Alongside the awards granted at company level, **3 funds from Edmond de Rothschild Asset Management were distinguished for their risk-adjusted performance:**

These awards highlight the quality of portfolio management at our investment house, as well as the complementary nature of our expertise in fixed income, equities and multi-asset investments.

The LSEG Lipper Fund Awards enjoy international recognition thanks to their proprietary quantitative methodology. For over 30 years, these awards have singled out, in nearly 20 countries, the funds with the strongest risk-adjusted performance over three, five or ten years relative to their peers. They have thus become a key reference for investors and distributors in their fund-selection process, providing independent insight into the consistency of performance and the quality of active management.
