and, if so, shall calculate the relevant level of the Index, using, in lieu of a published level for that Index, the level for that Index as at the Valuation Time on that Observation Date, as the case may be, as determined by the Calculation Agent in accordance with the formula for and method of calculating that Index last in effect prior to the change, failure or cancellation, but using only those Component Notes that comprised that Index immediately prior to that Index Adjustment Event; or
  - (C) calculate, on a date it has determined in a reasonable amount of time after the occurrence of an Index Adjustment Event (the **Note Amount Determination Date**), the Fair Market Value Redemption Amount of the Note in its sole and absolute discretion and, the Issuer shall, upon giving notice to Noteholders in accordance with General Condition 14 (*Notices*), redeem all but not some only of the Notes, each Note being redeemed by payment of an amount equal to lower of (I) the Fair Market Value Redemption Amount as at the Note Amount Determination Date and (II) the principal amount of the Note as at the Note Amount Determination Date. Payments will be made in such manner as shall be notified to the Noteholders, upon request, in accordance with General Condition 14 (*Notices*).

The Calculation Agent shall, as soon as practicable, notify the relevant Agent of any determination made by it pursuant to this paragraph (b) and the action proposed to be taken in relation thereto and such Agent shall make available for inspection by Noteholders, upon request, copies of any such determinations.

### 3.3 Correction of the level of the Index

With the exception of any corrections published after the day which is three (3) Exchange Business Days prior to the due date for any payment under the Notes calculated by reference to the level of an Index, in the event that any price or level published by the Index Sponsor and which is used for any calculation or determination made in respect of the Notes is subsequently corrected and the correction is published by the Index Sponsor within one Settlement Cycle after the original publication, the Calculation Agent will determine whether any relevant adjustments need to be made to the Notes to account for such correction and, to the extent necessary, will adjust the terms of the Notes to reflect such correction.

### 3.4 Additional Disruption Event

- (a) Definitions

**Additional Disruption Event** means any of Change in Law, Hedging Disruption, Dividend Disruption and/or Increased Cost of Hedging, in each case unless disapplied in the applicable Final Terms.

**Change in Law** means, unless Change in Law is specified as not applicable in the applicable Final Terms, that, on or after the Trade Date, (a) due to the adoption of or any change in any applicable law or regulation (including, without limitation, any tax law), or (b) due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority), the Issuer determines in its sole and absolute discretion that (i) it has become illegal for the Issuer and/or any of its Affiliates to hold, acquire or dispose of Component Notes or relevant hedge positions relating to an Index, or (ii) the Issuer and/or any of its Affiliates will incur a materially increased cost in performing its obligations under the Notes (or any relevant hedge positions relating to an Index) (including, without limitation, due to any increase in tax liability, decrease in tax benefit or other adverse effect on its tax position).

**Hedging Disruption** means, unless Hedging Disruption is specified as not applicable in the applicable Final Terms, that:

- (a) the Issuer and/or any of its Affiliates is unable, after using commercially reasonable efforts, to (i) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge any relevant price risk including but not limited to the currency risk of the Issuer and/or any of its Affiliates in issuing and performing its obligations with respect to the Notes, or (ii) realise, recover, remit, receive, repatriate or transfer the proceeds of any such transaction(s) or asset(s).

**Increased Cost of Hedging** means, unless Increased Cost of Hedging is specified as not applicable in the applicable Final Terms, that the Issuer and/or any of its Affiliates would incur a materially increased (as compared with circumstances existing on the Trade Date) amount of tax, duty, expense or fee (other than brokerage commissions) to (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge any relevant price risk including but not limited to the currency risk of the Issuer and/or any of its Affiliates, in issuing and performing its obligations with respect to the Notes, or (b) realise, recover or remit the proceeds of any such transaction(s) or asset(s), provided that any such materially increased amount that is incurred solely due to the deterioration of the creditworthiness of the Issuer and/or any of its Affiliates shall not be deemed an Increased Cost of Hedging.

**Dividend Disruption** means, unless Dividend Disruption is specified as not applicable in the applicable Final Terms, any of the following events in respect of a gross cash dividend declared by the issuer of a Component Note in a relevant Index to holders of record for such Component Note (a **Declared Dividend**):

- (a) the gross amount deemed to be paid by such issuer of the Component Note to the holders of record of the Component Note (notwithstanding that such payment is made to either any relevant taxing authority or holders of record) is not equal to the Declared Dividend (a **Dividend Mismatch**);
  - (b) the issuer of the Component Note fails to make any payment or delivery in respect of that Declared Dividend by the third Scheduled Trading Day following the relevant due date (a **Dividend Nonpayment**); or
  - (c) the issuer of the Component Note notifies all holders of record of the relevant Component Note that the Declared Dividend will no longer be paid (a **Dividend Cancellation**).
- (b) Consequences of the occurrence of an Additional Disruption Event

Where "Additional Disruption Event" is specified in the applicable Final Terms as being applicable and if an Additional Disruption Event occurs, the Issuer may in its sole and absolute discretion:

- (i) require the Calculation Agent to make such adjustments to the Conditions as it considers appropriate in its sole and absolute discretion to account for such Additional Disruption Event and determine the date(s) on which any such adjustments will be effective; or
- (ii) upon giving notice to the Noteholders in accordance with General Condition 14 (*Notices*), redeem all but not some only of the Notes, each Note being redeemed by payment of an amount equal to the Fair Market Value Redemption Amount. Payments will be made in such manner as shall be notified to the Noteholders in accordance with General Condition 14 (*Notices*); or
- (iii) upon giving notice to the Noteholders in accordance with General Condition 14 (*Notices*), elect to redeem on the Maturity Date all but not some only of the Notes, each Note being redeemed on the Maturity Date by payment of an amount equal to the Monetisation Amount in accordance with the provisions of Redemption Method Condition 6 (*Monetisation*) of Annex 6 (*Redemption Method Conditions*)

Upon the occurrence of an Additional Disruption Event, the Issuer shall give notice as soon as practicable to the Noteholders in accordance with General Condition 14 (*Notices*) stating the occurrence of the Additional Disruption Event, giving details thereof and the action proposed to be taken in relation thereto.

### 3.5 Other Events

This Condition will apply to the Notes unless specified as being not applicable in the applicable Final Terms. Notwithstanding the foregoing provisions of these Index Linked Asset Conditions, if any other event occurs which the Calculation Agent determines, acting in good faith, has a material effect on the Notes, then:

- (a) the Calculation Agent may make such adjustments to any of the Conditions as it considers appropriate to account for any such event and determine the date(s) on which any such adjustments will be effective; or
- (b) the Issuer may, upon giving notice to the Noteholders in accordance with General Condition 14 (*Notices*), redeem all but not some only of the Notes, each Note being redeemed by payment of an amount equal to the Fair Market Value Redemption Amount. Payments will be made in such manner as shall be notified to the Noteholders in accordance with General Condition 14 (*Notices*); or
- (c) the Issuer may, in its sole and absolute discretion, upon giving notice to the Noteholders in accordance with General Condition 14 (*Notices*), elect to redeem on the Maturity Date all but not some only of the Notes, each Note being redeemed on the Maturity Date by payment of an amount equal to the Monetisation Amount in accordance with the provisions of Redemption Method Condition 6 (*Monetisation*) of Annex 6 (*Redemption Method Conditions*)

Upon the Calculation Agent making a determination pursuant to this Index Linked Asset Condition 3.5 (*Other Events*), the Issuer shall give notice as soon as practicable to Noteholders in accordance with General Condition 14 (*Notices*) giving details of such determination.

### Chapter 3: Asset Conditions: Inflation Linked Asset Conditions

*This chapter sets out additional terms and conditions for Notes that are Inflation Linked Notes.*

*The following terms and conditions (the **Inflation Linked Asset Conditions**) shall apply to the Notes if the applicable Final Terms indicate that Inflation Linked Interest Notes or Inflation Linked Redemption Notes is applicable. These Inflation Linked Asset Conditions are subject to completion in accordance with the applicable Final Terms.*

*All capitalised terms that are not defined in these Inflation Linked Asset Conditions or elsewhere in the Terms and Conditions will have the meanings given to them in the applicable Final Terms.*

*References in these Inflation Linked Asset Conditions to an Inflation Linked Asset Condition are to a section or clause of these Inflation Linked Asset Conditions.*

#### 1. GENERAL DEFINITIONS RELATING TO INFLATION LINKED SECURITIES

**Administrator/Benchmark Event** has the meaning given to it in the Definitions.

**Basket** means a basket containing the Inflation Indices (if any) specified in the applicable Final Terms.

**Daily Inflation Rate** means, the daily interpolated level of the Inflation Index for the relevant Payment Date, determined as follows:

$$\text{MIL}(t) + [\text{MIL}(t1) - \text{MIL}(t)] \times \frac{(D - 1)}{N}$$

where:

**MIL(t)** means the level of the Inflation Index for the Reference Month that is the number of months immediately preceding the relevant Payment Date, as defined under Primary Lag;

**MIL(t1)** means the level of the Inflation Index for the Reference Month that is the number of months immediately preceding the Payment Date, as defined under Secondary Lag;

**D** is the calendar day on which the Payment Date occurs; and

**N** is the total number of calendar days of the month in which the Payment Date occurs.

**Primary Lag** means, the number of months specified as such in the Final Terms, or if a Primary Lag is not so specified, 3 months.

**Secondary Lag** means, the number of months specified as such in the Final Terms, or if a Secondary Lag is not so specified, 2 months.

**Fair Market Value Redemption Amount** will have the meaning given to it in General Condition 6.7 (*Redemption Amounts*).

**Fallback Bond** means, in respect of an Inflation Index, a bond selected by the Calculation Agent and issued by the government of the country to whose level of inflation such Inflation Index relates and which pays a coupon or redemption amount which is calculated by reference to such Inflation Index, with a redemption date which falls on (a) the same day as the Redemption Date, (b) the next longest maturity after the Redemption Date if there is no such bond maturing on the Redemption Date, or (c) the next shortest maturity before the Redemption Date if no bond defined in (a) or (b) is selected by the Calculation Agent. If such Inflation Index relates to the level of inflation across the European Monetary Union, the Calculation Agent will select an inflation-linked bond that is a debt obligation of one of the governments (but not any government agency) of France, Italy, Germany or Spain and which pays a coupon or redemption amount which is calculated by reference to the level of inflation in the European Monetary Union. In each case, the Calculation Agent will select the Fallback Bond from those inflation-linked bonds issued on or before the Issue Date and, if there is more than one inflation-linked bond maturing on the same date, the Fallback Bond shall be selected by the Calculation Agent from those bonds. If the Fallback Bond redeems

the Calculation Agent will select a new Fallback Bond on the same basis, but selected from all eligible bonds in issue at the time the original Fallback Bond redeems (including any bond for which the redeemed bond is exchanged).

**Inflation Indices or Inflation Index** means, subject to adjustment in accordance with these Inflation Linked Asset Conditions, the inflation indices or inflation index specified in the applicable Final Terms and related expressions shall be construed accordingly.

**Inflation Index Level** means, in respect of an Inflation Index:

- (a) if Daily Inflation Rate is specified as applicable in the applicable Final Terms, a level equal to the Daily Inflation Rate for such Inflation Index; and
- (b) otherwise, the level of such Inflation Index for the Reference Month that is the number of months immediately preceding the relevant Payment Date as determined in accordance with the relevant Primary Lag.

**Inflation Index Sponsor** means the entity that publishes or announces (directly or through an agent) the level of the relevant Inflation Index, which as of the Issue Date of the Notes is the inflation index sponsor, specified for such Inflation Index in the applicable Final Terms.

**Payment Date** means any date on which a payment is due and payable pursuant to the terms of the Notes.

**Reference Month** means the calendar month for which the level of the Inflation Index was reported, regardless of when this information is published or announced. If the period for which the Inflation Index level was reported is a period other than a month, the Reference Month is the period for which the Inflation Index level was reported. References elsewhere in the Conditions to an **Observation Date** shall, for the purposes of these Inflation Linked Asset Conditions, be construed as references to the "Reference Month" in which such "Observation Date" falls.

**Related Bond** means, in respect of an Inflation Index, the bond specified as such in the applicable Final Terms or, if Related Bond is specified in the applicable Final Terms to be not applicable, the Fallback Bond shall be deemed to be the Related Bond. If a bond is specified to be the Related Bond in the applicable Final Terms and such bond redeems or matures during the term of the Notes, the Fallback Bond shall be deemed to be the Related Bond.

**Relevant Inflation Index Benchmark** means, in respect of the Notes:

- (a) an Inflation Index; or
- (b) any other index, benchmark or price source specified as a "Relevant Index Benchmark" in the applicable Final Terms.

## 2. EVENTS RELATING TO INFLATION LINKED SECURITIES

### 2.1 Delay of Publication

If the level of the Inflation Index for a Reference Month which is relevant to the calculation of a payment under the Notes (a **Relevant Level**) is not published or announced by the day that is five Business Days prior to the next following Payment Date under the Notes, the Calculation Agent will in its discretion determine a **Substitute Inflation Index Level** (in place of such Relevant Level) by using one of the following methodologies:

- (a) if applicable, the Calculation Agent shall take the same action to determine the Substitute Inflation Index Level for such Payment Date as that taken by the relevant calculation agent pursuant to the terms and conditions of the Related Bond; and
- (b) if (a) above does not result in a Substitute Inflation Index Level for such Payment Date for any reason, then the Calculation Agent shall determine the Substitute Inflation Index Level as follows:

$$\text{Substitute Inflation Index Level} = \text{Base Level} \times (\text{Latest Level} / \text{Reference Level})$$

where:

**Base Level** means the level of the Inflation Index (excluding any "flash" estimates) published or announced by the Inflation Index Sponsor in respect of the month which is 12 calendar months prior to the month for which the Substitute Inflation Index Level is being determined;

**Latest Level** means the latest level of the Inflation Index (excluding any "flash" estimates) published or announced by the Inflation Index Sponsor prior to the month in respect of which the Substitute Inflation Index Level is being calculated; and

**Reference Level** means the level of the Inflation Index (excluding any "flash" estimates) published or announced by the Inflation Index Sponsor prior to the month that is 12 calendar months prior to the month referred to in "Latest Level" above; or

- (c) the Calculation Agent shall determine, acting in good faith, what it believes is a commercially reasonable level for the Substitute Inflation Index level for such Payment Date, by reference to any pricing sources or valuation methodologies as it considers appropriate.

If a Relevant Level is published or announced at any time after the day that is five Business Days prior to the next following Payment Date under the Notes, such Relevant Level will not be used in any calculations. The Substitute Inflation Index Level so determined pursuant to this Inflation Linked Asset Condition 2.1 will be the definitive level for that Reference Month.

## 2.2 Cessation of Publication

If (i) a level for the Inflation Index has not been published or announced for two consecutive months, (ii) the Inflation Index Sponsor announces that it will no longer continue to publish or announce the Inflation Index or (iii) an Administrator/Benchmark Event occurs, then the Calculation Agent will determine a **Successor Inflation Index** (in lieu of any previously applicable index) for the purposes of the Notes by using the following methodology:

- (a) if at any time, a successor index has been designated by the relevant calculation agent pursuant to the terms and conditions of the Related Bond, such successor index shall be designated as a Successor Inflation Index for the purposes of all subsequent Payment Dates in relation to the Notes, notwithstanding that any other Successor Inflation Index may previously have been determined under paragraph (b), (c) or (d) below;
- (b) if a Successor Inflation Index has not been determined under paragraph (a) above, and a notice has been given or an announcement has been made by the Inflation Index Sponsor, specifying that the Inflation Index will be superseded by a replacement index specified by the Inflation Index Sponsor, and the Calculation Agent determines that such replacement index is calculated using the same or substantially similar formula or method of calculation as used in the calculation of the previously applicable index, such replacement index shall be the Inflation Index for purposes of the Notes from the date that such replacement index comes into effect;
- (c) if a Successor Inflation Index has not been determined under paragraph (a) or (b) above (and there has been no designation of a date for the early redemption of the Notes by the Issuer pursuant to paragraph (e) below), the Calculation Agent shall ask five leading independent dealers to state what the replacement index for the Inflation Index should be. If at least four responses are received, and of those responses, three or more leading independent dealers state the same index, such index will be deemed the "Successor Inflation Index". If three responses are received, and two or more leading independent dealers state the same index, such index will be deemed the "Successor Inflation Index". If fewer than three responses are received, the Calculation Agent will proceed to paragraph (d) hereof;
- (d) if no Successor Inflation Index has been determined under paragraphs (a), (b) and (c) above by the fifth Business Day prior to the next following Payment Date under the Notes, the Issuer will determine an appropriate alternative index for such date, acting in good faith, and such index will be deemed the "Successor Inflation Index"; or

- (e) if the Calculation Agent determines that there is no appropriate alternative index, the Issuer may, by giving notice to Noteholders in accordance with General Condition 14 (*Notices*) either (i) use the level of the Inflation Index on (A) the day on which the Inflation Index ceased to be available or (B) the Administrator/Benchmark Event Date, as applicable or, if no Inflation Index is published at that time or that Inflation Index cannot be used in accordance with applicable laws or regulations, by reference to the Inflation Index published at that time on the last day on which the Inflation Index was published or can be used in accordance with applicable laws or regulations, as applicable, (ii) redeem the Notes in whole but not in part, each Note being redeemed by payment of an amount equal to the Fair Market Value Redemption Amount or (iii) upon giving notice to the Noteholders in accordance with General Condition 14 (*Notices*), elect to redeem on the Maturity Date all but not some only of the Notes, each Note being redeemed on the Maturity Date by payment of an amount equal to the Monetisation Amount in accordance with the provisions of Redemption Method Condition 6 (*Monetisation*) of Annex 6 (*Redemption Method Conditions*). Payments will be made in such manner as shall be notified to the Noteholders in accordance with General Condition 14 (*Notices*).

### 2.3 Rebasing of the Inflation Index

If the Calculation Agent determines that the Inflation Index has been or will be rebased at any time, the Inflation Index so rebased (the **Rebased Inflation Index**) will be used for purposes of determining the level of the Inflation Index from the date of such rebasing, provided however that the Calculation Agent shall make such adjustments as are made by the relevant calculation agent pursuant to the terms and conditions of the Related Bond, if any, to the levels of the Rebased Inflation Index so that the Rebased Inflation Index levels reflect the same rate of inflation as the Inflation Index before it was rebased. If there is no Related Bond, the Calculation Agent shall make adjustments to the levels of the Rebased Inflation Index so that the Rebased Inflation Index levels reflect the same rate of inflation as the Inflation Index before it was rebased. Any such rebasing shall not affect any prior payments made under the Notes.

### 2.4 Material Modification

If, on or prior to the day that is five Business Days prior to the next following Payment Date under the Notes, the Inflation Index Sponsor announces that it will make a material change to the Inflation Index, then the Calculation Agent shall make any such adjustments to the Notes necessary for the modified Inflation Index to continue as the Inflation Index.

