WHAT IS THE PRODUCT ?

TYPE

The Fund is a sub-fund of EdR Private Equity Select Access Fund III S.A., SICAV-RAIF, a *société anonyme* incorporated under the laws of Grand Duchy of Luxembourg as a *société d'investissement à capital variable – fonds d'investissement alternatif réservé*, established and existing under the laws of the Grand Duchy of Luxembourg, whose registered office is at 4, rue Robert Stumper, L-2557 Luxembourg, Grand Duchy of Luxembourg. The Fund qualifies as an alternative investment fund within the meaning of the Directive 2011/61/UE on alternative investment fund managers (the "AIFMD") as implemented in Luxembourg by the law of 12 July 2013 on alternative investment fund managers, as amended from time to time (the "AIFM Law"). Edmond de Rothschild Private Equity Luxembourg S.A. (the "AIFM") has been entrusted with the portfolio management and risk management of the Fund.

OBJECTIVES

The objective of the Fund is to invest all of its assets, after deduction of any fees and expenses including among others organizational expenses, fees, disbursements, out-of-pocket expenses or any other expenses in Amethis Fund III S.C.A, SICAV-RAIF, a Luxembourg investment company with variable capital (*société d'investissement à capital variable*) qualifying as a reserved alternative investment fund (*fonds d'investissement alternatif reservé*) governed by the Luxembourg law dated 23 July 2016 on reserved alternative investment funds as amended (the "2016 Law"), incorporated under the laws of Luxembourg in the form of a partnership limited by shares (société en commandite par actions) ("Amethis Fund III" or the "Master Fund"). The Master Fund is managed by its managing general partner, Amethis Fund III Management S.à r.I., a Luxembourg private limited liability company organised under the laws of the Grand Duchy of Luxembourg, having its registered office at 4, rue Robert Stumper, L-2557 Luxembourg, Grand Duchy of Luxembourg and registered with the Luxembourg Trade and Companies Register under number B274373.

The objectives of the Master Fund are to build a diversified portfolio of responsible risk capital equity investments (equity and equity-like products) in the Master Fund Target Jurisdictions (as defined below) representing risk capital investments in a view to optimize the risk-return ratio and to offer investors strong growth and return opportunities.

The Master Fund will make investments in companies in the African countries (the "Master Fund Target Jurisdictions") where the team has built a strong experience and acquired a deep sectorial understanding: countries with diversified economies and countries with economies "in transition" and strong prospects.

The Master Fund targets to make equity and equity-like investments in the securities of the target companies, with a view of developing these entities (the "Master Fund Portfolio Investments").

The Master Fund targets investments in ten to twelve (10 to 12) Master Fund Portfolio Investments with an investment size comprised between twenty-five million euros (EUR 25,000,000.-) to forty million euros (EUR 40,000,000.-) through direct or indirect shareholdings in portfolio companies holding such investments.

The Master Fund will invest primarily in majority or minority shareholdings. Minority shareholdings will be eligible as long as they provide sufficient management influence to secure the Master Fund's position as an active investor involved in project management or supervision, to allow negative control over the key aspects of the business and to offer corporate and financial expertise to the target investments.

The Master Fund will have a ten (10) years term, starting on its first closing date with a two (2) (one plus one (1+1)) year extension option upon expiration of the term.

For full details on the investment objectives and strategy of the Master Fund, please see the Fund's placement memorandum ("Fund Placement Memorandum").

WHAT HAPPENS IF THE FUND IS UNABLE TO PAY OUT?

Losses are not covered by an investor compensation or guarantee scheme. Furthermore, with respect to Edmond de Rothschild (Europe) S.A. as depositary of the Fund responsible for the safekeeping of the assets of the Fund (the "Depositary"), there is a potential default risk if the assets of the Fund held with the Depositary are lost. However, such default risk is limited due to the rules set out in Article 19 of the AIFM Law and in the Commission Delegated Regulation (EU) 231/2013, which require a segregation of assets between those of the Depositary and the Fund. The Depositary is liable to the Fund or to the investors of the Fund for the loss by the Depositary or one of its delegates of a financial instrument held in custody unless the Depositary is able to prove that the loss has arisen as a result of an external event beyond its reasonable control. For all other losses, the Depositary is liable in case of its negligent or intention failure to properly fulfil its obligations pursuant to the AIFM Law and any applicable rules and regulations.

1 The average return represents an estimate of the net internal rate of return (" Net IRR") for the investor. IRR is a method of calculating returns, used in Private Equity to compare investment profitability and corresponds to an annualized compounded return rate. The percentage return for the investor is determined based on the amount and timing of each contribution made to and each distribution received from the Fund. The term "Net" refers to the fact that the return is after costs.
