

MiFID II product governance / Retail investors, professional investors and eligible counterparties target market

– Solely for the purposes of the manufacturer's product approval process, the target market assessment in respect of the Notes, taking into account the five (5) categories referred to in item 18 of the Guidelines published by the European Notes and Markets Authority (**ESMA**) on 5 February 2018, has led to the conclusion that: (i) the target market for the Notes is eligible counterparties, professional clients and retail clients, each as defined in Directive 2014/65/EU (as amended, **MiFID II**); and (ii) all channels for distribution to eligible counterparties and professional clients are appropriate; and (iii) the following channels for distribution of the Notes to retail clients are appropriate - investment advice and portfolio management and non-advised sales and pure execution services, subject to the suitability and appropriateness obligations of the Distributor (as defined below) under MiFID II, as applicable. *The target market assessment indicates that Notes are incompatible with the needs, characteristic and objectives of clients which are fully risk averse or have no risk tolerance or are seeking on-demand full repayment of the amounts invested.* Any person subsequently offering, selling or recommending the Notes (a **Distributor**) should take into consideration the manufacturer's target market assessment; however, a Distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer's target market assessment) and determining appropriate distribution channels, subject to the Distributor's suitability and appropriateness obligations under MiFID II, as applicable.

PRIIPs Regulation – PROHIBITION OF SALES TO EEA RETAIL INVESTORS WITHOUT KID – The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area (**EEA**) without an updated key information document required by Regulation (EU) No 1286/2014 (as amended, the **PRIIPs Regulation**) for offering or selling the Notes or otherwise making them available to retail investors in the EEA. For these purposes, a **retail investor** means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of MiFID II; (ii) a customer within the meaning of Directive (EU) 2016/97, as amended, where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Regulation (EU) 2017/1129, as amended (the **Prospectus Regulation**).

UK PRIIPs Regulation – PROHIBITION OF SALES TO UK RETAIL INVESTORS – The Notes are not intended to be offered, sold or otherwise made available to, and should not be offered, sold or otherwise made available to, any retail investor in the United Kingdom (**UK**). For these purposes, a **retail investor** means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 (**EUWA**); (ii) a customer within the meaning of the provisions of the FSMA and any rules or regulations made under the FSMA to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA; or (iii) not a qualified investor as defined in Article 2 of Regulation (EU) 2017/1129 as it forms part of domestic law by virtue of the EUWA. Consequently no key information document required by Regulation (EU) No 1286/2014 as it forms part of domestic law by virtue of the EUWA (the **UK PRIIPs Regulation**) for offering or selling the Notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

There are risk factors which are material for the purpose of assessing the risks related to the Notes, including the following:

- 1) The Final Redemption Amount of the Notes are dependent upon changes in the market value of the Underlying, which could adversely affect the market value of the Notes.
- 2) The Notes are not principal protected and investors are exposed to the performance of the Underlying; accordingly, they risk losing all or a part of their investment if the value of the Underlying does not move in a positive direction.
- 3) The Notes may have no established trading market when issued, and one may never develop; if a market does develop, it may not be very liquid; illiquidity may have an adverse effect on the market value of the Notes.
- 4) French insolvency law could have an adverse impact on Noteholders seeking repayment in the event that the Issuer were to become insolvent and could have a material adverse effect on the market value of the Notes.
- 5) The risks associated with the provisions of Regulation (EU) 2016/1011 (the so-called Benchmark Regulation), which may have an adverse effect on the performance of the Underlying or lead to its disappearance and as a consequence, could have an adverse effect on the value or liquidity of, and return on, the Notes.
- 6) If a disruption event or any other event affecting the Underlying or the Notes (a **Disruption Event**) occurs on an any relevant observation or other date:
 - any consequential postponement of the relevant date or alternative provisions for valuation provided in the terms and conditions of such Notes may have an adverse effect on the value and liquidity of such Notes; and
 - the Issuer may (i) elect to notify to the Noteholders an early redemption of the Notes or (ii) make such adjustments to the terms and conditions of the Notes as it considers appropriate to reflect the consequences of the Disruption Event or (iii) elect to redeem the Notes at the Maturity Date on the basis of the capitalization of the market value of the Notes including any costs or gains to the Issuer or its Affiliates in unwinding any hedging arrangements entered into in respect of the Notes.
- 7) Movements in the level of the index or indices may be subject to significant fluctuations that may not correlate with changes in the relevant index or indices and the timing of changes in the relevant level of the index or indices may affect the actual yield of the Notes. The market price of the Notes may be volatile and may depend on the time remaining to the redemption date and the volatility of the level of the index or indices. The level of the index or indices may be affected by the economic, financial and political events in one or more jurisdictions, including but not limited to the stock exchange(s) or quotation system(s) on which any securities comprising the index or indices may be traded. Noteholders are exposed to the risk that changes in the levels of the index or indices may adversely affect the value of the Notes.