### 2.5 Manifest Error in Publication

If, within the earlier of (a) 30 days of publication, and (b) the day that is five Business Days prior to the next following Payment Date under the Notes, the Calculation Agent determines that the Inflation Index Sponsor has corrected the level of the Inflation Index to remedy a manifest error in its original publication, the Calculation Agent will notify the Issuer and the Noteholders in accordance with General Condition 14 (*Notices*) of (i) that correction; (ii) any amount that may be payable as a result of that correction, and (iii) take such other action as it may deem necessary to give effect to such correction.

### 2.6 Additional Disruption Event

- (a) Definitions

**Additional Disruption Event** means any of Change in Law, Hedging Disruption and/or Increased Cost of Hedging, in each case unless disapplied in the applicable Final Terms.

**Change in Law** means, unless Change in Law is specified as not applicable in the applicable Final Terms, that, on or after the Trade Date, (a) due to the adoption of or any change in any applicable law or regulation (including, without limitation, any tax law), or (b) due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority), the Issuer determines in its sole and absolute discretion that (i) it has become illegal for the Issuer and/or any of its Affiliates to hold, acquire

or dispose of relevant hedge positions relating to an Inflation Index or the Issuer and/or any of its Affiliates is unable to maintain the agreements entered into in respect of such hedge positions or (ii) the Issuer and/or any of its Affiliates will incur a materially increased cost in performing its obligations under the Notes (or any relevant hedge positions relating to an Inflation Index) (including, without limitation, due to any increase in tax liability, decrease in tax benefit or other adverse effect on its tax position).

**Hedging Disruption** means, unless Hedging Disruption is specified as not applicable in the applicable Final Terms, that the Issuer and/or any of its Affiliates is unable, after using commercially reasonable efforts, to (i) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge any relevant price risk including but not limited to the currency risk of the Issuer in issuing and performing its obligations with respect to the Notes, or (ii) freely realise, recover, remit, receive, repatriate or transfer the proceeds of any such transaction(s) or asset(s).

**Increased Cost of Hedging** means, unless Increased Cost of Hedging is specified as not applicable in the applicable Final Terms, that the Issuer and/or any of its Affiliates would incur a materially increased (as compared with circumstances existing on the Trade Date) amount of tax, duty, expense or fee (other than brokerage commissions) to (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the market risk (including, without limitation, equity price risk, foreign exchange risk and interest rate risk) of the Issuer in issuing and performing its obligations with respect to the Notes, or (b) realise, recover or remit the proceeds of any such transaction(s) or asset(s), provided that any such materially increased amount that is incurred solely due to the deterioration of the creditworthiness of the Issuer and/or any of its Affiliates shall not be deemed an Increased Cost of Hedging.

(b) Consequences of the occurrence of an Additional Disruption Event:

Where "Additional Disruption Event" is specified in the applicable Final Terms as being applicable and if an Additional Disruption Event occurs, the Issuer in its sole and absolute discretion may take the action, if applicable, described in (i) or (ii) below:

- (i) require the Calculation Agent to determine in its sole and absolute discretion the appropriate adjustment, if any, to be made to the Conditions to account for the Additional Disruption Event and determine the effective date of such adjustment; or
- (ii) upon giving notice to the Noteholders in accordance with General Condition 14 (*Notices*), redeem all but not some only of the Notes, each Note being redeemed by payment of an amount equal to the Fair Market Value Redemption Amount. Payments will be made in such manner as shall be notified to the Noteholders in accordance with General Condition 14 (*Notices*); or
- (iii) upon giving notice to the Noteholders in accordance with General Condition 14 (*Notices*), elect to redeem on the Maturity Date all but not some only of the Notes, each Note being redeemed on the Maturity Date by payment of an amount equal to the Monetisation Amount in accordance with the provisions of Redemption Method Condition 6 (*Monetisation*) of Annex 6 (*Redemption Method Conditions*)

Upon the occurrence of an Additional Disruption Event, the Issuer shall give notice as soon as practicable to the Noteholders in accordance with General Condition 14 (*Notices*) stating the occurrence of the Additional Disruption Event, giving details thereof and the action proposed to be taken in relation thereto.

## 2.7 Other Events

This Condition will apply to the Notes unless specified as being not applicable in the applicable Final Terms. Notwithstanding the foregoing provisions of these Inflation Linked Asset Conditions, if any other event occurs which the Calculation Agent determines, acting in good faith, has a material effect on the Notes, then:

- (a) the Calculation Agent may make such adjustments to any of the Conditions as it considers appropriate to account for any such event and determine the date(s) on which any such adjustments will be effective; or

- (b) the Issuer may, upon giving notice to the Noteholders in accordance with General Condition 14 (*Notices*), redeem all but not some only of the Notes, each Note being redeemed by payment of an amount equal to the Fair Market Value Redemption Amount. Payments will be made in such manner as shall be notified to the Noteholders in accordance with General Condition 14 (*Notices*); or
- (c) the Issuer may, in its sole and absolute discretion, upon giving notice to the Noteholders in accordance with General Condition 14 (*Notices*), elect to redeem on the Maturity Date all but not some only of the Notes, each Note being redeemed on the Maturity Date by payment of an amount equal to the Monetisation Amount in accordance with the provisions of Redemption Method Condition 6 (*Monetisation*) of Annex 6 (*Redemption Method Conditions*).

Upon the Calculation Agent making a determination pursuant to this Inflation Linked Asset Condition 2.7, the Issuer shall give notice as soon as practicable to Noteholders in accordance with General Condition 14 (*Notices*) giving details of such determination.

(c) **2006 ISDA Definitions**

For the purposes of Rate Linked Asset Conditions 1.1(a), if "2006 ISDA Definitions" is specified for the ISDA Definitions in the applicable Final Terms, **ISDA Rate** for an Interest Accrual Period means a rate equal to the Floating Rate that would be determined by the Calculation Agent on the applicable Interest Determination Date under an interest rate swap transaction if the Calculation Agent were acting as

"Calculation Agent" for that swap transaction under the terms of an agreement incorporating the 2006 ISDA Definitions, and the following shall apply for the purposes of the 2006 ISDA Definitions:

- (i) the Floating Rate Option is as specified in the applicable Final Terms;
- (ii) Business Day shall mean each day that is a Business Day under the Conditions of the Floating Rate Notes;

- (G) if Averaging is specified as applicable in the applicable Final Terms:
  - (I) Overnight Averaging will be applicable if specified as such in the applicable Final Terms;
  - (II) Averaging with Lookback will be applicable if specified as such in the applicable Final Terms, and if so, the Lookback is either (1) as specified in the applicable Final Terms, or (2) if no number is specified as such in the applicable Final Terms, the number specified as the "Lookback" for the relevant Floating Rate Option in the 2006 ISDA Definitions, or (3) if no such number is specified for the relevant Floating Rate Option, five (5);
  - (III) Averaging with Observation Period Shift will be applicable if specified as such in the applicable Final Terms, and if so, Set in Advance will be applicable if specified as such in the applicable Final Terms, Observation Period Shift Additional Business Day is as specified in the applicable Final Terms and the Observation Period Shift is either (1) as specified in the applicable Final Terms, or (2) if no number is specified as such in the applicable Final Terms, the number specified as the "Observation Period Shift" for the relevant Floating Rate Option in the 2006 ISDA Definitions, or (3) if no such number is specified for the relevant Floating Rate Option, five (5); and

- (v) otherwise:
  - (A) the Designated Maturity is a period specified in the applicable Final Terms for the relevant Observation Date; and
  - (B) the relevant Reset Date is as specified in the applicable Final Terms.

For the purposes of this Rate Linked Asset Condition 1.1(c), **Floating Rate, Calculation Agent, Floating Rate Option, Designated Maturity, Reset Date, Overnight Floating Rate Option, Applicable Business Day, Observation Period Shift Additional Business Day, Lockout Period Business Day, Daily Capped Rate, Daily Floored Rate, OIS Compounding, Compounding with Lookback, Compounding with Observation Period Shift, Compounding with Lockout, Overnight Averaging, Averaging with Lookback, Averaging with Observation Period Shift, Averaging with Lockout, Delayed Payment, Set in Advance, Lookback, Observation Period Shift and Lockout** have the meanings given to those terms in the 2006 ISDA Definitions, but with references, where applicable, to "the Confirmation" being read as "the applicable Final Terms" and references, where applicable to the "Calculation Period" being read as the "Interest Accrual Period".

- (d) In respect of any Reset Date, for the purpose of determining the Floating Rate (in order to establish the Benchmark Rate Level for a given Benchmark Rate) pursuant to the relevant Floating Rate Option under the ISDA Definitions, where such date is also specified in the Final Terms as being an Observation Date for the same Benchmark Rate determination, then the Floating Rate will be determined pursuant to that Floating Rate Option on the basis of the rate or rates observed from the specified screens, websites, other

electronic sources or platforms, companies, institutions or other entities, in each case as of such Reset Date, disregarding any requirement in the ISDA Definitions to observe such rate or rates as of a date earlier than the Reset Date (but without prejudice to any fallback process specified for the relevant Floating Rate Option that requires such rate or rates to be observed for such Floating Rate Option as of a different date where they cannot be observed as of the Reset Date).

- (e) Where the ISDA Definitions state that the determination of the Floating Rate Option will be pursuant to any requirement for the Calculation Agent to request quotes from Reference Banks, Reference Dealers or major banks pursuant to the ISDA Definitions, such requirement to make requests for quotations for rates from, and the provision of quotations for rates by, the requisite number of Reference Banks, Reference Dealers or major banks may be effected by reference to and using quotations or tradable market prices which are made available by such Reference Banks, Reference Dealers or major banks via electronic data providers or electronic trading platforms. For the purposes of the preceding sentence, the terms "Reference Banks" and "Reference Dealers" shall have the meanings set out in the ISDA Definitions. If the fallback as set out in the definition of the Floating Rate Option pursuant to the ISDA Definitions does not produce a result, the Calculation Agent shall determine the rate acting in good faith and in a commercially reasonable manner.
- (f) The Calculation Agent, acting reasonably, may amend this Rate Linked Asset Condition 1.1 from time to time to the extent that it determines necessary in order to ensure consistency with prevailing market standards or market trading conventions (as established pursuant to the agreement of the leading dealers in the derivatives market for rates or any relevant committee established by ISDA, a market-wide protocol, any applicable law or regulation or the rules of any applicable exchange or clearing system) that would be or are applicable to any Reference Hedge Transaction from time to time. The Calculation Agent may not, without the consent of the Issuer, make any amendments to Rate Linked Asset Condition 1.1 of the Notes pursuant to this Rate Linked Asset Condition 1.1(f) other than to the extent necessary to give effect to the relevant change(s). The Calculation Agent shall notify the Issuer and the Noteholders as soon as reasonably practicable upon making any such amendment.

For the purpose of the above paragraph, **Reference Hedge Transaction** means a transaction entered into, or which would be entered into, on market standard terms and at arm's length with a leading dealer in the relevant market and pursuant to which the Issuer's risk in respect of its payment obligations linked to any interest rate benchmark referenced in the Notes is, or would be, hedged.

## 1.2 Screen Rate Determination

Where "Screen Rate Determination" is specified in the applicable Final Terms as the manner in which the Benchmark Rate Level is to be determined in respect of a Benchmark Rate on any date of determination, such Benchmark Rate Level shall, subject as provided below, be either:

- (a) the offered quotation; or
- (b) the arithmetic mean (rounded if necessary in accordance with General Condition 4.6 (*Rounding*)) of the offered quotations,

(expressed as a percentage rate *per annum*) for the Benchmark Rate which appears or appear, as the case may be, on the Relevant Screen Page as at the Relevant Screen Page Time on the relevant date in question as determined by the Calculation Agent. If five (5) or more of such offered quotations are available on the Relevant Screen Page, the highest (or, if there is more than one such highest quotation, one only of such quotations) and the lowest (or, if there is more than one such lowest quotation, one only of such quotations) shall be disregarded by the Calculation Agent for the purpose of determining the arithmetic mean (rounded as provided in General Condition 4.6 (*Rounding*)) of such offered quotations.

If the Relevant Screen Page is not available or if, in the case of Rate Linked Asset Condition 1.2(a) (*Screen Rate Determination*), no offered quotation appears or, in the case of Rate Linked Asset Conditions 1.2(b) (*Screen Rate Determination*), fewer than three (3) offered quotations appear, in each case at the Relevant Screen Page Time, the

Calculation Agent shall request each of the Reference Banks to provide the Calculation Agent with its offered quotation (expressed as a percentage rate *per annum*) for the Benchmark Rate at the Relevant Screen Page Time on the relevant date in question. If two or more of the Reference Banks provide the Calculation Agent with offered quotations, the Benchmark Rate Level for the relevant date shall be the arithmetic mean (rounded if necessary in accordance with General Condition 4.6 (*Rounding*)) of the offered quotations, as determined by the Calculation Agent.

If on any Observation Date one only or none of the Reference Banks provides the Calculation Agent with an offered quotation as provided in the preceding paragraph, the Benchmark Rate Level for the relevant date shall be the rate *per annum* which the Calculation Agent determines as being the arithmetic mean (rounded if necessary in accordance with General Condition 4.6 (*Rounding*)) of the rates, as communicated to (and at the request of) the Calculation Agent by the Reference Banks or any two (2) or more of them, at which such banks were offered, at the Relevant Screen Page Time on the relevant date of determination, deposits in the Specified Currency for a period equal to that which would have been used for the Benchmark Rate by leading banks in the Relevant Inter-Bank Market or, if fewer than two (2) of the Reference Banks provide the Calculation Agent with offered rates, the offered rate for deposits in the Specified Currency for a period equal to that which would have been used for the Benchmark Rate, or the arithmetic mean (rounded in accordance with General Condition 4.6 (*Rounding*)) of the offered rates for deposits in the Specified Currency for a period equal to that which would have been used for the Benchmark Rate, at which, at the Relevant Screen Page Time on the relevant date, any one or more banks (which bank or banks is or are in the opinion of the Issuer suitable for the purpose) informs the Calculation Agent it is quoting to leading banks in the Relevant Inter-Bank Market, provided that, if the Benchmark Rate Level cannot be determined on the relevant Observation Date in accordance with the foregoing provisions of this Rate Linked Asset Condition 1, the Benchmark Rate Level shall be determined on the relevant Observation Date as at the last preceding date of determination.

In respect of any Interest Accrual Period to which "Linear Interpolation" is specified as being applicable in the applicable Final Terms, the Benchmark Rate Level for that Interest Accrual Period shall be determined by the Calculation Agent, in its sole discretion, through the use of straight-line interpolation by reference to two rates based on the relevant Benchmark Rate, one of which shall be determined as if the Designated Maturity of that rate were the period of time for which rates are available next shorter than the length of the Interest Accrual Period and the other of which shall be determined as if the Designated Maturity of that rate were the period of time for which rates are available next longer than the length of the Interest Accrual Period.

## 2. ADDITIONAL DISRUPTION EVENT

### 2.1 Definitions

**Additional Disruption Event** means any of Change in Law, Hedging Disruption and/or Increased Cost of Hedging, in each case unless disapplied in the applicable Final Terms.

**Change in Law** means, unless Change in Law is specified as not applicable in the applicable Final Terms, that, on or after the Trade Date, (a) due to the adoption of or any change in any applicable law or regulation (including, without limitation, any tax law), or (b) due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority), the Issuer determines in its sole and absolute discretion that (i) it has become illegal for the Issuer and/or any of its Affiliates to hold, acquire or dispose of relevant hedge positions relating to a Benchmark Rate or the Issuer and/or any of its Affiliates is unable to maintain the agreements entered into in respect of such hedge positions or (ii) the Issuer and/or any of its Affiliates will incur a materially increased cost in performing its obligations under the Notes (or any relevant hedge positions relating to a Benchmark Rate) (including, without limitation, due to any increase in tax liability, decrease in tax benefit or other adverse effect on its tax position).

**Hedging Disruption** means, unless Hedging Disruption is specified as not applicable in the applicable Final Terms, that:

- (a) the Issuer and/or any of its Affiliates is unable, after using commercially reasonable efforts, to (i) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems

necessary to hedge any relevant price risk including but not limited to the currency risk of the Issuer in issuing and performing its obligations with respect to the Notes, or (ii) freely realise, recover, remit, receive, repatriate or transfer the proceeds of any such transaction(s) or asset(s).

**Increased Cost of Hedging** means, unless Increased Cost of Hedging is specified as not applicable in the applicable Final Terms, that the Issuer and/or any of its Affiliates would incur a materially increased (as compared with circumstances existing on the Trade Date) amount of tax, duty, expense or fee (other than brokerage commissions) to (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge any relevant price risk including but not limited to the currency risk of the Issuer in issuing and performing its obligations with respect to the Notes, or (b) realise, recover or remit the proceeds of any such transaction(s) or asset(s), provided that any such materially increased amount that is incurred solely due to the deterioration of the creditworthiness of the Issuer and/or any of its Affiliates shall not be deemed an Increased Cost of Hedging.

## 2.2 Consequences of the occurrence of an Additional Disruption Event

Where "Additional Disruption Event" is specified in the applicable Final Terms as being applicable and if an Additional Disruption Event occurs, the Issuer in its sole and absolute discretion may take the action, if applicable, described in (a) or (b) below:

- (a) require the Calculation Agent to determine in its sole and absolute discretion the appropriate adjustment, if any, to be made to the Conditions to account for the Additional Disruption Event and determine the effective date of such adjustment; or
- (b) upon giving notice to the Noteholders in accordance with General Condition 14 (*Notices*), redeem all but not some only of the Notes, each Note being redeemed by payment of an amount equal to the Fair Market Value Redemption Amount. Payments will be made in such manner as shall be notified to the Noteholders in accordance with General Condition 14 (*Notices*); or
- (c) upon giving notice to the Noteholders in accordance with General Condition 14 (*Notices*), elect to redeem on the Maturity Date all but not some only of the Notes, each Note being redeemed on the Maturity Date by payment of an amount equal to the Monetisation Amount in accordance with the provisions of Redemption Method Condition 6 (*Monetisation*) of Annex 6 (*Redemption Method Conditions*).

Upon the occurrence of an Additional Disruption Event, the Issuer shall give notice as soon as practicable to the Noteholders in accordance with General Condition 14 (*Notices*) stating the occurrence of the Additional Disruption Event, giving details thereof and the action proposed to be taken in relation thereto.

## 3. BENCHMARK TRIGGER EVENTS

- (a) If an Index Cessation Event occurs and the Relevant Rate Benchmark is a Priority Fallback Benchmark, the related Priority Fallback shall apply. If the Priority Fallback does not produce an outcome then Rate Linked Asset Condition 3(b) below shall apply.
- (b) Subject to Rate Linked Asset Condition 3(a) above, if a Benchmark Trigger Event occurs, the Calculation Agent shall elect to take one of the actions described in sub-paragraphs (i), (ii) or (iii) below, or to the extent that the Calculation Agent does not consider it commercially reasonable or possible to apply any one of those options or any of the outcomes produced from those options, the Calculation Agent may elect to apply the option in sub-paragraph (iv) below, and if no election is made by the Calculation Agent, Rate Linked Asset Condition 3(e) below shall apply, in each case with the applied option taking effect from the Business Day following the Cut-Off Date:
  - (i) If an Impacted Index and an Alternative Pre-nominated Index have been specified in the applicable Final Terms, (A) the Relevant Rate Benchmark will be replaced with the Alternative Pre-nominated Index, (B) the Calculation Agent shall apply the Adjustment Spread to the Alternative Pre-nominated Index and (C) the Calculation Agent may, after taking into account

any Adjustment Spread, make such other adjustments to any of the Conditions as are necessary to account for the effect on the Notes of referencing the Alternative Pre-nominated Index.

- (ii) If there is an Alternative Post-nominated Index, (A) the Relevant Rate Benchmark will be replaced with the Alternative Post-nominated Index, (B) the Calculation Agent shall apply the Adjustment Spread to the Alternative Post-nominated Index and (C) the Calculation Agent may, after taking into account any Adjustment Spread, make such other adjustments to any of the Conditions as are necessary to account for the effect on the Notes of referencing the Alternative Post-nominated Index. Notwithstanding the above, if, in respect of a Relevant Rate Benchmark, more than one Relevant Nominating Body formally designates, nominates or recommends (I) an Alternative Post-nominated Index or (II) in respect of the same Alternative Post-nominated Index, a spread or methodology for calculating a spread in relation to the replacement of the Relevant Rate Benchmark with that Alternative Post-nominated Index, in each case by Close of Business on the Cut-off Date, then the Calculation Agent cannot elect to apply the option described in this Rate Linked Asset Condition 3(b)(ii).
  - (iii) If there is a Calculation Agent Nominated Replacement Index, (A) the Relevant Rate Benchmark will be replaced with the Calculation Agent Nominated Replacement Index, (B) the Calculation Agent shall apply the Adjustment Spread to the Calculation Agent Nominated Replacement Index and (C) the Calculation Agent may, after taking into account any Adjustment Spread, make such other adjustments to any of the Conditions as are necessary to account for the effect on the Notes of referencing the Calculation Agent Nominated Replacement Index.
  - (iv) Upon giving notice to the Noteholders in accordance with General Condition 14 (*Notices*), the Issuer shall redeem all but not some only of the Notes, each Note being redeemed by payment of an amount equal to the Fair Market Value Redemption Amount.
- (c) If an Index Cessation Event occurs, the Cut-off Date will be the later of (i) 15 Business Days following the day on which the public statement is made or the information is published (in each case, as referred to in the definition of "Index Cessation Event") and (ii) the first day on which the Relevant Rate Benchmark is no longer available, provided that, if more than one Relevant Nominating Body formally designates, nominates or recommends an Alternative Post-nominated Index or a spread or methodology for calculating a spread in accordance with Rate Linked Asset Condition 3(b)(ii) and one or more of those Relevant Nominating Bodies does so on or after the day that is three Business Days before such date, then the Cut-off Date will instead be the second Business Day following the date that, but for this proviso, would have been the Cut-off Date.
- (d) If an Administrator/Benchmark Event occurs, the Cut-off Date will be the later of (i) 15 Business Days following the day on which the notice contemplated in the definition of "Administrator/Benchmark Event" is effective, and (ii) the Administrator/Benchmark Event Date, provided that, if more than one Relevant Nominating Body formally designates, nominates or recommends an Alternative Post-nominated Index or a spread or methodology for calculating a spread in accordance with Rate Linked Asset Condition 3(b)(ii) and one or more of those Relevant Nominating Bodies does so on or after the day that is three Business Days before such date, then the Cut-off Date will instead be the second Business Day following the date that, but for this proviso, would have been the Cut-off Date.
- (e) If, following a Benchmark Trigger Event, the Relevant Rate Benchmark is required for any determination in respect of the Notes and, at that time, the Calculation Agent has not elected to take one of the actions in Rate Linked Asset Condition 3(b), then, for the purposes of that determination:
- (i) if:
    - (A) in relation to an Index Cessation Event, the Relevant Rate Benchmark is still available;
    - or

(B) in relation to an Administrator/Benchmark Event, the Administrator/Benchmark Event Date has not yet occurred,

the level of the Relevant Rate Benchmark shall be determined pursuant to the terms that would apply to the determination of the Relevant Rate Benchmark as if no Benchmark Trigger Event had occurred;

- (ii) if (A) the Relevant Benchmark is no longer available or (B) the Administrator/Benchmark Event Date has occurred, the level of the Relevant Rate Benchmark shall be determined pursuant to the fallback(s), if any, provided in the Conditions of the Notes (including any applicable Asset Linked Conditions) to determine a level for the Relevant Rate Benchmark in circumstances in which the Relevant Rate Benchmark is not available and no Benchmark Trigger Event has occurred; or
  - (iii) if a level for the Relevant Rate Benchmark cannot be determined under sub-paragraph (i) or (ii) above, as applicable, the level of the Relevant Rate Benchmark shall be determined by reference to the rate published in respect of the Relevant Rate Benchmark at the time at which the Relevant Rate Benchmark is ordinarily determined on (A) the day on which the Relevant Rate Benchmark ceased to be available or (B) the Administrator/Benchmark Event Date, as applicable or, if no rate is published at that time or that rate cannot be used in accordance with applicable law or regulation, by reference to the rate published at that time on the last day on which the rate was published or can be used in accordance with applicable law or regulation, as applicable.
- (f) If, in respect of a Relevant Rate Benchmark, (i) an event or circumstance which would otherwise constitute or give rise to an Administrator/Benchmark Event also constitutes an Index Cessation Event or (ii) an Index Cessation Event and an Administrator/Benchmark Event would otherwise be continuing at the same time, it will, in either case, constitute an Index Cessation Event and will not constitute or give rise to an Administrator/Benchmark Event, provided that, if the date that would otherwise have been the Administrator/Benchmark Event Date would have occurred before the Relevant Rate Benchmark is no longer available, Rate Linked Condition 3(e) shall apply as if an Administrator/Benchmark Event had occurred.
- (g) For the purposes of Rate Linked Condition 3(b), the Adjustment Spread shall be determined by the Calculation Agent, provided that, in relation to an Alternative Post-nominated Index, if a spread or methodology for calculating a spread has been formally designated, nominated or recommended by any Relevant Nominating Body in relation to the replacement of the Relevant Rate Benchmark with the Alternative Post-nominated Index, then that spread shall apply or that methodology shall be used to determine the Adjustment Spread, as applicable.
- (h) Whenever the Calculation Agent is required to act, make a determination or to exercise judgement in any way under this Rate Linked Asset Condition 3, it will do so in good faith, in a commercially reasonable manner and by reference to any Relevant Market Data.
- (i) If, in respect of the Notes:
- (i) it is or would be unlawful at any time under any applicable law or regulation to determine the Relevant Benchmark in accordance with any applicable fallback (or it would be unlawful were a determination to be made at such time);
  - (ii) it would contravene any applicable licensing requirements to determine the Relevant Benchmark in accordance with any applicable fallback (or it would contravene those licensing requirements were a determination to be made at such time); or
  - (iii) the Calculation Agent determines that the Adjustment Spread is or would be a benchmark, index or other price source whose production, publication, methodology or governance would subject the Calculation Agent or the Issuer to material additional regulatory obligations,

then the Relevant Benchmark shall be determined in accordance with the next applicable fallback (applied in accordance with its terms) provided that, in respect of sub-paragraph (i) and (ii) above, the next applicable fallback shall be the first applicable fallback that complies with the applicable law, regulation or licensing requirements.

- (j) Following a Benchmark Trigger Event, the Issuer shall give notice as soon as practicable to the Noteholders in accordance with General Condition 14 (*Notices*) stating the occurrence of the Benchmark Trigger Event, giving details thereof and the action that the Calculation Agent propose to take in relation thereto in accordance with this Rate Linked Asset Condition 3.

#### 4. OTHER EVENTS

This Condition will apply to the Notes unless specified as being not applicable in the applicable Final Terms. Notwithstanding the foregoing provisions of these Rate Linked Asset Conditions, if any other event occurs which the Calculation Agent determines, acting in good faith, has a material effect on the Notes, then:

- (a) the Calculation Agent may make such adjustments to any of the Conditions as it considers appropriate to account for any such event and determine the date(s) on which any such adjustments will be effective; or
- (b) the Issuer may, upon giving notice to the Noteholders in accordance with General Condition 14 (*Notices*), redeem all but not some only of the Notes, each Note being redeemed by payment of an amount equal to the Fair Market Value Redemption Amount. Payments will be made in such manner as shall be notified to the Noteholders in accordance with General Condition 14 (*Notices*); or
- (c) the Issuer may, in its sole and absolute discretion, upon giving notice to the Noteholders in accordance with General Condition 14 (*Notices*), elect to redeem on the Maturity Date all but not some only of the Notes, each Note being redeemed on the Maturity Date by payment of an amount equal to the Monetisation Amount in accordance with the provisions of Redemption Method Condition 6 (*Monetisation*) of Annex 6 (*Redemption Method Conditions*).

### 3. EVENTS RELATING TO ETF LINKED NOTES

#### 3.1 Market Disruption Events, Disrupted Days and Consequences

(a) Definitions

**Market Disruption Event** means, in respect of an ETF, the occurrence or existence of (i) a Trading Disruption, (ii) an Exchange Disruption, which, in either case, the Calculation Agent determines, is material, at any time during the one-hour period that ends at the relevant Valuation Time or (iii) an Early Closure, each as defined below:

- (i) **Trading Disruption** means, in respect of an ETF, any suspension of or limitation imposed on trading by the relevant Exchange or Related Exchange or otherwise and whether by reason of movements in price exceeding limits permitted by the relevant Exchange or Related Exchange or otherwise (A) relating to the ETF on the Exchange or (B) in futures or options contracts relating to the ETF on any relevant Related Exchange.
- (ii) **Exchange Disruption** means, in respect of an ETF, any event (other than an Early Closure) that disrupts or impairs (as determined by the Calculation Agent) the ability of market participants in general to effect transactions in, or obtain market values for (A) the ETF on the Exchange, or (B) futures or options contracts relating to the ETF on any relevant Related Exchange.
- (iii) **Early Closure** means, the closure on any Exchange Business Day of (A) the relevant Exchange, or (B) any Related Exchange, prior to its Scheduled Closing Time unless such earlier closing is announced by such Exchange or Related Exchange (as the case may be) at least one hour prior to the earlier of (I) the actual closing time for the regular trading session on such Exchange or Related Exchange (as the case may be) on such Exchange Business Day and (II) the submission deadline for orders to be entered into the Exchange or Related Exchange system for execution at the relevant Valuation Time on such Exchange Business Day.

(b) Consequences of the occurrence of Disrupted Days

If an Observation Date is a Disrupted Day, then:

- (i) in the case of ETF Linked Notes relating to a single ETF, the Calculation Agent may:
  - (A) postpone the Observation Date, in which case the Observation Date will be the first immediately succeeding Scheduled Trading Day that is not a Disrupted Day (the **ETF Determination Date**), unless each consecutive Scheduled Trading Day up to and including the Disruption Longstop Date is a Disrupted Day, in which case (I) the Disruption Longstop Date shall be deemed to be the Observation Date, notwithstanding the fact that such day is a Disrupted Day and (II) the Calculation Agent shall determine its good faith estimate of the ETF Closing Price as of the Valuation Time for such Disruption Longstop Date; or
  - (B) determine the relevant ETF Closing Price (or a method for determining an ETF Closing Price) for such day, taking into consideration the latest available relevant ETF Closing Price and any other information that in good faith it deems relevant,
- (ii) in the case of ETF Linked Notes relating to a Basket of ETFs:
  - (A) for each ETF not affected by the occurrence of a Disrupted Day, the Observation Date shall be the Scheduled Observation Date; and

- (B) for each ETF affected (each an **Affected ETF**) by the occurrence of a Disrupted Day, the Calculation Agent may:
  - (I) postpone the Observation Date, in which case the Observation Date will be the ETF Determination Date relating to such Affected ETF, unless each consecutive Scheduled Trading Day up to and including the Disruption Longstop Date is a Disrupted Day relating to such Affected ETF, in which case (1) the Disruption Longstop Date shall be deemed to be the Observation Date, notwithstanding the fact that such day is a Disrupted Day relating to the relevant Affected ETF and (2) the Calculation Agent shall determine its good faith estimate of the ETF Closing Price for the relevant Affected ETF as of the Valuation Time for such Disruption Longstop Date; in case of multiple Affected ETFs, the latest ETF Determination Date will be the ETF Determination Date for the purpose of ETF Linked Asset Condition 1(a) above; or
  - (II) determine the ETF Closing Price (or a method for determining an ETF Closing Price) of the Affected ETF for such day, taking into consideration the latest available quotation for the relevant ETF Closing Price and any other information that in good faith it deems relevant,
- (iii) if the Calculation Agent is not able to or does not determine the ETF Closing Price in accordance with ETF Linked Asset Condition 3.1(b)(i) or ETF Linked Asset Condition 3.1(b)(ii) above, as the case may be, or if such determination would not, in the opinion of the Calculation Agent, account for the occurrence of the Disrupted Day:
  - (A) the Calculation Agent may make such adjustments to any of the Conditions as it considers appropriate to account for any such Disrupted Day and determine the date(s) on which any such adjustments will be effective. In making any such adjustments, the Calculation Agent may take into account the equivalent adjustment(s) which would be made to an exchange traded fund derivative transaction in the interbank market following the relevant event occurring and where the Calculation Agent deems appropriate (in its sole and absolute discretion), adjust the Conditions to give effect to such adjustment(s); or
  - (B) if the Calculation Agent is not able to or does not determine any adjustments for the purposes of sub-paragraph (iii)(A), the Issuer may, in its sole and absolute discretion, upon giving notice to the Noteholders in accordance with General Condition 14 (*Notices*), redeem all but not some only of the Notes, each Note being redeemed by payment of an amount equal to the Fair Market Value Redemption Amount. Payments will be made in such manner as shall be notified to the Noteholders in accordance with General Condition 14 (*Notices*); or
  - (C) if the Calculation Agent is not able to or does not determine any adjustments for the purposes of sub-paragraph (iii)(A), the Issuer may, in its sole and absolute discretion, upon giving notice to the Noteholders in accordance with General Condition 14 (*Notices*), elect to redeem on the Maturity Date all but not some only of the Notes, each Note being redeemed on the Maturity Date by payment of an amount equal to the Monetisation Amount in accordance with the provisions of Redemption Method Condition 6 (*Monetisation*) of Annex 6 (*Redemption Method Conditions*); and
- (iv) the Calculation Agent shall give notice as soon as practicable to the Noteholders in accordance with General Condition 14 (*Notices*) of the occurrence of a Disrupted Day on an Observation Date. Such notice shall give the details of such Disrupted Day and the action proposed to be taken by the Calculation Agent in relation thereto.

(c) Averaging Date Disruption

If any Averaging Date is a Disrupted Day, then, where the consequence specified for "Averaging Date Disruption" in the applicable Final Terms is:

- (i) "Omission", then such Averaging Date will be deemed not to be a relevant Averaging Date for purposes of determining the relevant ETF Closing Price, and if through the operation of this provision no Averaging Date would occur with respect to the relevant Observation Date, ETF Linked Asset Condition 3.1(b) will apply for purposes of determining the relevant price or amount on the final Averaging Date in respect of that Observation Date as if such final Averaging Date were an Observation Date that was a Disrupted Day;
- (ii) "Postponement", then ETF Linked Asset Condition 3.1(b) will apply for purposes of determining the relevant price or amount on that Averaging Date as if such Averaging Date were an Observation Date that was a Disrupted Day, irrespective of whether, pursuant to such determination, that deferred Averaging Date would fall on a date that already is or is deemed to be an Averaging Date for the relevant ETF; or
- (iii) "Modified Postponement", then:
  - (A) in the case of a Basket of ETFs, the Averaging Date for each ETF not affected by the occurrence of a Disrupted Day shall be the date specified in the applicable Final Terms as an Averaging Date in respect of the relevant Observation Date and the Averaging Date for any ETF affected by the occurrence of a Disrupted Day shall be the first succeeding Scheduled Trading Day in relation to such ETF that is not a Disrupted Day in relation to such ETF and on which another Averaging Date in respect of the relevant Observation Date does not or is not deemed to occur, and if the first succeeding Scheduled Trading Day has not occurred prior to the Averaging Disruption Longstop Date, then (I) the Averaging Disruption Longstop Date shall be deemed the Averaging Date (irrespective of whether such day is already an Averaging Date), and (II) the Calculation Agent shall determine the relevant price or amount for that Averaging Date in accordance with ETF Linked Asset Condition 3.1(b); and
  - (B) otherwise, the Averaging Date shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day and on which another Averaging Date in respect of the relevant Observation Date does not or is not deemed to occur, and if the first succeeding Scheduled Trading Day has not occurred prior to the Averaging Disruption Longstop Date, then (I) the Averaging Disruption Longstop Date shall be deemed the Averaging Date (irrespective of whether such day is already an Averaging Date), and (II) the Calculation Agent shall determine the relevant price or amount for that Averaging Date in accordance with ETF Linked Asset Condition 3.1(b).

### 3.2 Potential Adjustment Events

(a) Definitions

**Potential Adjustment Event** means the occurrence of any of the following at any time on or after the Trade Date:

- (b) a distribution, issue or dividend to existing holders of the relevant ETF Units of (i) an additional quantity of such ETF Units or (ii) other share capital or securities granting the right to payment of dividends and/or the proceeds of liquidation of the ETF equally or proportionately with such payments to holders of such ETF Units or (iii) share capital or other securities of another issuer

acquired or owned (directly or indirectly) by the ETF as a result of a spin-off or other similar transaction or (iv) any other type of securities, rights or warrants or other assets, in any case for payment (in cash or otherwise) at less than the prevailing market price as determined by the Calculation Agent;

- (c) an extraordinary dividend paid by the ETF;
  - (d) a repurchase by the ETF of relevant ETF Units whether the consideration for such repurchase is cash, securities or otherwise, other than in respect of a redemption of ETF Units initiated by an investor in such ETF that is consistent with the ETF Documents; or
  - (e) any other event that may have a diluting or concentrative effect on the theoretical value of the ETF or quantity of ETF Units.
- (b) Consequences of the occurrence of a Potential Adjustment Event

Following the occurrence of any Potential Adjustment Event, the Calculation Agent will, in its sole and absolute discretion, determine whether such Potential Adjustment Event has a diluting or concentrative effect on the theoretical value of the ETF or Basket of ETF and, if so:

- (i) the Calculation Agent may make such adjustments to any of the Conditions as it considers appropriate to preserve the economic equivalent of the obligations of the Issuer under the Notes and determine the date(s) on which any such adjustments will be effective. In making any such adjustments, the Calculation Agent may take into account the equivalent adjustment(s) which would be made to an exchange traded fund derivative transaction in the interbank market following the relevant event occurring and where the Calculation Agent deems appropriate (in its sole and absolute discretion), adjust the Conditions to give effect to such adjustment(s); or
- (ii) if the Calculation Agent is not able to or does not determine any adjustments for the purposes of sub-paragraph (i) above, the Issuer may, in its sole and absolute discretion, upon giving notice to the Noteholders in accordance with General Condition 14 (*Notices*), (A) redeem all but not some only of the Notes, each Note being redeemed by payment of an amount equal to the Fair Market Value Redemption Amount. Payments will be made in such manner as shall be notified to the Noteholders in accordance with General Condition 14 (*Notices*) or (B) elect to redeem on the Maturity Date all but not some only of the Notes, each Note being redeemed on the Maturity Date by payment of an amount equal to the Monetisation Amount in accordance with the provisions of Redemption Method Condition 6 (*Monetisation*) of Annex 6 (*Redemption Method Conditions*).

Upon the occurrence of a Potential Adjustment Event, the Issuer shall give notice as soon as practicable to the Noteholders in accordance with General Condition 14 (*Notices*) stating the occurrence of the Potential Adjustment Event, giving details thereof and the action proposed to be taken in relation thereto.

- (c) Adjustments to Certain ETF Linked Notes in European Currencies

In respect of any ETF originally quoted, listed and/or dealt as of the Trade Date in a currency of a member state of the European Union that has not adopted the single currency in accordance with the Treaty, if such ETF are at any time after the Trade Date quoted, listed and/or dealt exclusively in Euro on the relevant Exchange or, where no Exchange is specified, the principal market on which those ETF are traded, then the Calculation Agent may make the corresponding adjustment, if any, to any relevant term(s) of the ETF Linked Notes as the Calculation Agent determines appropriate to preserve the economic terms of the ETF Linked Note. The Calculation Agent will make any conversion necessary for the purposes of any such adjustment as of the Valuation Time at the appropriate mid-market spot rate of exchange determined by the Calculation Agent prevailing as of the Valuation Time. No adjustments under this paragraph will affect the currency denomination of any payment obligation arising out of the ETF Linked Note.

### 3.3 Extraordinary Events and consequences

- (a) Upon the occurrence as determined by the Calculation Agent, of any of the following events (each an **Extraordinary Event**) on or after the Trade Date:

- (A) the Calculation Agent may make such adjustments to any of the Conditions as it considers appropriate to account for any such Disrupted Day and determine the date(s) on which any such adjustments will be effective. In making any such adjustments, the Calculation Agent may take into account the equivalent adjustment(s) which would be made to an equity derivative transaction in the market following the relevant event occurring and where the Calculation Agent deems appropriate (in its sole and absolute discretion), adjust the Conditions to give effect to such adjustment(s); or

(iv) the Calculation Agent shall give notice as soon as practicable to the Noteholders in accordance with General Condition 14 (*Notices*) of the occurrence of a Disrupted Day on an Observation Date. Such notice shall give the details of such Disrupted Day and the action proposed to be taken by the Calculation Agent in relation thereto; and

(c) Averaging Date Disruption

If any Averaging Date is a Disrupted Day, then, where the consequence specified for "Averaging Date Disruption" in the applicable Final Terms is:

(i) "Omission", then such Averaging Date will be deemed not to be a relevant Averaging Date for purposes of determining the relevant Share Price, and if through the operation of this provision no Averaging Date would occur with respect to the relevant Observation Date, Share Linked Asset Condition 3.1(b) will apply for purposes of determining the relevant price or amount on the final Averaging Date in respect of that Observation Date as if such final Averaging Date were an Observation Date that was a Disrupted Day;

(ii) "Postponement", then Share Linked Asset Condition 3.1(b) will apply for purposes of determining the relevant price or amount on that Averaging Date as if such Averaging Date were an Observation Date that was a Disrupted Day, irrespective of whether, pursuant to such determination, that deferred Averaging Date would fall on a date that already is or is deemed to be an Averaging Date for the relevant Share; or

(iii) "Modified Postponement", then:

(A) in the case of a Basket of Shares, the Averaging Date for each Share not affected by the occurrence of a Disrupted Day shall be the date specified in the applicable Final Terms as an Averaging Date in respect of the relevant Observation Date and the Averaging Date for any Share affected by the occurrence of a Disrupted Day shall be the first succeeding Scheduled Trading Day in relation to such Share that is not a Disrupted Day in relation to such Share and on which another Averaging Date in respect of the relevant Observation Date does not or is not deemed to occur, and if the first succeeding Scheduled Trading Day has not occurred prior to the Averaging Disruption Longstop Date, then (I) the Averaging Disruption Longstop Date shall be deemed the Averaging Date (irrespective of whether such day is already an Averaging Date), and (II) the Calculation Agent shall determine the relevant price or amount for that Averaging Date in accordance with Share Linked Asset Condition 3.1(b); and

(B) otherwise, the Averaging Date shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day in relation to such Share and on which another Averaging Date in respect of the relevant Observation Date does not or is not deemed to occur, and if the first succeeding Scheduled Trading Day has not occurred prior to the Averaging Disruption Longstop Date, then (I) the Averaging Disruption Longstop Date shall be deemed the Averaging Date (irrespective of whether such day is already an Averaging

Date), and (II) the Calculation Agent shall determine the relevant price or amount for that Averaging Date in accordance with Share Linked Asset Condition 3.1(b).

### 3.2 Adjustment and Redemption Events

#### (a) Potential Adjustment Events

##### (i) Definitions

**Potential Adjustment Event** means the occurrence of any of the following at any time on or after the Trade Date:

- (B) a distribution, issue or dividend (whether ordinary or extraordinary) to existing holders of the relevant Shares of (I) such Shares or (II) other share capital or securities granting the right to payment of dividends and/or the proceeds of liquidation of the Basket Company or Share Company, as the case may be, equally or proportionately with such payments to holders of such Shares or (III) share capital or other securities of another issuer acquired or owned (directly or indirectly) by the Basket Company or Share Company, as the case may be, as a result of a spin-off or other similar transaction or (IV) any other type of securities, rights or certificates or other assets, in any case for payment (in cash or in other consideration) at less than the prevailing market price as determined by the Calculation Agent;
- (C) an extraordinary dividend;
- (D) a call by a Basket Company or Share Company, as the case may be, in respect of relevant Shares that are not fully paid;
- (E) a repurchase by the Basket Company or any of its subsidiaries or Share Company or any of its subsidiaries, as the case may be, of relevant Shares whether out of profits or capital and whether the consideration for such repurchase is cash, securities or otherwise;
- (F) in respect of a Basket Company or Share Company, as the case may be, an event that results in any shareholder rights being distributed or becoming separated from shares of common stock or other shares of the capital stock of such Basket Company or Share Company, as the case may be, pursuant to a shareholder rights plan or arrangement directed against hostile takeovers that provides upon the occurrence of certain events for a distribution of preferred stock, certificates, debt instruments or stock rights at a price below their market value as determined by the Calculation Agent, provided that any adjustment effected as a result of such an event shall be readjusted upon any redemption of such rights; or
- (G) any other event having, in the opinion of the Calculation Agent, a diluting or concentrative effect on the theoretical value of the relevant Shares.

##### (ii) Consequences of the occurrence of a Potential Adjustment Event

Following the declaration by the Basket Company or Share Company, as the case may be, of the terms of any Potential Adjustment Event, the Calculation Agent will, in its sole and absolute discretion, determine whether such Potential Adjustment Event has a diluting or concentrative effect on the theoretical value of the Shares and, if so:

- (A) the Calculation Agent may (I) make the corresponding adjustment, if any, to any relevant term(s) of the Notes, as the Calculation Agent in its sole and absolute discretion determines appropriate to account for that diluting or concentrative effect (provided that no adjustments will be made to account solely for changes in volatility, expected dividends, stock loan rate or liquidity relative to the relevant Share) and (II) determine the effective date of that adjustment; the Calculation Agent may, but need not, determine the appropriate adjustment by reference to the adjustment in respect of such Potential Adjustment Event made by an options exchange to options on the Shares traded on that options exchange;
- (B) if the Calculation Agent is not able to or does not determine any adjustments for the purposes of sub-paragraphs (A) above, the Issuer may, in its sole and absolute discretion, upon giving notice to the Noteholders in accordance with General Condition 14 (*Notices*), redeem all but not some only of the Notes, each Note being redeemed by payment of an amount equal to the Fair Market Value Redemption Amount; payments will be made in such manner as shall be notified to the Noteholders in accordance with General Condition 14 (*Notices*); or
- (C) if the Calculation Agent is not able to or does not determine any adjustments for the purposes of sub-paragraphs (A) above, the Issuer may, in its sole and absolute discretion, upon giving notice to the Noteholders in accordance with General Condition 14 (*Notices*), elect to redeem on the Maturity Date all but not some only of the Notes, each Note being redeemed on the Maturity Date by payment of an amount equal to the Monetisation Amount in accordance with the provisions of Redemption Method Condition 6 (*Monetisation*) of Annex 6 (*Redemption Method Conditions*).

Upon the making of any such adjustment by the Calculation Agent, the Calculation Agent shall give notice as soon as practicable to the Noteholders in accordance with General Condition 14 (*Notices*), stating the adjustment to any relevant term(s) of the Notes and giving brief details of the Potential Adjustment Event.

(iii) Adjustments to Certain Share Linked Notes in European Currencies

In respect of any Shares originally quoted, listed and/or dealt as of the Trade Date in a currency of a member state of the European Union that has not adopted the single currency in accordance with the EU Treaty, if such Shares are at any time after the Trade Date quoted, listed and/or dealt exclusively in Euro on the relevant Exchange or, where no Exchange is specified, the principal market on which those Shares are traded, then the Calculation Agent may make the corresponding adjustment, if any, to any relevant term(s) of the Notes as the Calculation Agent determines appropriate to preserve the economic terms of the Share Linked Note. The Calculation Agent will make any conversion necessary for the purposes of any such adjustment as of the Valuation Time at an appropriate mid-market spot rate of exchange determined by the Calculation Agent prevailing as of the Valuation Time. No adjustments under this paragraph will affect the currency denomination of any payment obligation arising out of the Share Linked Note.

- (I) require the Calculation Agent to determine in its sole and absolute discretion the appropriate adjustment, if any, to be made to any of the Conditions of the Notes to account for the Merger Event, Tender Offer, De-Listing, Nationalisation or Insolvency, as the case may be, and determine the effective date of that adjustment; the relevant adjustments may include, without limitation, adjustments to account for changes in volatility, expected dividends, stock loan rate or liquidity relevant to the Shares or to the Notes; the Calculation Agent may (but need not) determine the appropriate adjustment by reference to the adjustment in respect of the Merger Event, Tender Offer, De-Listing, Nationalisation or Insolvency, as the case may be, made by any options exchange to options on the Shares traded on that options exchange; or
  - (II) by giving notice to Noteholders in accordance with General Condition 14 (*Notices*), redeem all but not some only of the Notes, each Note being redeemed by payment of an amount equal to the Fair Market Value Redemption Amount of a Note taking into account the relevant Extraordinary Event(s); or

  - (IV) in the case of Share Linked Notes relating to a Basket of Shares, on or after the relevant Merger Date, Tender Offer Date, or the date of the Nationalisation, Insolvency or De-Listing (as the case may be), require the Calculation Agent to adjust the Basket of Shares by including shares selected by it in accordance with the criteria for share selection set out below (the **Substitute Shares**) in place of the Affected Share(s) and the Substitute Shares will be deemed to be Shares and the relevant issuer of such shares, a Share Company or a Basket Company for the purposes of the Notes, and the Calculation Agent will make such adjustment, if any, to the Conditions of the Notes as the Calculation Agent in its sole and absolute discretion determines appropriate; such substitution and the relevant adjustment to the Basket of Shares will be deemed to be effective as of the date selected by the Calculation Agent (the **Substitution Date**) in its sole and absolute discretion and specified in the notice referred to below which may, but need not, be the Merger Date or Tender Offer Date or the date of the Nationalisation, Insolvency or De-Listing, as applicable.

The Weighting of each Substitute Share (if any) will be equal to the Weighting of the relevant Affected Share.

- (B) In order to be selected as a Substitute Share, the relevant share must be a share which, in the sole and absolute discretion of the Calculation Agent:
- (I) is not already comprised in the Basket of Shares;

(c) **Insolvency Filing**

If an Insolvency Filing (as determined by the Calculation Agent) occurs, the Issuer in its sole and absolute discretion may:

- (i) require the Calculation Agent to make such adjustments to any of the Conditions as it considers appropriate in its sole and absolute discretion to account for such Insolvency Filing and determine the date(s) on which any such adjustments will be effective; or
- (ii) upon giving notice to the Noteholders in accordance with General Condition 14 (*Notices*), redeem all but not some only of the Notes, each Note being redeemed by payment of an amount equal to the Fair Market Value Redemption Amount. Payments will be made in such manner as shall be notified to the Noteholders in accordance with General Condition 14 (*Notices*); or
- (iii) upon giving notice to the Noteholders in accordance with General Condition 14 (*Notices*), elect to redeem on the Maturity Date all but not some only of the Notes, each Note being redeemed on the Maturity Date by payment of an amount equal to the Monetisation Amount in accordance with the provisions of Redemption Method Condition 6 (*Monetisation*) of Annex 6 (*Redemption Method Conditions*)

Upon the occurrence of an Insolvency Filing, the Issuer shall give notice as soon as practicable to the Noteholders in accordance with General Condition 14 (*Notices*) stating the occurrence of such Insolvency Filing and giving details thereof and the action proposed to be taken in relation thereto.

Corrections published after the day, which is three Exchange Business Days prior to a due date for payment under the Notes calculated by reference to the price of a Share will be disregarded by the Calculation Agent for the purposes of determining the relevant amount to be paid.

### 3.3 Additional Disruption Events

**Hedging Disruption** means, unless Hedging Disruption is specified as not applicable in the applicable Final Terms, that:

- (a) the Issuer and/or any of its Affiliates is unable, after using commercially reasonable efforts, to (i) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge any relevant price risk (including but not limited to the currency risk and equity price risk) of the Issuer and/or any of its Affiliates in issuing and performing its obligations with respect to the Notes, or (ii) realise, recover, remit, receive, repatriate or transfer the proceeds of any such transaction(s) or asset(s); or

**Increased Cost of Hedging** means, unless Increased Cost of Hedging is specified as not applicable in the applicable Final Terms, that the Issuer and/or any of its Affiliates would incur a materially increased (as compared with circumstances existing on the Trade Date) amount of tax, duty, expense or fee (other than brokerage commissions) to (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the equity risk, foreign exchange risk and interest rate risk of the Issuer and/or any of its Affiliates, in issuing and performing its obligations with respect to the Notes, or (b) realise, recover or remit the proceeds of any such transaction(s) or asset(s), provided that any such materially increased amount that is incurred solely due to the deterioration of the creditworthiness of the Issuer and/or any of its Affiliates shall not be deemed an Increased Cost of Hedging.

Where "Additional Disruption Event" is specified in the applicable Final Terms as being applicable and if an Additional Disruption Event occurs on or after the Trade Date, the Issuer in its sole and absolute discretion may:

- (i) require the Calculation Agent to make such adjustments to any of the Conditions as it considers appropriate in its sole and absolute discretion to account for such Additional Disruption Event and determine the date(s) on which any such adjustments will be effective; or
- (ii) upon giving notice to the Noteholders in accordance with General Condition 14 (*Notices*), redeem all but not some only of the Notes, each Note being redeemed by payment of an amount equal to the Fair Market Value Redemption Amount. Payments will be made in such manner as shall be notified to the Noteholders in accordance with General Condition 14 (*Notices*).

Upon the occurrence of an Additional Disruption Event, the Issuer shall give notice as soon as practicable to the Noteholders in accordance with General Condition 14 (*Notices*) stating the occurrence of the Additional Disruption Event, giving details thereof and the action proposed to be taken in relation thereto.

### **3.4 Other Events**

This Condition will apply to the Notes unless specified as being not applicable in the applicable Final Terms. Notwithstanding the foregoing provisions of these Share Linked Asset Conditions, if any other event occurs which the Calculation Agent determines, acting in good faith, has a material effect on the Notes, then:

- (a) the Calculation Agent may make such adjustments to any of the Conditions as it considers appropriate to account for any such event and determine the date(s) on which any such adjustments will be effective; or
- (b) the Issuer may, upon giving notice to the Noteholders in accordance with General Condition 14 (*Notices*), redeem all but not some only of the Notes, each Note being redeemed by payment of an amount equal to the Fair Market Value Redemption Amount. Payments will be made in such manner as shall be notified to the Noteholders in accordance with General Condition 14 (*Notices*); or

Upon the Calculation Agent making a determination pursuant to this Share Linked Asset Condition 3.4, the Issuer shall give notice as soon as practicable to Noteholders in accordance with General Condition 14 (*Notices*) giving details of such determination.

## **4. PHYSICAL SETTLEMENT**

### **4.1 Delivery and payment**

- (a) If "Physical Settlement" is specified as being applicable in the applicable Final Terms, then, upon a redemption of the Notes in accordance with General Condition 6.1 (*Redemption by Instalments and Final Redemption*), the Issuer, or any third party appointed at its discretion, shall, on or prior to the related Physical Settlement Date and subject to Share Linked Asset Condition 4.1(b), Share Linked Asset Condition 4.2 (*Partial Cash Settlement Due to Impossibility, Impracticality or Illegality*), Share Linked Asset Condition 4.3 (*Non-Delivery of Shares*) and Share Linked Asset Condition 4.5 (*Asset Transfer Notice*), redeem such Share Linked Note or, in the case of Share Linked Notes linked to a Basket of Shares, the relevant portion thereof determined in accordance with Share Linked Asset Condition 4.7 (*Basket Share Linked Notes*), respectively, by Delivering the Physical Settlement Amount in lieu of paying the Final Redemption Amount or Instalment Redemption Amount, as the case may be. In the event the Number of Shares comprises any Fractional Share, the Physical Settlement Amount to be Delivered in respect of

each Note will include only the Number of Shares to be Delivered and a Fractional Share Amount will be payable by the Issuer to the relevant Noteholder in lieu of such Fractional Share.

- (b) If "Cash or Physical Settlement" is specified as being applicable in the relevant Final Terms, Share Linked Asset Condition 4.1(a) shall only apply in the circumstances in which Physical Settlement is deemed to apply in the manner set out in Redemption Method Condition 5 (as set out in Annex 6 (*Redemption Method Conditions*)).
- (c) If (i) either "Physical Settlement" or "Cash or Physical Settlement" is specified as being applicable in the applicable Final Terms and (ii) the Issuer determines (in its sole discretion) that there is a Dividend Amount, the Issuer will, in addition to Delivery of the Physical Settlement Amount and payment of any Fractional Share Amount in accordance with Share Linked Asset Condition 4.1(a) above, pay to each Noteholder the Dividend Pass-through Amount on, or as soon as practicable after, the date on which such Delivery takes place.

For the purpose of the above:

**Dividend Amount** means any amount received (after taking into account any withholding or deduction for or on account of taxes and duties but not including any tax credits) by the Issuer and/or any of its Affiliates pursuant to a Hedge Transaction on account of a dividend paid in relation to a Share which forms part of the Physical Settlement Amount in the period from, but excluding, the Observation Date relating to the Redemption Date (or if there is no such Observation Date, such other date as is determined by the Calculation Agent) to, but excluding, the date on which Delivery of the Physical Settlement Amount takes place and converted where necessary into the Settlement Currency using the Currency Rate.

**Dividend Pass-through Amount** means an amount, per Specified Denomination, equal to a *pro rata* share of the Dividend Amount provided that (a) where the Notes are due to be redeemed by way of payment of the Final Redemption Amount or Instalment Redemption Amount, the Dividend Pass-through Amount shall be zero and (b) where some or all of the Notes are redeemed by payment of the Partial Cash Settlement Amount, the Dividend Pass-through Amount shall be zero.

**Hedge Transaction** means any transaction(s) or asset(s) deemed necessary by the Issuer and/or any of its Affiliates and which is entered into or acquired by such party solely to hedge the equity price risk in relation to the Issuer issuing and performing its obligations with respect to the Notes.

#### 4.2 Partial Cash Settlement Due to Impossibility, Impracticality or Illegality

If, due to an event beyond the control of the Issuer, it is in the opinion of the Calculation Agent, impossible (including, without limitation, as a result of a Settlement Disruption Event), impractical (including, without limitation, due to the Issuer receiving insufficient or incorrect account or transfer information or there is illiquidity in the market for the Shares) or illegal for the Issuer to Deliver or, due to an event beyond the control of the Issuer or any Noteholder, it is in the opinion of the Calculation Agent impossible, impractical or illegal for the Issuer or the relevant Noteholder to accept Delivery of all the Shares on the related Physical Settlement Date, then on such date the Issuer shall Deliver any of the Shares for which it is possible, practicable and legal to take Delivery and will continue to attempt to Deliver any Shares not so Delivered until the Latest Permissible Physical Settlement Date. If any Undeliverable Shares have not been Delivered on or prior to the Latest Permissible Physical Settlement Date, then partial cash settlement shall apply with respect to the Share(s) and, accordingly, the Issuer shall pay the relevant Noteholders an amount equal to the Partial Cash Settlement Amount to be apportioned amongst the relevant Noteholders on the Partial Cash Settlement Date.

#### 4.3 Non-Delivery of Shares

If (a) the Issuer does not Deliver any Share other than as a result of an event or circumstance contemplated in Share Linked Asset Condition 4.2 (*Partial Cash Settlement Due to Impossibility, Impracticality or Illegality*) or (b) the Noteholder fails to comply with the procedures set out in this Share Linked Asset Condition 4, such failure shall

not constitute an event of default for the purpose of the Notes and the Issuer may continue to attempt to Deliver the Share until the Latest Permissible Physical Settlement Date.

If, as at the relevant Latest Permissible Physical Settlement Date, the relevant Share has not been Delivered, then partial cash settlement shall apply with respect to such Share and the Issuer shall pay to the Noteholders an amount equal to the Partial Cash Settlement Amount to be apportioned *pro rata* amongst the Noteholders on the Partial Cash Settlement Date.

#### 4.4 Delivery and Fees

The Delivery of any of the Shares pursuant to the provisions of this Share Linked Asset Condition 4 shall be made in such commercially reasonable manner as the Issuer shall, in its sole discretion, determine to be appropriate for such Delivery. Subject as set out in the definition of "Deliver", all expenses including, without limitation, any applicable depository charges, transaction or exercise charges, stamp duty, stamp duty reserve tax and/or other taxes or duties (together the Delivery Expenses) arising from the Delivery and/or transfer of the Physical Settlement Amount shall be for the account of the relevant Noteholder and no Delivery and/or transfer of the Physical Settlement Amount shall be made until all Delivery Expenses have been paid to the satisfaction of the Delivery Agent by the relevant Noteholder.

Delivery and/or transfer of the Shares shall be delayed until all expenses relating to such Delivery or transfer payable by the Noteholders have been paid to the satisfaction of the Issuer.

#### 4.5 Asset Transfer Notice

A Noteholder will not be entitled to any of the amounts or assets specified as being due to it in this Share Linked Asset Condition 4 unless it has complied with Share Linked Asset Condition 4.6 (*Physical Settlement Procedures*). For so long as the Share Linked Notes are held in any clearing system, any communication from such clearing system on behalf of the Noteholder containing the information required in an Asset Transfer Notice will be treated as an Asset Transfer Notice. For as long as Notes are represented by a Global Note, surrender of Share Linked Notes for such purpose will be effected by presentation of the Global Note and its endorsement to Note the nominal amount of Share Linked Notes to which the relevant Asset Transfer Notice relates.

#### 4.6 Physical Settlement Procedures

##### (a) *Procedure by Noteholders*

**Transfer Notice**) (a copy of which may be obtained from the specified office of any of the Paying Agents) with a copy to the Issuer.

    - (C) irrevocably instruct and authorise Euroclear or Clearstream, Luxembourg, as the case may be, to debit the relevant Noteholder's account with such Share Linked Notes on the date on which such Share Linked Notes are redeemed in accordance with Share Linked Asset Condition 4.1 (*Delivery and payment*);

### 3. EVENTS RELATING TO FUND LINKED NOTES

#### 3.1 Disrupted Days and Consequences

(a) Consequences of the occurrence of Disrupted Days

The Calculation Agent shall, as soon as reasonably practicable under the circumstances, notify the Issuer of the occurrence of a Disrupted Day on any day that, but for the occurrence or continuance of a Disrupted Day, would have been an Observation Date. Without limiting the obligation of the Calculation Agent to notify the parties as set forth in the preceding sentence, failure by the Calculation Agent to notify the parties of the occurrence of a Disrupted Day shall not affect the validity of the occurrence and the effect of such Disrupted Day. In addition, if any Observation Date is a Disrupted Day, then:

- (i) in the case of Fund Linked Notes relating to a single Fund Interest, the Calculation Agent may:
  - (A) postpone the Observation Date, in which case:
    - (I) in respect of a Fund Interest where the Fund Price is to be determined in accordance with sub-paragraph (b)(i) of the definition thereof, the Observation Date will be the first immediately succeeding Fund Business Day that is not a Disrupted Day (the **Fund Determination Date**), unless each consecutive Fund Business Day up to and including the Disruption Longstop Date is a Disrupted Day, in which case (1) the Disruption Longstop Date shall be deemed to be the Observation Date, notwithstanding the fact that such day is a Disrupted Day and (2) the Calculation Agent shall determine its good faith estimate of the value for the Fund Interest as of the Valuation Time and the Disruption Longstop Date; and
    - (II) in respect of a Fund Interest where the Fund Price is to be determined in accordance with sub-paragraphs (b)(ii) – (v) of the definition thereof, the Observation Date will be the first immediately succeeding Currency Business Day that is not a Disrupted Day (the **Fund Determination Date**), unless each consecutive Currency Business Day up to and including the Disruption Longstop Date is a Disrupted Day, in which case (1) the Disruption Longstop Date shall be deemed to be the Observation Date, notwithstanding the fact that such day is a Disrupted Day and (2) the Calculation Agent shall determine its good faith estimate of the value for the Fund Interest as of the Valuation Time and the Disruption Longstop Date; or
  - (B) determine its good faith estimate of the net asset value for the relevant Fund Interest Unit for such day, taking into consideration any information that in good faith it deems relevant, with each such value so determined being used as the relevant Fund Price;
- (ii) in the case of Fund Linked Notes relating to a Basket of Fund Interests:
  - (A) for each Fund Interest not affected by the occurrence of a Disrupted Day, the Observation Date shall be the Scheduled Observation Date; and
  - (B) for each Fund Interest affected (each an **Affected Fund Interest**) by the occurrence of a Disrupted Day, the Calculation Agent may:

- (I) postpone the Observation Date, in which case:
- (1) in respect of a Fund Interest where the Fund Price is to be determined in accordance with sub-paragraph (b)(i) of the definition thereof, the Observation Date will be the Fund Determination Date relating to such Affected Fund Interest, unless each consecutive Fund Business Day up to and including the Disruption Longstop Date is a Disrupted Day relating to such Affected Fund Interest, in which case (aa) the Disruption Longstop Date shall be deemed to be the Observation Date, notwithstanding the fact that such day is a Disrupted Day relating to the relevant Affected Fund Interest and (bb) the Calculation Agent shall determine its good faith estimate of the value for the relevant Affected Fund Interest as of the Valuation Time on the Disruption Longstop Date; in case of multiple Affected Fund Interests, the latest Fund Determination Date will be the Fund Determination Date for the purpose of Fund Linked Asset Condition 3.1(a)(i)(A)(I) above; and
  - (2) in respect of a Fund Interest where the Fund Price is to be determined in accordance with sub-paragraphs (b)(ii) – (v) of the definition thereof, the Observation Date will be the Fund Determination Date relating to such Affected Fund Interest, unless each consecutive Currency Business Day up to and including the Disruption Longstop Date is a Disrupted Day relating to such Affected Fund Interest, in which case (aa) the Disruption Longstop Date shall be deemed to be the Observation Date, notwithstanding the fact that such day is a Disrupted Day relating to the relevant Affected Fund Interest and (bb) the Calculation Agent shall determine its good faith estimate of the value for the relevant Affected Fund Interest as of the Valuation Time on the Disruption Longstop Date; in case of multiple Affected Fund Interests, the latest Fund Determination Date will be the Fund Determination Date for the purpose of Fund Linked Asset Condition 3.1(a)(i)(A)(II) above; or
- (II) determine its good faith estimate of the net asset value for the relevant Fund Interest Unit of each Affected Fund Interest (or a method for determining such value) for such day, taking into consideration any information that in good faith it deems relevant,

with each such value so determined being used as the Fund Price for the relevant Affected Fund Interest;

- (iii) if the Calculation Agent is not able to or does not determine the relevant Fund Price in accordance with Fund Linked Asset Condition 3.1(a)(i) or Fund Linked Asset Condition 3.1(a)(ii) above, as the case may be, or if such determination would not, in the opinion of the Calculation Agent, account for such Disrupted Day:
- (A) the Calculation Agent may make such adjustments to any of the Conditions as it considers appropriate to account for such Disrupted Day and determine the date(s) on which any such adjustments will be effective (in its sole and absolute discretion); or
  - (B) if the Calculation Agent is not able to or does not determine any adjustments for the purposes of sub-paragraph (iii)(A) above, the Issuer may, in its sole and absolute discretion, upon giving notice to the Noteholders in accordance with General Condition 14 (*Notices*), redeem all but not some only of the Notes, each Note being redeemed by payment of an amount equal to the Fair Market Value Redemption Amount, where payments will be made in such manner as shall be notified to the Noteholders in accordance with General Condition 14 (*Notices*); or

- (C) if the Calculation Agent is not able to or does not determine any adjustments for the purposes of sub-paragraph (iii)(A) above, the Issuer may, in its sole and absolute discretion, upon giving notice to the Noteholders in accordance with General Condition 14 (*Notices*), elect to redeem on the Maturity Date all but not some only of the Notes, each Note being redeemed on the Maturity Date by payment of an amount equal to the Monetisation Amount in accordance with the provisions of Redemption Method Condition 6 (*Monetisation*) of Annex 6 (*Redemption Method Conditions*); and
- (iv) the Calculation Agent shall give notice as soon as practicable to the Noteholders in accordance with General Condition 14 (*Notices*) of the occurrence of a Disrupted Day on an Observation Date. Such notice shall give the details of such Disrupted Day and the action proposed to be taken by the Calculation Agent in relation thereto.

- (B) if the Calculation Agent is not able to or does not determine any adjustments for the purposes of sub-paragraph (A) above, the Issuer may, in its sole and absolute discretion, upon giving notice to the Noteholders in accordance with General Condition 14 (*Notices*), redeem all but not some only of the Notes, each Note being redeemed by payment of an amount equal to the Fair Market Value Redemption Amount; payments will be made in such manner as shall be notified to the Noteholders in accordance with General Condition 14 (*Notices*); or

- (ii) "Postponement", then Fund Linked Asset Condition 3.1(a) will apply for purposes of determining the relevant price or amount on that Averaging Date as if such Averaging Date were an Observation Date that was a Disrupted Day, irrespective of whether, pursuant to such determination, that deferred Averaging Date would fall on a date that already is or is deemed to be an Averaging Date for the relevant Fund Interest; or

These Common Floater Interest Payoff Conditions are subject to completion in accordance with the applicable Final Terms.*

*All capitalised terms that are not defined in these Common Floater Interest Payoff Conditions or elsewhere in the Terms and Conditions (including, without limitation, in the Definitions Conditions) will have the meanings given to them in the applicable Final Terms.*

#### 3. COMMON FLOATER INTEREST

*The Linked Interest Rate is calculated as the product of  $Leverage_{OUT}$  by the lesser of (a) Cap and (b) the greater of (i) Floor and (ii) Margin added to the result of  $Leverage_{IN}$  multiplied by Underlying Value<sub>xy</sub>. The Underlying Value<sub>xy</sub> is calculated by reference to the price, level or rate of the Underlying, or if a combination of an Underlying<sub>x</sub> and an Underlying<sub>y</sub> is specified in the Final Terms, the price, level or rate of the Underlying<sub>x</sub> and of the Underlying<sub>y</sub> at the relevant time, as applicable. The value of the Underlying (or, as applicable, the relevant Underlying<sub>x</sub> and Underlying<sub>y</sub>) will be used as a component in this calculation and may therefore affect the Linked Interest Rate, subject to  $Leverage_{OUT}$ ,  $Leverage_{IN}$ , the Margin, the Cap and the Floor.*

##### 3.1 Linked Interest Rate

- (a) The Linked Interest Rate applicable to an Interest Accrual Period for Notes for which Common Floater Interest is applicable in respect of such Interest Accrual Period shall be calculated as follows:

$$Leverage_{OUT} \times \text{Min} \left( \text{Cap}, \text{Max}(\text{Floor}, \text{Leverage}_{IN} \times \text{Underlying Value}_{xy} + \text{Margin}) \right)$$

and expressed as a percentage.

- (b) The Linked Interest Rate applicable to an Interest Accrual Period for Notes for which Common Floater Interest is applicable as a relevant General Interest Payoff<sub>x</sub>, for the purposes of any applicable Combination Payoff Condition shall be calculated in accordance with such Combination Payoff Condition and the Linked Interest Rate determined in accordance with Common Floater Interest Payoff Condition 3.1(a) shall be used in the relevant Combination Payoff Condition as the relevant General Interest Payoff<sub>x</sub>.

##### 3.2 Relevant Observation

Where, in relation to these Common Floater Interest Payoff Conditions, the applicable Final Terms provides that "Relevant Observation" is applicable in respect of the Underlying Value, references in these Common Floater Interest Payoff Conditions to "Underlying Value" (save for the definition of such term in Common Floater Interest Payoff Condition 3.3 below) shall, for the purposes of determining the Underlying Value of the Underlying, be deemed to be references to the applicable Relevant Observation.

*All capitalised terms that are not defined in these Common Inverse Floater Interest Payoff Conditions or elsewhere in the Terms and Conditions (including, without limitation, in the Definitions Conditions) will have the meanings given to them in the applicable Final Terms.*

### 4. COMMON INVERSE FLOATER INTEREST

*The Linked Interest Rate is calculated as the lesser of (a) Cap and (b) the greater of (i) Floor and (ii) the result of  $Leverage_{IN}$  multiplied by Underlying Value<sub>xy</sub> subtracted from Fixed Rate. The Underlying Value<sub>xy</sub> is calculated by reference to the price, level or rate of the Underlying or, if a combination of an Underlying<sub>x</sub> and an Underlying<sub>y</sub> is specified in the Final Terms, is calculated by reference to the price, level or rate of the Underlying<sub>x</sub> and of the Underlying<sub>y</sub> at the relevant time, as applicable. The value of the Underlying (or, as applicable, the relevant Underlying<sub>x</sub> and Underlying<sub>y</sub>) will be used as a component in this calculation and may therefore affect the Linked Interest Rate, subject to the  $Leverage_{IN}$ , the Fixed Rate, the Cap and the Floor.*

#### 4.1 Linked Interest Rate

- (a) The Linked Interest Rate applicable to an Interest Accrual Period for Notes for which Common Inverse Floater Interest is applicable in respect of such Interest Accrual Period shall be calculated as follows:

## Common Payoff Conditions: Part A: Chapter 5: Common Participation Interest

*This chapter sets out additional terms and conditions for Notes for which the applicable Final Terms specify Common Participation Interest to be applicable.*

*The following terms and conditions (the **Common Participation Interest Payoff Conditions**) shall apply to the Notes if the applicable Final Terms indicate that Common Participation Interest (the **Common Participation Interest**) is applicable. These Common Participation Interest Payoff Conditions are subject to completion in accordance with the applicable Final Terms.*

*All capitalised terms that are not defined in these Common Participation Interest Payoff Conditions or elsewhere in the Terms and Conditions (including, without limitation, in the Definitions Conditions) will have the meanings given to them in the applicable Final Terms.*

### 5. COMMON PARTICIPATION INTEREST

*The Linked Interest Rate is calculated as the lesser of (a) Cap and (b) the greater of (i) Floor and (ii)  $Leverage_{IN}$  multiplied by the difference between the result of the Underlying Value<sub>ti</sub> divided by the Underlying Value<sub>li</sub> and K.*

## Common Payoff Conditions: Part A: Chapter 6: Common Chrono Interest

*This chapter sets out additional terms and conditions for Notes for which the applicable Final Terms specify Common Chrono Interest to be applicable.*

*The following terms and conditions (the **Common Chrono Interest Payoff Conditions**) shall apply to the Notes if the applicable Final Terms indicate that Common Chrono Interest (the **Common Chrono Interest**) is applicable. *All capitalised terms that are not defined in these Common Chrono Interest Payoff Conditions or elsewhere in the Terms and Conditions (including, without limitation, in the Definitions Conditions) will have the meanings given to them in the applicable Final Terms.*

### 6. COMMON CHRONO INTEREST

*The Linked Interest Rate is calculated as an amount equal to the lesser of (a) Cap and (b) the greater of (i) Floor and (ii) the product of (A) Accrual Factor and (B) the result of Leverage multiplied by Global Underlying Value on the relevant Interest Observation Date and added to Margin. The Accrual Factor is a number determined by reference to, among other things, the Underlying Value. The Global Underlying Value is calculated by reference to the price, level or rate of the Global Underlying or, if a combination of a Global Underlying<sub>x</sub> and a Global Underlying<sub>y</sub> is specified in the Final Terms, the price, level or rate of the Global Underlying<sub>x</sub> and of the Global Underlying<sub>y</sub>, as applicable. The Underlying Value<sub>i</sub> is calculated by reference to the price, level or rate of the Underlying<sub>i</sub> or, if a combination of an Underlying<sub>ix</sub> and an Underlying<sub>iy</sub> is specified in the Final Terms, the price, level or rate of the Underlying<sub>ix</sub> and of the Underlying<sub>iy</sub> at the relevant time, as applicable. The value of the Underlying will therefore affect the Linked Interest Rate since (i) the value of the Underlying<sub>i</sub> (or, as applicable, the relevant Underlying<sub>ix</sub> and Underlying<sub>iy</sub>) affects the value of the Accrual Factor which is used as a component of the formula used to calculate the Linked Interest Rate and (ii) the value of the Global Underlying (or, as applicable, the Global Underlying<sub>x</sub> and the Global Underlying<sub>y</sub>) is used as a separate component in the formula used to calculate the Linked Interest Rate.*

#### 6.1 Linked Interest Rate

- (a) The Linked Interest Rate applicable to an Interest Accrual Period for Notes for which Common Chrono Interest is applicable in respect of such Interest Accrual Period shall be calculated as follows:

$$\text{Min}(\text{Cap}, \text{Max}(\text{Floor}, (\text{Leverage} \times \text{Global Underlying Value} + \text{Margin}) \times \text{Accrual Factor}))$$

and expressed as a percentage.

- (b) The Linked Interest Rate applicable to an Interest Accrual Period for Notes for which Common Chrono Interest is applicable as a relevant General Interest Payoff<sub>x</sub> for the purposes of any applicable Combination Payoff Condition shall be calculated in accordance with such Combination Payoff Condition and the Linked Interest Rate determined in accordance with Common Chrono Interest Payoff Condition 6.1(a) shall be used in the relevant Combination Payoff Condition as the relevant General Interest Payoff<sub>x</sub> as applicable.

#### 6.2 Relevant Observation

Where, in relation to these Common Chrono Interest Payoff Conditions, the applicable Final Terms provides that "Relevant Observation" is applicable in respect of the Global Underlying Value or Underlying Value<sub>i</sub>, references in these Common Chrono Interest Payoff Conditions to "Underlying Value" (save for the definition of such term in Common Chrono Interest Payoff Condition 6.3 below) shall, for the purposes of determining the Global Underlying Value or Underlying Value<sub>i</sub> be deemed to be references to the applicable Relevant Observation.

### 6.3 Definitions and Interpretation

For the purposes of these Common Chrono Interest Payoff Conditions, the following terms shall have the following meanings:

**a** means the number specified as such in the applicable Final Terms. If a is specified as "Not Applicable", a shall be 1.

**Accrual Factor** means, with respect to an Interest Accrual Period:

$$\frac{a \times n - b \times N}{N}$$

**b** means the number specified as such in the applicable Final Terms. If b is specified as "Not Applicable", b shall be 0.

For the avoidance of doubt, Global Underlying and, as applicable, all Underlying<sub>i</sub> and/or Underlying<sub>i</sub><sub>x</sub> and Underlying<sub>i</sub><sub>y</sub> together constitute a Basket or a Multi-Asset Basket, as applicable (each as defined in the applicable Asset Conditions).

**Global Underlying<sub>x</sub>** or **Global Underlying<sub>y</sub>** means any Underlying specified as such in the applicable Final Terms, if applicable. For the avoidance of doubt, Global Underlying<sub>x</sub>, Global Underlying<sub>y</sub> and, as applicable, all Underlying<sub>i</sub> and/or Underlying<sub>i</sub><sub>x</sub> and Underlying<sub>i</sub><sub>y</sub> together constitute a Basket or a Multi-Asset Basket, as applicable (each as defined in the applicable Asset Conditions).

**Global Underlying Value** means:

  - (ii) the algebraical difference between the Underlying Value of such Global Underlying<sub>x</sub> and the Underlying Value of such Global Underlying<sub>y</sub>, if "Subtraction" is specified in the applicable Final Terms as the relevant formula for the combination of Global Underlying<sub>x</sub> and Global Underlying<sub>y</sub>; or
  - (iii) the product of the Underlying Value of such Global Underlying<sub>x</sub> by the Underlying Value of such Global Underlying<sub>y</sub>, if "Multiplication" is specified in the applicable Final Terms as the relevant formula for the combination of Global Underlying<sub>x</sub> and Global Underlying<sub>y</sub>; or

**Interest Observation Date** means, in respect of an Interest Accrual Period, each date specified as such in the applicable Final Terms or, alternatively, the date falling such number of Business Days immediately preceding the first or last day of such Interest Accrual Period as specified in the applicable Final Terms, and each such date shall be deemed to be an "Observation Date" for the purposes of the relevant Asset Conditions.

**n** means the number of Range Accrual Days in the relevant Interest Observation Period in respect of which [each][any] Underlying Value<sub>i</sub> is within the Underlying Value<sub>i</sub> Range, as determined by the Calculation Agent. For the purposes hereof, (and where Range Accrual Days are expressed in the applicable Final Terms as falling on calendar days which may not be Business Days) the Underlying Value in respect of any Range Accrual Day which is not a Business Day shall be deemed to be the Underlying Value in respect of either the immediately preceding or the immediately following Business Day, as specified in the applicable Final Terms.

**N** means the total number of Range Accrual Days in the relevant Interest Observation Period, as determined by the Calculation Agent.

**Range Accrual Day** means, with respect to an Interest Observation Period, each date specified as a Range Accrual Day in the applicable Final Terms, which may be each Business Day, each calendar day, each calendar day or Business Day within a week, each calendar day or Business Day within a month, or any other day, falling within such Interest Observation Period. Each Range Accrual Day shall be deemed to be an "Observation Date" for the purposes of the relevant Asset Conditions.

**Underlying<sub>i</sub>** means an Underlying corresponding to an *i*, as specified in the applicable Final Terms. For the avoidance of doubt, the Global Underlying (or, if applicable, Global Underlying<sub>x</sub> and Global Underlying<sub>y</sub>), all Underlying<sub>i</sub> and (as applicable) all Underlying<sub>ix</sub> and Underlying<sub>iy</sub> together constitute a Basket or a Multi-Asset Basket, as applicable (each as defined in the applicable Asset Conditions).

**Underlying<sub>ix</sub>** or **Underlying<sub>iy</sub>** means, an Underlying bearing the subscript "x" or an Underlying bearing the subscript "y" respectively, each corresponding to an *i*, specified as such in the applicable Final Terms, if applicable. For the avoidance of doubt, the Global Underlying (or, if applicable, Global Underlying<sub>x</sub> and Global Underlying<sub>y</sub>), (as applicable) all Underlying<sub>i</sub>, all Underlying<sub>ix</sub> and Underlying<sub>iy</sub> together constitute a Basket or a Multi-Asset Basket, as applicable (each as defined in the applicable Asset Conditions).

provided that if an Interest Observation Period Cut-Off Date is specified in the applicable Final Terms, the Underlying Value in respect of any Range Accrual Day falling on or after the Interest Observation Period Cut-Off Date shall be deemed to be the Underlying Value in respect of the Range Accrual Day falling on such Interest Observation Period Cut-Off Date.

For the avoidance of doubt, the Underlying Value may have a positive value, negative value or may be equal to zero (0) and will be expressed without regard to the currency of denomination of the Underlying Value (if any).

**Underlying Value<sub>i</sub>** means:

- (a) the Underlying Value of an Underlying<sub>i</sub>; or
- (b) if a combination of an Underlying<sub>ix</sub> and an Underlying<sub>iy</sub> is specified in the applicable Final Terms for the same *i*:

These Common Performance Chrono Interest Payoff Conditions are subject to completion in accordance with the applicable Final Terms.*

*All capitalised terms not defined in these Common Performance Chrono Interest Payoff Conditions or elsewhere in the Terms and Conditions (including, without limitation, in the Definitions Conditions) will have the meanings given to them in the applicable Final Terms.*

### 8. COMMON PERFORMANCE CHRONO INTEREST

*The Linked Interest Rate is the result (A), where the Common Performance Chrono Interest is Linear, of the product of the Fixed Rate multiplied by the Accrual Factor or (B), where the Common Fixed Range Accrual Interest is Non-linear, the Fixed Rate (n) (as specified in the applicable Final Terms) applicable to the number n calculated for the relevant Interest Observation Period.*

#### 8.1 Linked Interest Rate

(a) The Linked Interest Rate applicable to any Interest Accrual Period for Notes for which Common Performance Chrono Interest is applicable will be calculated as follows:

(i) if the type "Linear" is specified in the applicable Final Terms

Fixed Rate × Accrual Factor

expressed as a percentage; or

#### 8.2 Definitions and Interpretation

For the purposes of these Common Performance Chrono Interest Payoff Conditions, the following terms will have the following meanings:

**a** means the number specified as such in the applicable Final Terms. If a is specified as "Not Applicable", a shall be 1.

**Accrual Factor** means, with respect to any Interest Accrual Period, the result of the following formula:

$$\frac{a \times n - b \times N}{N}$$

**b** means the number specified as such in the applicable Final Terms. If b is specified as "Not Applicable", b shall be 0.

**n** means, with respect to any Interest Observation Period, the number of Range Accrual Days during the relevant Interest Observation Period on which the Performance\_AF is [higher than IB] [higher than or equal to IB] [lower than IB] [lower than or equal to IB] [within the Range] [outside the Range] the Range, as determined by the Calculation Agent. For the purposes hereof, (and where Range Accrual Days are expressed in the applicable Final Terms as falling on calendar days which may not be Business Days) the Underlying Value in respect of any Range Accrual Day which is not a Business Day shall be deemed to be the Underlying Value in respect of either the immediately preceding or the immediately following Business Day, as specified in the applicable Final Terms.

**N** means, with respect to any Interest Observation Period, the total number of Range Accrual Days during such Interest Observation Period, as determined by the Calculation Agent.

**Range Accrual Day** means, with respect to any Interest Observation Period, as specified in the applicable Final Terms, each Scheduled Trading Day, each Scheduled Trading Day which is not a Disrupted Day, each Business Day or each calendar day falling within such Interest Observation Period. Each Range Accrual Day is deemed to be an "Observation Date" for the purposes of the relevant Asset Conditions.

and expressed as a percentage.

(b) The Linked Interest Rate applicable to an Interest Accrual Period for Notes for which Combination Addition Interest is applicable as a relevant General Interest Payoff<sub>x</sub> for the purposes of any applicable Combination Payoff Condition (the **Primary Combination Payoff Condition**) shall be calculated in accordance with such Primary Combination Payoff Condition and the Linked Interest Rate determined in accordance with Combination Addition Interest Payoff Condition 1.1(a) shall be used in the Primary Combination Payoff Condition as the relevant General Interest Payoff<sub>x</sub>, as applicable, provided that Combination Addition Interest may only be applicable as a relevant General Interest Payoff<sub>x</sub> for the purposes of any applicable Combination Payoff Condition for Notes when each of General Interest Payoff<sub>1</sub>, General Interest Payoff<sub>2</sub>, General Interest Payoff<sub>3</sub>, General Interest Payoff<sub>4</sub>, General Interest Payoff<sub>5</sub>, General Interest Payoff<sub>6</sub>, General Interest Payoff<sub>7</sub>, General Interest Payoff<sub>8</sub> and General Interest Payoff<sub>9</sub> is a Common Interest Payoff.

*This chapter sets out additional terms and conditions for Notes in respect of which the applicable Final Terms specify Knock-out Interest Switch Payoff Feature to be applicable.*

*The following terms and conditions (the **Knock-out Interest Switch Payoff Feature Conditions**) shall apply to the Notes if the applicable Final Terms indicate that Knock-out Interest Switch Payoff Feature (the **Knock-out Interest Switch Payoff Feature**) is applicable. These Knock-out Interest Switch Payoff Feature Conditions are subject to completion in accordance with the applicable Final Terms.*

*All capitalised terms that are not defined in these Knock-out Interest Switch Payoff Feature Conditions or elsewhere in the Terms and Conditions (including, without limitation, in the Definitions Conditions) will have the meanings given to them in the applicable Final Terms.*

### **2. KNOCK-OUT INTEREST SWITCH PAYOFF FEATURE**

*The basis on which interest is calculated will automatically switch from (i) calculation of the Linked Interest Rate using Linked Interest<sub>1</sub> to (ii) calculation of the Linked Interest Rate using Linked Interest<sub>2</sub> if either on the Knock-out Interest Switch Observation Date(s) or during the Knock-out Interest Switch Observation Period, the Underlying Value reaches the relevant Knock-out Barrier or is within the relevant Range. For the avoidance of doubt, a Knock-out Interest Switch can occur once only during the life of the Notes. You should also refer to the relevant Common Payoff Conditions or Combination Payoff Conditions for an explanation of how to calculate the Linked Interest Rate calculated using the relevant Common Interest Payoff or Combination Interest Payoff referred to for this Payoff Feature Condition.*

#### **2.1 Methodology**

If Knock-out Interest Switch Payoff Feature is specified to be applicable in the applicable Final Terms, the basis on which interest is calculated will automatically switch from Linked Interest<sub>1</sub> to Linked Interest<sub>2</sub> (a **Knock-out Interest Switch**) if, during the life of the Notes, a Knock-out Interest Switch Event occurs. For the avoidance of doubt, a Knock-out Interest Switch can occur once only during the life of the Notes.

The Linked Interest Rate applicable to the Notes shall be determined by the Calculation Agent:

- (a) if a Knock-out Interest Switch Event has not occurred in accordance with these Knock-out Interest Switch Payoff Feature Conditions, in accordance with Linked Interest<sub>1</sub>; or
- (b) if a Knock-out Interest Switch Event has occurred in accordance with these Knock-out Interest Switch Payoff Feature Conditions:
  - (i) on each Interest Determination Date up to (but excluding) the Knock-out Interest Switch Date, in respect of each corresponding Interest Accrual Period, in accordance with Linked Interest<sub>1</sub>; and
  - (ii) on each Interest Determination Date from (and including) the Knock-out Interest Switch Date, in respect of each corresponding Interest Accrual Period, in accordance with Linked Interest<sub>2</sub>.

#### **2.2 Definitions and Interpretation**

For the purposes of these Knock-out Interest Switch Payoff Feature Conditions, the following terms shall have the following meanings:

**Knock-out Barrier** means a percentage of the Initial Underlying Value(i), as specified in the applicable Final Terms.

**Knock-out Interest Switch Date** means (a) the Interest Determination Date immediately following the occurrence of a Knock-out Interest Switch Event or (b) the date specified as such in the applicable Final Terms.

**Knock-out Interest Switch Event** means that the Underlying Value is [higher than the Knock-out Barrier] [higher than or equal to the Knock-out Barrier] [lower than the Knock-out Barrier] [lower than or equal to the Knock-out Barrier] [within Range] [outside Range] either (A) on [the] [the current][each] [at least one previous] [each previous] Knock-out Interest Switch Observation Date, or (B) [at least one time] [on at least one Scheduled Trading Day] [at all times] [on all Scheduled Trading Days] [on all Scheduled Trading Days which are not Disrupted Days] during the Knock-out Interest Switch Observation Period.

**Knock-out Interest Switch Observation Date** means each date specified as such in the applicable Final Terms and each such date shall be deemed to be an "Observation Date" for the purposes of the relevant Asset Conditions.

**Knock-out Interest Switch Observation Period** means the period specified as a Knock-out Interest Switch Observation Period in the applicable Final Terms.

**Linked Interest<sub>1</sub>** means the Common Interest Payoff or Combination Interest Payoff specified as such in the applicable Final Terms.

### **Payoff Feature Conditions: Part A: Chapter 3: Target Interest Switch Payoff Feature Conditions**

*This chapter sets out additional terms and conditions for Notes in respect of which the applicable Final Terms specify Target Interest Switch Payoff Feature to be applicable.*

*The following terms and conditions (the **Target Interest Switch Payoff Feature Conditions**) shall apply to the Notes if the applicable Final Terms indicate that Target Interest Switch Payoff Feature (the **Target Interest Switch Payoff Feature**) is applicable. These Target Interest Switch Payoff Feature Conditions are subject to completion in accordance with the applicable Final Terms.*

*All capitalised terms that are not defined in these Target Interest Switch Payoff Feature Conditions or elsewhere in the Terms and Conditions (including, without limitation, in the Definitions Conditions) will have the meanings given to them in the applicable Final Terms.*

### **3. TARGET INTEREST SWITCH PAYOFF FEATURE**

*The basis on which interest is calculated will automatically switch from (i) calculation of the Linked Interest Rate using Linked Interest<sub>1</sub> to (ii) calculation of the Linked Interest Rate using Linked Interest<sub>2</sub> if a Target Interest Switch Event occurs. A Target Interest Switch Event occurs if the payment of the Interest Amount on an Interest Payment Date results in the aggregate of all Interest Amounts (paid in respect of the aggregate outstanding nominal amount of the Notes (if a Global Note) or the product of the Calculation Amount and the Calculation Amount Factor (if a Definitive Note)) paid up to and including such Interest Payment Date is greater than or equal to the Aggregate Interest Amount Cap. For the avoidance of doubt, a Target Interest Switch can occur once only during the life of the Notes. You should also refer to the relevant Common Payoff Conditions or Combination Payoff Conditions for an explanation of how to calculate the Linked Interest Rate calculated using the relevant Common Interest Payoff or Combined Interest Payoff referred to for this Payoff Feature Condition.*

#### **3.1 Methodology**

If Target Interest Switch Payoff Feature is specified in the applicable Final Terms to be applicable, the basis on which interest is calculated will automatically switch from Linked Interest<sub>1</sub> to Linked Interest<sub>2</sub> (**Target Interest Switch**) if during the life of the Notes a Target Interest Switch Event occurs. For the avoidance of doubt, a Target Interest Switch can occur once only during the life of the Notes.

The Linked Interest Rate applicable to Notes shall be determined by the Calculation Agent:

- (a) If a Target Interest Switch Event has not occurred in accordance with these Target Interest Switch Payoff Feature Conditions, in accordance with Linked Interest<sub>1</sub>; and
- (b) if a Target Interest Switch Event has occurred in accordance with these Target Interest Switch Payoff Feature Conditions:
  - (i) on each Interest Determination Date up to (and including) the Target Interest Switch Date, in respect of each corresponding Interest Accrual Period, in accordance with Linked Interest<sub>1</sub>; and
  - (ii) on each Interest Determination Date from (but excluding) the Target Interest Switch Date, in respect of each corresponding Interest Accrual Period, in accordance with Linked Interest<sub>2</sub>.

#### **3.2 Definitions and Interpretation**

For the purposes of these Target Interest Switch Payoff Feature Conditions, the following terms shall have the following meanings:

**Aggregate Interest Amount Cap** means an amount in the Specified Currency per Calculation Amount specified as such in the applicable Final Terms, which shall be multiplied by:

- (a) in the case of Notes represented by a Global Note, the Global Note Calculation Amount Factor; or

(b) in the case of a Note in definitive form, the Calculation Amount Factor.

**Global Note Calculation Amount Factor** means a number equal to the aggregate outstanding nominal amount of the Notes divided by the Calculation Amount.

**Linked Interest<sub>1</sub>** means the Common Interest Payoff or Combination Interest Payoff specified as such in the applicable Final Terms.

**Linked Interest<sub>2</sub>** means the Common Interest Payoff or Combination Interest Payoff specified as such in the applicable Final Terms.

**Target Interest Switch Date** means (a) the Interest Payment Date on which a Target Interest Switch Event occurs or (b) the date specified as such in the applicable Final Terms.

**Target Interest Switch Event** means the payment of the Interest Amount on an Interest Payment Date results in the aggregate of all Interest Amounts (paid in respect of (a) in the case of Notes represented by a Global Note, the aggregate outstanding nominal amount of the Notes and (b) in the case of each Note in definitive form, the product of the Calculation Amount and the Calculation Amount Factor) paid in respect of the Notes up to and including that Interest Payment Date being greater than or equal to the Aggregate Interest Amount Cap.

## Payoff Feature Conditions: Part A: Chapter 4: Memory Interest Payoff Feature Conditions

*This chapter sets out additional terms and conditions for Notes in respect of which the applicable Final Terms specify Memory Interest Payoff Feature to be applicable.*

*The following terms and conditions (the **Memory Interest Payoff Feature Conditions**) shall apply to the Notes if the applicable Final Terms indicate that Memory Interest Payoff Feature (the **Memory Interest Payoff Feature**) is applicable. These Memory Interest Payoff Feature Conditions are subject to completion in accordance with the applicable Final Terms.*

*All capitalised terms that are not defined in these Memory Interest Payoff Feature Conditions or elsewhere in the Terms and Conditions (including, without limitation, in the Definitions Conditions) will have the meanings given to them in the applicable Final Terms.*

### 4. MEMORY INTEREST PAYOFF FEATURE

*The Interest Amount payable on an Interest Payment Date, in respect of an Interest Accrual Period in respect of which this Memory Interest Payoff Feature applies, shall be equal to, if the Interest Amount payable in respect of such Interest Accrual Period calculated in accordance with the Linked Interest and the applicable Conditions, prior to application of the Memory Interest Payoff Feature is (i) greater than zero (0), the sum of (a) the Interest Amount payable in respect of such Interest Accrual Period calculated in accordance with the Linked Interest and the applicable Conditions, prior to application of the Memory Interest Payoff Feature and (b) the product of the Recovery Rate by the sum of the Interest Amount payable in respect of the relevant Interest Accrual Period calculated using the Interest Amounts of previous consecutive Interest Payment Dates for which no Interest Amount was paid (if any), or (ii) equal to zero (0), then zero (0). You should also refer to the relevant Common Payoff Conditions or Combination Payoff Conditions for an explanation of how to calculate the Linked Interest Rate calculated using the relevant Common Interest Payoff or Combination Interest Payoff referred to for this Payoff Feature Condition.*

#### 4.1 Methodology

If Memory Interest Payoff Feature is specified in the applicable Final Terms to be applicable in respect of an Interest Accrual Period, the Interest Amount payable in respect of that Interest Accrual Period on the related Interest Payment Date shall be calculated as follows:

- (a) if the Interest Amount payable in respect of that Interest Accrual Period calculated in accordance with the Linked Interest and the applicable Conditions, prior to application of the Memory Interest Payoff Feature, is greater than zero (0):

$$\text{Fixed Rate (N)} + \text{Recovery Rate} \times \sum_{t=n+1}^{N-1} \text{Fixed Rate (t)}$$

- (b) if the Interest Amount payable in respect of that Interest Accrual Period calculated in accordance with the Linked Interest and the applicable Conditions, prior to application of the Memory Interest Payoff Feature, is equal to zero (0):

zero (0)

#### 4.2 Definitions and Interpretation

For the purposes of these Memory Interest Payoff Feature Conditions, the following terms shall have the following meanings:

**Fixed Rate(N)** mean the Linked Interest Rate payable in respect of the Interest Payment Date or Interest Accrual Period corresponding to the chronological number "N" calculated in accordance with the Linked Interest and the applicable Conditions.

**Linked Interest** means the Common Interest Payoff or Combination Interest Payoff specified as such in the applicable Final Terms.

**n** is the chronological number "t" of the last Interest Payment Date or Interest Accrual Period in respect of which the relevant Fixed Rate has been paid. If no Fixed Rate has been paid prior to the relevant Interest Payment Date or Interest Accrual Period, the value of "n" will be equal to zero.

**N** is the chronological number "t" of the relevant Interest Payment Date or Interest Accrual Period.

**Recovery Rate** mean the number or percentage specified as such in the applicable Final Terms.

These Single Interest Payment Date Payoff Feature Conditions are subject to completion in accordance with the applicable Final Terms.*

*All capitalised terms that are not defined in these Single Interest Payment Date Payoff Feature Conditions or elsewhere in the Terms and Conditions (including, without limitation, in the Definitions Conditions) will have the meanings given to them in the applicable Final Terms. You should also refer to the relevant Conditions for an explanation of how to calculate the Interest Amount.*

### **5. SINGLE INTEREST PAYMENT DATE PAYOFF FEATURE**

*The sum of all Interest Amounts (if any) will be paid on the Single Interest Payment Date. For the avoidance of doubt, the investor will not be entitled to any interest on any Interest Amount determined on an Interest Determination Date for the relevant Interest Accrual Period provided that the Single Interest Amount is paid in full on the Single Interest Payment Date.*

#### **5.1 Methodology**

If Single Interest Payment Date Payoff Feature is specified in the applicable Final Terms to be applicable, notwithstanding that multiple Interest Payment Dates are specified in the Final Terms and used in the determination of the Interest Amount, (a) each Interest Amount will not be paid on the relevant Interest Payment Date, and (b) an amount equal to the sum of all Interest Amounts (the **Single Interest Amount**) will be paid on the Single Interest Payment Date. For the avoidance of doubt, the investor will not be entitled to any interest on any Interest Amount determined on an Interest Determination Date for the relevant Interest Accrual Period provided that the Single Interest Amount is paid in full on the Single Interest Payment Date.

#### **5.2 Definitions and Interpretation**

For the purposes of these Single Interest Payment Date Payoff Feature Conditions, the following terms shall have the following meanings:

**Single Interest Payment Date** means each date specified as such in the applicable Final Terms or, if Early Redemption Trigger Conditions are applicable, the Early Redemption Date on which the Issuer redeems all of the Notes then outstanding, and each such date shall be deemed to be an "Observation Date" for the purposes of the relevant Asset Conditions.

## **Payoff Feature Conditions: Part A Chapter 6: Knock-out Performance Interest Switch Payoff Feature Conditions**

### **6. KNOCK-OUT PERFORMANCE INTEREST SWITCH PAYOFF FEATURE**

*The basis on which interest is calculated will automatically switch from (a) calculation of the Linked Interest Rate using Linked Interest<sub>1</sub> to (b) calculation of the Linked Interest Rate using Linked Interest<sub>2</sub> if, either on the Knock-out Performance Interest Switch Observation Date(s) or during the Knock-out Performance Interest Switch Observation Period, the Performance\_KOI reaches the relevant Knock-out Barrier or is within the relevant Range. For the avoidance of doubt, a Knock-out Performance Interest Switch can occur only once during the life of the Notes. You should also refer to the relevant Common Payoff Conditions or Combination Payoff Conditions for an explanation of how to calculate the Linked Interest Rate calculated using the relevant Common Interest Payoff or Combination Interest Payoff referred to for this Payoff Feature Condition.*

#### **6.1 Methodology**

If Knock-out Performance Interest Switch Payoff Feature is specified to be applicable in the applicable Final Terms, the basis on which interest is calculated will automatically switch from Linked Interest<sub>1</sub> to Linked Interest<sub>2</sub> (the **Knock-out Performance Interest Switch**) if, during the life of the Notes, a Knock-out Performance Interest Switch Event occurs. For the avoidance of doubt, a Knock-out Performance Interest Switch Event can occur only once during the life of the Notes.

The Linked Interest Rate applicable to the Notes will be determined by the Calculation Agent:

- (a) if a Knock-out Performance Interest Switch Event has not occurred in accordance with these Knock-out Performance Interest Switch Payoff Feature Conditions, in accordance with Linked Interest<sub>1</sub>; and
- (b) if a Knock-out Performance Interest Switch Event has occurred in accordance with these Knock-out Performance Interest Switch Payoff Feature Conditions; and
  - (i) on each Interest Determination Date up to (but excluding) the Knock-out Performance Interest Switch Date, in respect of each corresponding Interest Accrual Period in accordance with Linked Interest<sub>1</sub>; and
  - (ii) on each Interest Determination Date from (and including) the Knock-out Performance Interest Switch Date, in respect of each corresponding Interest Accrual Period, in accordance with Linked Interest<sub>2</sub>.

### **7. GLOBAL CAP INTEREST PAYOFF FEATURE**

*For each Interest Payment Date, if the sum of the Interest Amounts paid, or in the case of the Interest Accrual Period which ends on but excludes such Interest Payment Date, accrued, up to and including such Interest Payment Date is equal to or greater than the Global Cap Amount, no Interest Amount will be payable.*

#### **7.1 Methodology**

If the Global Cap Interest Payoff Feature is specified in the applicable Final Terms, the Interest Amount will be equal to zero for each Interest Payment Date for which the Global Cap Balance is equal to zero.

#### **7.2 Definitions and Interpretation**

For the purposes of these Global Cap Interest Payoff Feature Conditions, the following terms shall have the following meanings:

**Σ Previous Coupons** means, in respect of an Interest Payment Date, the sum of all Interest Amounts paid, or in the case of an Interest Accrual Period which ends on but excludes such Interest Payment Date, accrued, up to and including such Interest Payment Date in respect of the aggregate outstanding nominal amount of the Notes.

### 8. GLOBAL FLOOR INTEREST PAYOFF FEATURE

*For a specified Interest Payment Date, if the sum of the Interest Amounts paid, or in the case of an Interest Accrual Period which ends on but excludes such Interest Payment Date, accrued, up to and including such Interest Payment Date, are less than the Global Floor Amount, the Interest Amount payable on such Interest Payment Date will be adjusted so that the sum of such Interest Amounts will equal the Global Floor Amount.*

#### 8.1 Methodology

If Global Floor Interest Payoff Feature is specified in the applicable Final Terms to be applicable if the amount equal to  $\Sigma$  Previous Coupons is less than the Global Floor Amount, the Interest Amount payable on the Specified IPD (as defined below) will be equal to the Global Floor Balance.

#### 8.2 Definitions and Interpretation

For the purposes of these Global Floor Interest Payoff Feature Conditions, the following terms shall have the following meanings:

**$\Sigma$  Previous Coupons** means, in respect of an Interest Payment Date, the sum of all Interest Amounts paid, or in the case of an Interest Accrual Period which ends on but excludes such Interest Payment Date, accrued, up to and including the such Interest Payment Date in respect of the aggregate outstanding nominal amount of the Notes.

### **1. GLOBAL CAP REDEMPTION PAYOFF FEATURE**

*The amount payable on the Redemption Date or an Instalment Date may be reduced by (in the case of the Final Redemption Amount) an amount equal to the Global Cap Amount or (in the case of each Instalment Redemption Amount) the Instalment Cap. The value of an underlying may therefore affect the amount payable on the Redemption Date or an Instalment Date, as the case may be, if the interest amounts are calculated by reference to the value of an underlying.*

#### **1.1 Methodology**

If Global Cap Redemption Payoff Feature is specified in the applicable Final Terms to be applicable

- (a) the Final Redemption Amount shall be an amount calculated following the subtraction of an amount equal to the Global Cap Amount, subject to a minimum of zero; or
- (b) each Instalment Redemption Amount shall be an amount calculated following the subtraction of an amount equal to the Instalment Cap, subject to a minimum of zero.

#### **1.2 Definitions and Interpretation**

For the purposes of these Global Cap Redemption Payoff Feature Conditions, the following terms shall have the following meanings:

**Σ Previous Coupons** means the sum of all Interest Amounts (paid in respect of (a) in the case of Notes represented by a Global Note, the aggregate outstanding nominal amount of the Notes and (b) in the case of each Note in definitive form, the product of the Calculation Amount and the Calculation Amount Factor) calculated up to and including the Redemption Date or the relevant Instalment Date, as the case may be.

**Global Note Calculation Amount Factor** means a number equal to the aggregate outstanding nominal amount of the Notes divided by the Calculation Amount.

**Instalment Cap** means, (a) in respect of the first Instalment Redemption Amount, the Global Cap Amount and (b) in respect of each subsequent Instalment Redemption Amount, an amount equal to the Global Cap Amount minus the aggregate of all amounts that have been deducted from all previous Instalment Redemption Amounts pursuant to Global Cap Redemption Payoff Feature Condition 1.1(b), subject to a minimum of zero (0).

**Strike Price** means an amount in the Specified Currency per Calculation Amount specified as such in the applicable Final Terms, which shall be multiplied by:

- (a) in the case of Notes represented by a Global Note, the Global Note Calculation Amount Factor; or

- (b) in the case of a Note in definitive form, the Calculation Amount Factor.

## **Payoff Feature Conditions: Part B: Chapter 2: Global Floor Redemption Payoff Feature Conditions**

*This chapter sets out additional terms and conditions for Notes in respect of which the applicable Final Terms specify Global Floor Redemption Payoff Feature to be applicable.*

*The following terms and conditions (the **Global Floor Redemption Payoff Feature Conditions**) shall apply to the Notes if the applicable Final Terms indicate that Global Floor Redemption Payoff Feature (the **Global Floor Redemption Payoff Feature**) is applicable. These Global Floor Redemption Payoff Feature Conditions are subject to completion in accordance with the applicable Final Terms.*

*All capitalised terms that are not defined in these Global Floor Redemption Payoff Feature Conditions or elsewhere in the Terms and Conditions (including, without limitation, in the Definitions Conditions) will have the meanings given to them in the applicable Final Terms.*

### **2. GLOBAL FLOOR REDEMPTION PAYOFF FEATURE**

*The amount payable on the Redemption Date or the final Instalment Date, as the case may be, may be increased by an amount equal to the Global Floor Amount. The value of an underlying may therefore affect the amount payable on the Redemption Date or the final Instalment Date, as the case may be, if the interest amounts are calculated by reference to the value of an underlying.*

#### **2.1 Methodology**

If Global Floor Redemption Payoff Feature is specified in the applicable Final Terms to be applicable the Final Redemption Amount or final Instalment Redemption Amount, as the case may be, shall be an amount calculated following the addition of an amount equal to the Global Floor Amount.

#### **2.2 Definitions and Interpretation**

For the purposes of these Global Floor Redemption Payoff Feature Conditions, the following terms shall have the following meanings:

**Σ Previous Coupons** means the sum of all Interest Amounts (paid in respect of (a) in the case of Notes represented by a Global Note, the aggregate outstanding nominal amount of the Notes and (b) in the case of each Note in definitive form, the product of the Calculation Amount and the Calculation Amount Factor) calculated up to and including the Redemption Date or the final Instalment Date, as the case may be.

**Global Floor Amount** means an amount determined by the Calculation Agent in accordance with the following formula:

$$\text{Max}(0, \text{Strike Price} - \Sigma \text{ Previous Coupons})$$

**Global Note Calculation Amount Factor** means a number equal to the aggregate outstanding nominal amount of the Notes divided by the Calculation Amount.

**Strike Price** means an amount in the Specified Currency per Calculation Amount specified as such in the applicable Final Terms, which shall be multiplied by:

*All capitalised terms that are not defined in these Issuer Redemption Switch Payoff Feature Conditions or elsewhere in the Terms and Conditions (including, without limitation, in the Definitions Conditions) will have the meanings given to them in the applicable Final Terms.*

### **3. ISSUER REDEMPTION SWITCH PAYOFF FEATURE**

*The Issuer may at its option (once during the life of the Notes) elect to switch the basis on which the Final Redemption Amount or the Instalment Redemption Amount, as the case may be, is calculated from (i) calculation of the Redemption Payoff using Linked Redemption<sub>1</sub> to (ii) calculation of the Redemption Payoff using Linked Redemption<sub>2</sub>, by sending a notice on or prior to the Issuer Redemption Switch Expiry Date. You should also refer to the relevant Common Payoff Conditions or Combination Payoff Conditions for an explanation of how to calculate the Redemption Payoff calculated using the relevant Common Redemption Payoff or Combination Payoff Conditions referred to for this Payoff Feature Condition.*

#### **3.1 Methodology**

If Issuer Redemption Switch Payoff Feature is specified in the applicable Final Terms to be applicable, the Issuer may, at its option, elect to switch the basis on which the Final Redemption Amount or the Instalment Redemption Amount, as the case may be, is calculated from Linked Redemption<sub>1</sub> to Linked Redemption<sub>2</sub> (the **Issuer Redemption Switch Option**).

- (a) The Issuer may, at its option, deliver the Issuer Redemption Switch Notice to Noteholders (with a copy to the Principal Paying Agent), specifying (as relevant) Linked Interest<sub>2</sub>, on any Business Day, on or after the Issuer Redemption Switch Notice Time on the Issuer Redemption Switch Notice Date and on or before the Issuer Redemption Switch Expiry Time on the Issuer Redemption Switch Expiry Date, provided that no Issuer Redemption Switch Notice may be given on or after the occurrence of an Early Redemption Date. The Issuer may exercise the Issuer Redemption Switch Option once only during the life of the Notes.
- (b) If the Issuer sends the Qualifying Noteholders the Issuer Redemption Switch Notice in accordance with paragraph (a) above, the Linked Redemption Rate applicable to the Notes in respect of the Final Redemption Amount or Instalment Redemption Amount, as the case may be, shall be determined by the Calculation Agent as follows:
  - (i) in the case of Notes other than Instalment Notes, in accordance with Linked Redemption<sub>2</sub>; or
  - (ii) in the case of Instalment Notes:
    - (A) on each Instalment Date up to (but excluding) the Investor Redemption Switch Date, in accordance with Linked Redemption<sub>1</sub>; and

### **4. KNOCK-OUT REDEMPTION SWITCH PAYOFF FEATURE**

*The basis on which the Final Redemption Amount or the Instalment Redemption Amount, as the case may be, is calculated will automatically switch from (i) calculation of the Redemption Payoff using Linked Redemption<sub>1</sub> to (ii) calculation of the Redemption Payoff using Linked Redemption<sub>2</sub> if either on the Knock-out Redemption Switch Observation Date(s) or during the Knock-out Redemption Switch Observation Period the Underlying Value reaches the relevant Knock-out Barrier or is within the relevant Range. For the avoidance of doubt, a Knock-out Redemption Switch can occur once only during the life of the Notes. You should also refer to the relevant Common Payoff Conditions or Combination Payoff Conditions for an explanation of how to calculate the Redemption Payoff calculated using the relevant Common Redemption Payoff or Combination Redemption Payoff referred to for this Payoff Feature Condition.*

#### **4.1 Methodology**

If Knock-out Redemption Switch Payoff Feature is specified to be applicable in the applicable Final Terms, the basis on which the Final Redemption Amount or the Instalment Redemption Amount, as the case may be, is calculated will automatically switch from Linked Redemption<sub>1</sub> to Linked Redemption<sub>2</sub> (a **Knock-out Redemption Switch**) if during the life of the Notes a Knock-out Redemption Switch Event occurs. For the avoidance of doubt, a Knock-out Redemption Switch can occur once only during the life of the Notes.

You should also refer to the relevant Common Payoff Conditions or Combination Payoff Conditions for an explanation of how to calculate the Redemption Payoff calculated using the relevant Common Redemption Payoff or Combination Redemption Payoff referred to for this Payoff Feature Condition.*

#### **5.1 Methodology**

If Knock-out Performance Redemption Switch Payoff Feature is specified to be applicable in the applicable Final Terms, the basis on which the Final Redemption Amount or the Instalment Redemption Amount, as the case may be, is calculated will automatically switch from Linked Redemption<sub>1</sub> to Linked Redemption<sub>2</sub> (the **Knock-out Performance Redemption Switch**) if, during the life of the Notes, a Knock-out Performance Redemption Switch Event occurs. The Issuer will, as soon as reasonably practical following the occurrence of a Knock-out Performance Redemption Switch Event, issue a Knock-out Performance Redemption Switch Notice. For the avoidance of doubt, a Knock-out Performance Redemption Switch Event can occur only once during the life of the Notes.

Consequently, the Redemption Payoff applicable to the Notes in respect of the Final Redemption Amount or the Instalment Redemption Amount, as the case may be, will be determined by the Calculation Agent:

## TAXATION

*This section sets out an overview of certain taxation considerations relating to the Notes*

**The tax legislation of the Noteholders' member state and of the Issuer's country of incorporation may have an impact on the income received from the Notes. All prospective Noteholders should seek independent advice as to their tax position.**

In addition, certain provisions of U.S. law, commonly referred to as FATCA, require a 30% withholding tax on certain US source payments as well as certain payments made by non-US entities to persons that fail to meet certain certification, reporting or related requirements. Noteholders should consult their own tax advisers regarding how these rules may apply to their investment in the Notes.

*The descriptions below are intended as a basic overview of certain withholding tax consequences in relation to the ownership of the Notes under current French tax law that may be relevant to Noteholders which (i) do not concurrently hold shares of the Issuer and (ii) are not otherwise affiliated with the Issuer within the meaning of Article 39, 12 of the French Code général des impôts (the French Tax Code – the **FTC**). This overview is based on the tax laws and regulations of France, as currently in force and applied by the French tax authorities, all of which are subject to change or to different interpretation with possible retroactive effect. This overview is for general information and does not purport to address all French tax considerations that may be relevant to specific Noteholders in light of their particular situation. Persons who are in any doubt as to their tax position should consult a professional tax adviser.*

### **Automatic exchange of tax information (“AETI”)**

The Organisation for Economic Co-operation and Development (“**OECD**”) has developed a common reporting standard (“**CRS**”) to achieve a comprehensive and multilateral automatic exchange of information (“**AEOI**”) on a global basis. On 9 December 2014, Council Directive 2014/107/EU amending Directive 2011/16/EU as regards mandatory automatic exchange of information in the field of taxation (the “**Euro-CRS Directive**”) was adopted in order to implement the CRS among the member states of the European Union.

Under the CRS Law, the exchange of information will be applied by 30 September of each year for information related to the preceding calendar year. Under the Euro-CRS Directive, the AEOI must be applied by 30 September of each year to the local tax authorities of the Member States for the data relating to the preceding calendar year. In addition, France signed the OECD's multilateral competent authority agreement (“**Multilateral Agreement**”) to automatically exchange information under the CRS. The Multilateral Agreement aims to implement the CRS among non-Member States; it requires agreements on a country-by-country basis.

### **DAC 6 Directive**

On 25 May 2018, the Council of the European Union adopted the Council Directive 2018/822/EU (the “**DAC 6 Directive**”) introducing mandatory disclosure rules for intermediaries. Depending on the transposition of the DAC 6 Directive in the domestic laws, the Notes may qualify as "reportable arrangements" based on certain criteria defined by the DAC 6 Directive and may be subject to disclosure to the tax authorities.

The French and the other EU Member States' tax authorities can exchange the information automatically within the EU through a centralised database open to all EU Member States' tax authorities and the EU Commission.

### **Withholding tax**

Payments of interest and other income made by the Issuer with respect to Notes will not be subject to the withholding tax provided by Article 125 A, III of the FTC unless such payments are made outside France in a non-cooperative State or territory (*Etat ou territoire non coopératif*) within the meaning of Article 238-0 A of the FTC (a **Non-Cooperative State**) other than those mentioned in 2° of 2 bis of Article 238-0 A of the FTC. If such payments under the Notes are made outside France in a Non-Cooperative State other than those mentioned in 2° of 2 bis of Article 238-0 A of the FTC, a 75 per cent. withholding tax will be applicable (regardless of the tax residence of the holders of the Notes and subject to exceptions, certain of which are set out below and to the provisions of any applicable double tax treaty) by virtue of Article 125 A, III of the FTC. The list of Non-Cooperative States is published by a ministerial executive order and is generally updated at least once a year.

Furthermore, according to Article 238 A of the FTC, interest and other income on such Notes may not be deductible from the Issuer's taxable income, if they are paid or accrued to persons established or domiciled in a Non-Cooperative State or paid to a bank account opened in a financial institution located in such a Non-Cooperative

State (the **Deductibility Exclusion**). Under certain conditions, any such non-deductible interest and other income may be recharacterised as constructive dividends pursuant to Articles 109 *et seq.* of the FTC, in which case such non-deductible interest and other income may be subject to the withholding tax provided by Article 119 *bis*, 2 of the FTC, at a rate of (i) 12.8 per cent. for payments benefiting individuals who are not French tax residents, (ii) 25 per cent. for payments benefiting legal persons who are not French tax residents, or (iii) 75 per cent. for payments made outside France in a Non-Cooperative State other than those mentioned in 2° of 2 bis of Article 238-0 A of the FTC (subject to certain exceptions and the provisions of any applicable double tax treaty).

Notwithstanding the foregoing, neither the 75 per cent. withholding tax provided by Article 125 A, III of the FTC nor the Deductibility Exclusion will apply in respect of the Notes solely by reason of the relevant payments being made to persons domiciled or established in a Non-Cooperative State or paid in such a Non-Cooperative State if the Issuer can prove that (i) the main purpose and effect of the issue of Notes were not that of allowing the payments of interest or other income to be made in a Non-Cooperative State (the **Exception**) other than those mentioned in 2° of 2 bis of Article 238-0 A of the FTC when it relates to Article 119 *bis*, 2 of the FTC and (ii) in respect of the Deductibility Exclusion that (a) it benefits from the Exception, and (b) that the relevant interest or other incomes relate to genuine transactions and are not in an abnormal or exaggerated amount. Pursuant to the official guidelines issued by the French tax authorities (BOI-INT-DG-20-50-30-14/06/2022, no. 150), an issue of Notes will benefit from the Exception without the Issuer having to provide any proof of the purpose and effect of such issue of Notes, if such Notes are:

- (a) offered by means of a public offer within the meaning of Article L.411-1 of the French *Code monétaire et financier* or pursuant to an equivalent offer in a State other than a Non-Cooperative State. For this purpose, an "equivalent offer" means any offer requiring the registration or submission of an offer document by or with a foreign securities market authority; or
- (b) admitted to trading on a French or foreign regulated market or multilateral securities trading system provided that such market or system is not located in a Non-Cooperative State, and the operation of such market is carried out by a market operator or an investment services provider, or by such other similar foreign entity, provided further that such market operator, investment services provider or entity is not located in a Non-Cooperative State; or
- (c) admitted, at the time of their issue, to the operations of a central depository or of a securities delivery and payments systems operator within the meaning of Article L.561-2 of the French *Code monétaire et financier*, or of one or more similar foreign depositories or operators provided that such depository or operator is not located in a Non-Cooperative State.

#### ***Payments made to French tax resident individuals***

Pursuant to Article 125 A, I of the FTC, subject to certain exceptions, interest and assimilated income received by individuals who are fiscally domiciled (*domiciliés fiscalement*) in France are subject to a 12.8 per cent. withholding tax, which is deductible from their personal income tax liability in respect of the year in which the payment has been made. Social contributions (CSG, CRDS and solidarity levy) are also levied by way of withholding at an aggregate rate of 17.2 per cent. on interest and assimilated income paid to individuals who are fiscally domiciled (*domiciliés fiscalement*) in France.

#### **Transfer tax and other taxes**

The following may be relevant in connection with Notes which may be settled or redeemed by way of physical delivery of (i) certain French listed shares (or certain assimilated securities) or (ii) securities representing such listed shares (or assimilated securities).

Pursuant to Article 235 *ter* ZD of the French *Code général des impôts*, a financial transaction tax (the **French FTT**) is applicable to any acquisition for consideration, resulting in a transfer of ownership, of (i) an equity security (*titre de capital*) as defined by Article L.212-1 A of the French *Code monétaire et financier* or an assimilated equity security (*titre de capital assimilé*) as defined by Article L.211-41 of the French *Code monétaire et financier*, admitted to trading on a recognised stock exchange where the said security is issued by a company whose registered office is located in France and whose market capitalisation exceeds 1 billion Euros on 1 December of the year preceding the year in which the imposition occurs (the **French Shares**) or (ii) a security (*titre*) representing the French Shares (irrespective of the location of the registered office of the issuer of such security). The French FTT could apply in certain circumstances to the acquisition of French Shares (or securities representing the French Shares) in connection with the exercise, settlement or redemption of any Notes.

There are a number of exemptions from the French FTT and investors should consult their counsel to identify whether they can benefit from them.

The rate of the French FTT is 0.3 per cent. of the acquisition value of the French Shares (or securities representing the French Shares).

If the French FTT applies to an acquisition of shares, this transaction is exempt from transfer taxes (*droits de mutation à titre onéreux*) which generally apply at a rate of 0.1 per cent. to the sale of shares issued by a company whose registered office is located in France, provided that in case of shares listed on a recognised stock exchange, transfer taxes are due only if the transfer is evidenced by a written deed or agreement.

## SUBSCRIPTION AND SALE

*This section sets out an overview of certain restrictions regarding who can purchase the Notes in certain jurisdictions.*

The Dealers, in an amended and restated programme agreement (the **Programme Agreement**, which expression shall include such agreement as it may be amended, supplemented or restated from time to time) dated 12 July 2024, have agreed with the Issuer upon a basis which they or any of them may from time to time agree to purchase Notes. Any such agreement will extend to those matters stated under "*Form of the Notes*" and "*Terms and Conditions of the Notes*". In the Programme Agreement, the Issuer has agreed, *inter alia*, to reimburse the Dealers for certain of their expenses in connection with the establishment of the Programme and any issue of Notes under the Programme and to indemnify them against certain liabilities.

The following selling restrictions may be modified by the Issuer and the relevant Dealers, including following a change in the relevant law, regulation or directive. Any such modification will be set out in the Final Terms issued in respect of the Tranche to which it is related or in a supplement to this Base Prospectus.

### European Economic Area

Unless the Final Terms in respect of any Notes specifies the "Prohibition of Sales to EEA Retail Investors" as "Not Applicable", each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not offered, sold or otherwise made available and will not offer, sell or otherwise make available any Notes which are the subject of the offering contemplated by this Base Prospectus as completed by the Final Terms in relation thereto to any retail investor in the European Economic Area. For the purposes of this provision:

- (a) the expression "retail investor" means a person who is one (or more) of the following:
  - (i) a retail client as defined in point (11) of Article 4(1) of MiFID II; or
  - (ii) a customer within the meaning of Directive 2016/97/EU, where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or
  - (iii) not a qualified investor as defined in Article 2(e) of the Prospectus Regulation; and
- (b) the expression an "offer" includes the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe for the Notes.

If the Final Terms in respect of any Notes specifies "Prohibition of Sales to EEA Retail Investors" as "Not Applicable" in relation to each Member State of the European Economic Area (each a "Relevant State"), each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree that it has not made and will not make an offer of Notes which are the subject of the offering contemplated by this Base Prospectus as completed by the Final Terms in relation thereto to the public in that Relevant State except that it may make an offer of Notes to the public in that Relevant State:

- (a) if the Final Terms in relation to the Notes specify that an offer of those Notes may be made other than pursuant to article 1(4) and/or article 3(2) of the Prospectus Regulation in that Relevant State (a Non-Exempt Offer), following the date of publication of a prospectus in relation to such Notes which has been approved by the competent authority in that Relevant State or, where appropriate, approved in another Relevant State and notified to the competent authority in that Relevant State, provided that any such prospectus has subsequently been completed by the final terms contemplating such Non-Exempt Offer, in accordance with the Prospectus Regulation in the period beginning and ending on the dates specified in such Prospectus or Final Terms, as applicable, and the Issuer has consented in writing to its use for the purpose of the Non-Exempt Offer;
- (b) at any time to any legal entity which is a qualified investor as defined in the Prospectus Regulation;
- (c) at any time to fewer than 150, natural or legal persons (other than qualified investors as defined in the Prospectus Regulation) subject to obtaining the prior consent of the relevant Dealer or Dealers nominated by the Issuer for any such offer; or
- (d) at any time in any other circumstances falling within Article 1(4) of the Prospectus Regulation,

provided that no such offer of Notes referred to in paragraphs (b) to (d) above shall require the Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Regulation or supplement a prospectus pursuant to Article 23 of the Prospectus Regulation.

For the purposes of this provision, the expression an "offer of Notes to the public" in relation to any Notes in any Relevant State means the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe for the Notes, and the expression "Prospectus Regulation" means Regulation (EU) 2017/1129, as amended.

#### Monaco

The Notes may not be offered or sold, directly or indirectly, to the public in Monaco other than by a Monaco duly authorised intermediary acting as a professional institutional investor which has such knowledge and experience in financial and business matters as to be capable of evaluating the risks and merits of an investment in the Notes. Consequently, this Base Prospectus may only be communicated to banks duly licensed by the *Autorité de Contrôle Prudentiel et de Résolution* and fully licensed portfolio management companies by virtue of Law n° 1.144 of July 26, 1991 and Law n° 1.338 of September 7, 2007, as amended by Law n° 1.515 of December 23rd, 2021 and by Law n° 1.529 of July 29th, 2022; all such entities must be duly licensed by the *Commission de Contrôle des Activités Financières*.

Such institutional investor is perfectly fluent in English and waives the right to a French version of this Base Prospectus (*les destinataires du présent document reconnaissent être à même d'en prendre connaissance en langue anglaise et renonce expressément à une traduction française*).

#### Switzerland

The Notes may not be publicly offered directly or indirectly, in, into or from Switzerland within the meaning of the Swiss Financial Services Act (**FinSA**) and will not be admitted to trading on any exchange or other trading venue in Switzerland. Neither this Base Prospectus nor any other offering or marketing material relating to the Notes constitutes a prospectus as such term is understood pursuant to the FinSA and neither this Base Prospectus nor any other offering or marketing material relating to the Notes may be publicly distributed or otherwise made publicly available in Switzerland.

If Notes qualifying as debt instruments with a "derivative character" (as such expression is understood under FinSA) are offered to private clients within the meaning of FinSA in Switzerland a key information document under Article 58 FinSA (Basisinformationsblatt für Finanzinstrumente) or Article 59(2) FinSA in respect of such Notes must be prepared and published. According to Article 58(2) FinSA, no key information document is required if Notes are acquired for private clients under an asset management agreement. For this purpose, a private client means a person who is not one (or more) of the following: (i) a professional client as defined in Article 4(3) FinSA (not having opted-in on the basis of Article 5(5) FinSA) or Article 5(1) FinSA; or (ii) an institutional client as defined in Article 4(4) FinSA; or (iii) a private client with an asset management agreement according to Article 58(2) FinSA. For these purposes "offer" refers to the interpretation of such term in Article 58 FinSA.

The Notes do not constitute a participation in a collective investment scheme in the meaning of Swiss Collective Investment Schemes Act (**CISA**) and they are neither subject to approval nor subject to supervision by the Swiss Financial Markets Supervisory Authority FINMA (**FINMA**). Investors in the Notes do not benefit from protection under CISA or supervision by FINMA or any other regulatory authority in Switzerland.

#### United Kingdom

Unless the Final Terms in respect of any Notes specifies the "**Prohibition of Sales to UK Retail Investors**" as "**Not Applicable**", each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not offered, sold or otherwise made available and will not offer, sell or otherwise make available any Notes which are the subject of the offering contemplated by this Base Prospectus as completed by the Final Terms in relation thereto to any retail investor in the United Kingdom.

Each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not made and will not make an offer of Notes which are the subject of the offering contemplated by this Base Prospectus as completed by the final terms in relation thereto to the public in the United Kingdom except that it may make an offer of such Notes to the public in the United Kingdom:

- (A) at any time to any legal entity which is a qualified investor as defined in Article 2 of UK Prospectus Regulation;
- (B) at any time to fewer than 150 natural or legal persons (other than qualified investors as defined in Article 2 of UK Prospectus Regulation) in the United Kingdom subject to obtaining the prior consent of the relevant Dealer or Dealers nominated by the Issuer for any such offer; or
- (C) at any time in any other circumstances falling within section 86 of the FSMA,

provided that no such offer of Notes referred to in (A) to (C) above shall require the Issuers or any Dealer to publish a prospectus pursuant to section 85 of the FSMA or supplement a prospectus pursuant to Article 23 of UK Prospectus Regulation.

Each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that:

- (a) it has only communicated or caused to be communicated and will only communicate or cause to be communicated an invitation or inducement to engage in investment activity (within the meaning of Section 21 of the FSMA) received by it in connection with the issue or sale of any Notes in circumstances in which Section 21(1) of the FSMA would not, if it was not an authorised person, apply to the Issuer; and
- (b) it has complied and will comply with all applicable provisions of the FSMA with respect to anything done by it in relation to any Notes in, from or otherwise involving the United Kingdom.

For the purposes of this provision:

- (a) the expression "retail investor" means a person who is one (or more) of the following:
  - (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 (**EUWA**); or
  - (ii) a customer within the meaning of the provisions of the Financial Services and Markets Act 2000 (**FSMA**) and any rules or regulations made under the FSMA to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA; or
  - (iii) not a qualified investor as defined in Article 2 of Regulation (EU) 2017/1129 as it forms part of domestic law by virtue of the EUWA (the **UK Prospectus Regulation**); and
- (b) the expression "an offer" includes the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe for the Notes.

Dealer nor the Issuer, its affiliates nor any person acting on its or their behalf has engaged or will engage in any directed selling efforts (as such term is used in Regulation S) with respect to the Notes and it and its affiliates and any person acting on its or their behalf has complied with and will comply with the offering restriction requirements of Regulation S under the Securities Act to the extent applicable.
